Bestway 43040

Bestway 43040 Air Mattress User Manual

Model: 43040

INTRODUCTION

Thank you for choosing the Bestway 43040 Air Mattress. This manual provides essential information for the safe and proper setup, operation, and maintenance of your product. Please read these instructions carefully before use and retain them for future reference.

Important Safety Information:

- This is not a life-saving device. Do not leave children unattended while the device is in use.
- Use only under competent supervision.
- Do not over-inflate.
- Keep away from fire and sharp objects.
- Always check for leaks before each use.

PACKAGE CONTENTS

Verify that all components are present:

- 1 x Bestway 43040 Air Mattress
- 1 x Repair Patch

SETUP

1. Unpacking

Carefully remove the air mattress from its packaging. Unfold it completely on a clean, flat surface, free from sharp objects or debris.

2. Inflation

1. Locate the inflation valve on the air mattress.
2. Open the valve cap.
3. Insert the nozzle of a manual or electric air pump (not included) into the valve.
4. Inflate the mattress until it is firm to the touch but not hard. Avoid over-inflation, as this can damage the product.
5. Once inflated, quickly close the valve cap to prevent air leakage.

OPERATING INSTRUCTIONS

1. Using the Air Mattress

- This air mattress is designed for relaxation in water, such as pools or calm lakes.
- Carefully enter the water and position yourself on the mattress.
- The mattress features a comfortable frame structure designed to conform to your body for optimal relaxation.

2. Cup Holders

The integrated openings on the mattress can be used as convenient cup holders for your beverages while you relax.

MAINTENANCE

1. Cleaning

- After each use, rinse the air mattress with fresh water.
- Wipe it clean with a damp cloth and mild soap if necessary.
- Ensure the mattress is completely dry before deflating and storing to prevent mold or mildew.

2. Deflation and Storage

1. Open the inflation valve.
2. Gently press on the mattress to expel air. You can also use a pump with a deflate function.
3. Once fully deflated, fold or roll the mattress neatly.
4. Store in a cool, dry place, away from direct sunlight and sharp objects.

3. Repairing Punctures

If a small puncture occurs, use the included repair patch:

1. Ensure the mattress surface is clean and dry around the puncture.
2. Cut the repair patch to a size slightly larger than the puncture.

3. Peel off the backing and firmly press the patch over the puncture, smoothing out any air bubbles.
4. Allow at least 30 minutes for the patch to adhere before re-inflating.

TROUBLESHOOTING

- **Mattress deflates slowly:**
  - Check that the inflation valve cap is securely closed.
  - Inspect the mattress surface for small punctures. Use soapy water to locate leaks (bubbles will appear). Apply the repair patch as instructed.

- **Difficulty inflating:**
  - Ensure the pump nozzle is properly inserted into the valve and there are no air gaps.
  - Verify that the valve is fully open for inflation.

SPECIFICATIONS

Model Number	43040
Dimensions (Inflated)	190 cm x 72 cm (74.8 in x 28.3 in)
Material	Durable PVC
Color	Blue
Included Accessories	Repair Patch
ASIN	B0C1PYJB29
