EasyAcc 3000ml Electric Dehumidifier User Manual

Model: CS09DE-3000WT

1. INTRODUCTION

Thank you for choosing the EasyAcc 3000ml Electric Dehumidifier. This device is designed to reduce humidity in your environment, helping to prevent mold, mildew, and unpleasant odors. It also features an air purification function for improved air quality. Please read this manual carefully before operating the dehumidifier to ensure safe and efficient use.

2. IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, always follow these basic precautions:

- Read all instructions before using the appliance.
- Do not operate the dehumidifier with a damaged cord or plug.
- Ensure the power outlet voltage matches the rating label on the dehumidifier.
- Do not immerse the appliance, cord, or plug in water or other liquids.
- Keep the dehumidifier away from heat sources, direct sunlight, and flammable materials.
- Always place the unit on a stable, level surface.
- Do not block air inlets or outlets. Maintain at least 10 cm clearance around the unit.
- Unplug the dehumidifier before cleaning, maintenance, or when not in use.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Do not use the dehumidifier in extremely cold environments (below -10°C) or extremely hot environments (above 45°C).

3. PRODUCT OVERVIEW

The EasyAcc 3000ml Electric Dehumidifier is a compact and efficient device designed to improve your indoor air quality by reducing excess moisture and filtering airborne particles.

Figure 3.1: EasyAcc 3000ml Electric Dehumidifier with water tank.

Key Features:

- **Smart Touch Screen Display:** Shows real-time temperature and humidity.
- **Dual Semiconductor Technology:** Enhanced dehumidification capacity for faster and stronger moisture removal.
- **2-in-1 Dehumidifier & Air Purifier:** Integrated filter captures 99.97% of fine particles (up to 0.1 micron)

and larger pollutants like dust and pet dander.

- **Multiple Operating Modes:** High-speed, Night, and Auto modes to suit various needs.
- **48-Hour Timer:** Allows scheduled operation.
- **Automatic Defrost Function:** Ensures efficient operation even in lower temperatures (below 15°C).
- **3000ml Water Tank:** Large capacity reduces frequency of emptying.
- **Automatic Shut-off:** Unit turns off when the water tank is full, indicated by a red light.
- **Quiet Operation:** Operates at less than 30dB in Night mode.
- **Colorful Night Lights:** Integrated ambient lighting feature.

Components:

- Main Dehumidifier Unit
- Removable Water Tank (3000ml capacity)
- Power Adapter
- Built-in HEPA Filter (pre-installed)

4. SETUP

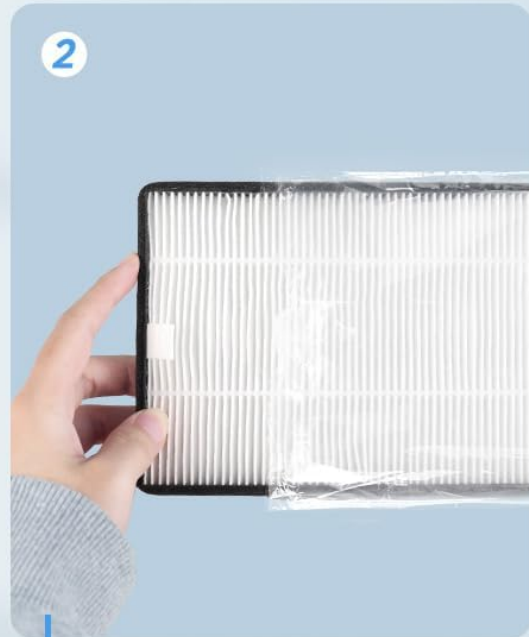

1. **Unpacking:** Carefully remove the dehumidifier from its packaging. Retain packaging for future storage or transport.
2. **Filter Preparation:** The dehumidifier comes with a built-in HEPA filter. Before first use, you must remove the plastic bag from the filter.

Warm Tips

Built-in HEPA filter
to filter out dust.

Please remove the
plastic bag first
before reinstall filter
to use dehumidifier.

Figure 4.1: Remove the plastic bag from the HEPA filter before use.

- Placement:** Place the dehumidifier on a firm, level surface in the desired location. Ensure there is at least 10 cm of clear space around all sides of the unit for proper airflow. Avoid placing it near walls, furniture, or curtains that could obstruct the air intake or outlet.
- Power Connection:** Plug the power adapter into the dehumidifier's power port, then plug the adapter into a suitable electrical outlet.

5. OPERATING INSTRUCTIONS

The dehumidifier features an intuitive touch screen control panel.

