

GOODUM D0053H

GOODUM Smart Door Lock User Manual

Model: D0053H

1. PRODUCT OVERVIEW

The GOODUM Smart Door Lock (Model D0053H) offers a reliable and convenient keyless entry solution for your home or office. This smart lock integrates multiple unlocking methods including fingerprint recognition, keypad codes, and traditional keys, providing enhanced security and ease of use without requiring complex app or network configurations. It is designed for straightforward installation and is suitable for various door types with adjustable backset and specific door thickness requirements.

2. INSTALLATION GUIDE

2.1 Pre-Installation Checks

- Ensure your door thickness is between **35-50mm (1.37-2.16 inches)**.
- The backset is adjustable between **2-3/8" (60mm)** and **2-3/4" (70mm)**.
- This product requires drilling a new hole in the door for proper installation.
- Do **NOT** insert batteries until the installation is fully completed.

2.2 Handle Orientation

The handle direction of this lock is reversible, making it suitable for both right-hand and left-hand doors. Adjust the handle orientation as needed during installation.

2.3 Step-by-Step Installation

Follow the detailed instructions provided in the packaging for precise installation. The process is designed to be user-friendly.

2.4 Product Dimensions

Refer to the diagram below for detailed product dimensions, which are crucial for preparing your door for installation.

Product Dimension

Unit: mm

Image 2.2: Dimensional drawing of the lock components, including the main unit and the deadbolt mechanism, with measurements in millimeters.

3. OPERATING INSTRUCTIONS

3.1 Unlocking Methods

The GOODUM Smart Door Lock supports multiple convenient unlocking methods:

- **Fingerprint Recognition:** Place your registered finger on the sensor.
- **Keypad Code:** Enter your 6-10 digit password on the keypad.
- **RFID Card:** Tap your registered card on the designated area.
- **Physical Key:** Use the provided traditional key as a backup.

Image 3.1: Visual representation of the smart lock's auto-locking and password unlock functionalities.

3.2 Auto-Locking Feature

The lock is equipped with an auto-locking feature, automatically securing the door within 10 seconds after it is closed, ensuring your property remains secure.

3.3 User Management

The lock supports up to **300 users**, allowing you to register multiple fingerprints, codes, and cards for family members, guests, or employees. Refer to the programming guide for adding and deleting users.

Without Fumbling for keys

Image 3.2: Demonstrates the convenience of keyless entry, eliminating the need to fumble for traditional keys.

3.4 One-Time Codes

For temporary access, such as for visitors or service personnel, you can generate one-time codes. This feature enhances security by providing access only for a limited duration or single use.

Image 3.3: Illustrates the use of one-time codes for convenient and secure temporary access.

4. MAINTENANCE

4.1 Battery Information

- The lock is powered by **4 x AAA batteries** (not included).
- Expected battery life is approximately **5,000 times opening**.
- An alarm will sound when the battery power drops below **4.6V**.
- After the low battery alarm, the lock can still be opened approximately **50 times** before complete power depletion. Replace batteries promptly when the alarm sounds.

4.2 Cleaning

Clean the lock's exterior with a soft, dry cloth. Avoid using abrasive cleaners or solvents that could damage the finish or electronic components.

4.3 Regular Checks

Periodically check the lock for any loose screws or components. Ensure the deadbolt operates smoothly without obstruction.

5. TROUBLESHOOTING

If you encounter issues with your GOODUM Smart Door Lock, please refer to the following common solutions:

1. **Lock Not Responding or Working Properly:**

- Check the battery level and replace batteries if low.
- Try resetting the lock. Refer to the programming guide for reset instructions.

2. **Difficulty with Fingerprint Recognition:**

- Ensure your finger is clean and dry.
- Try re-registering your fingerprint.

3. **Keypad Not Responding:**

- Verify battery power.
- Ensure no debris is obstructing the buttons.

4. **Missing Parts:**

- If any parts are missing from your package, please contact customer support for replacement.

5. **Persistent Issues:**

- If problems persist after attempting the above solutions, please contact the seller for detailed assistance.

6. SPECIFICATIONS

Feature	Detail
Brand	GOODUM
Model Name	D0053H
Lock Type	Keypad, Fingerprint
Special Feature	Fingerprint Recognition
Material	Metal
Color	Black
Item Dimensions (L x W x H)	6.3 x 3.4 x 2.8 inches (160 x 86 x 71 mm)