Figure 5.1: Touch screen control panel and operating modes.

Control Panel Functions:

- **Power Button (On/Off):** Press to turn the unit on or off.
- **Mode Selection:** Cycle through available operating modes.
- **Timer Button:** Set the operating duration.
- **LED Lights Button:** Control the ambient night lights.
- **Humidity Setting:** Adjust target humidity level (available in certain modes).
- **Display:** Shows real-time temperature, humidity, and selected settings.

Operating Modes:

- **Auto Mode (A):** The dehumidifier automatically turns on or off based on the ambient humidity to maintain a comfortable level. Ideal for high humidity environments.
- **Strong Mode:** Provides powerful and efficient dehumidification for rapid moisture reduction.
- **Night Mode (Sleep Mode):** Operates at a low noise level (less than 30dB) for undisturbed rest. The display lights may dim or turn off in this mode.

Figure 5.2: Sleep Mode with night light and colorful light options.

Timer Function:

The smart timer function allows you to set the dehumidifier to operate for a specific duration (2 to 48 hours). The unit will automatically shut off once the set time has elapsed.

Automatic Defrost:

When the ambient temperature drops below 15°C, the dehumidifier's automatic defrost function activates to prevent ice buildup on the condensation sheets, ensuring continuous and efficient operation even in cooler conditions.

Figure 5.3: Dehumidifier operating in low temperatures with automatic defrost.

Water Tank Full Indicator & Auto Shut-off:

The dehumidifier is equipped with a 3000ml water tank. When the tank is full, the unit will automatically shut off, and a red light will illuminate to remind you to empty the water tank.

100oz(3l) Tank Capacity

Automatic Shutdown, No More Frequent Pouring

6. MAINTENANCE

Regular maintenance ensures optimal performance and extends the lifespan of your dehumidifier.

Emptying the Water Tank:

1. When the water tank is full, the dehumidifier will stop operating and a red indicator light will appear.
2. Carefully pull out the water tank from the front of the unit.
3. Pour out the collected water.

4. Rinse the tank with clean water if necessary. Do not use harsh detergents.
5. Slide the empty water tank back into the dehumidifier until it clicks into place. The unit will resume operation.

Cleaning the Air Filter:

The built-in HEPA filter helps purify the air. Regular cleaning is recommended to maintain air purification efficiency.

1. Turn off and unplug the dehumidifier.
2. Locate the filter cover (usually on the back or side of the unit).
3. Remove the filter.
4. Gently clean the filter with a soft brush or vacuum cleaner to remove dust and debris. Do not wash the HEPA filter with water.
5. Reinsert the clean filter and close the cover.

Staub filtern, saubere Luft

Umweltfreundlich,
geringer Energieverbrauch

Figure 6.1: The dehumidifier filters dust for cleaner air.

General Cleaning:

Wipe the exterior of the dehumidifier with a soft, damp cloth. Do not use abrasive cleaners or solvents.

7. TROUBLESHOOTING

If you encounter issues with your dehumidifier, please refer to the following table:

Problem	Possible Cause	Solution
Dehumidifier does not turn on.	No power supply. Power cord not properly connected.	Ensure the power cord is securely plugged into both the unit and the wall outlet. Check the power outlet.
No water collected or low dehumidification.	Ambient humidity is too low. Room temperature is too low. Air inlets/outlets are blocked. Water tank is not properly inserted. Filter is clogged.	Ensure ambient humidity is above 40% RH. Ensure room temperature is above 5°C. Clear any obstructions around the unit. Reinsert the water tank correctly. Clean the air filter.
Unit stops operating and red light is on.	Water tank is full.	Empty the water tank and reinsert it properly.
Unusual odor during initial use.	New machine odor.	This is normal for new appliances and will dissipate with use. Ensure good ventilation.
Unit is noisy.	Unit is not on a level surface. Air filter is clogged.	Place the unit on a flat, stable surface. Clean the air filter.

8. SPECIFICATIONS

Feature	Specification
Brand	EasyAcc
Model Number	CS09DE-3000WT (DH-CSK03)
Color	White
Dimensions (L x W x H)	13.7 x 13.8 x 25.5 cm
Weight	3.38 Kilograms
Water Tank Capacity	3000 Milliliters (3 Liters)
Power	330 Watts
Material	Plastic
Number of Speeds	2
Special Feature	2-in-1 Air Purifier Function
Recommended Usage Area	Optimal for 5-30 m ² (220 sq ft)
Operating Temperature Range	-10°C to 45°C
