Tami Tami T600

Tami Tami T600 Twin XL Adjustable Bed Frame Instruction Manual

Model: T600 Luxury Adjustable Base with Massage

INTRODUCTION

Thank you for choosing the Tami Tami T600 Adjustable Bed Frame. This manual provides essential information for the safe and efficient operation, assembly, and maintenance of your new adjustable bed base. The T600 Twin XL model offers advanced features designed to enhance your sleep experience, including head and foot incline adjustments, massage functions, USB charging ports, and under-bed lighting.

SETUP AND ASSEMBLY

The Tami Tami T600 Adjustable Bed Frame is designed for quick and easy assembly, typically requiring no tools and taking approximately 5 minutes. It arrives pre-assembled in a compact form.

Assembly Steps:

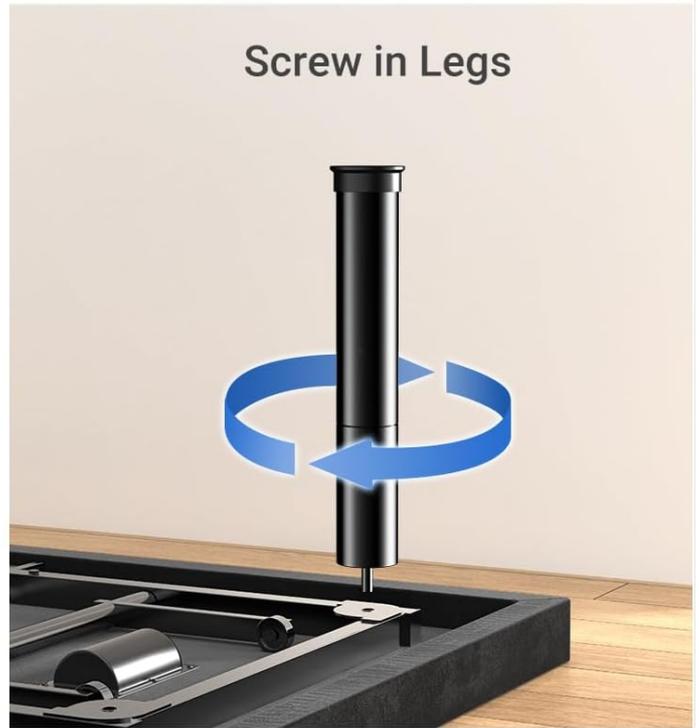

- 1. Unfold the Bed Frame:** Carefully unfold the bed base from its compact shipping position. Ensure it is placed in the desired location before fully unfolding, as it can be heavy (approximately 89 pounds for Twin XL).
- 2. Attach the Legs:** The bed frame comes with three height-adjustable legs. Simply screw the legs into the designated receivers on the underside of the frame. You can customize the bed's height to suit your preference.
- 3. Install Mattress Retainer Bar:** Attach the sturdy retainer bar at the foot of the bed frame. This bar prevents the mattress from sliding off when the head or foot sections are elevated.
- 4. Connect Power:** Plug the power cord into a grounded electrical outlet.
- 5. Place Mattress:** Position your compatible mattress (memory foam, gel foam, latex foam, or hybrid mattresses under 14 inches) onto the bed frame.

OPERATING INSTRUCTIONS

Your Tami Tami T600 bed frame is operated using a wireless remote control, offering a variety of comfort settings and convenient features.

Remote Control Functions:

- **Head and Foot Incline:** Adjust the head and foot sections independently or simultaneously to find your ideal position for sleeping, reading, or watching TV.
- **Zero Gravity Position:** A pre-set button to elevate your head and feet, distributing weight evenly to relieve pressure on the lower back and hips.
- **Anti-Snore Position:** A subtle head elevation designed to open airways and promote more comfortable breathing.
- **TV Position:** A pre-set position optimized for watching television or reading in bed.
- **Memory Positions (M1, M2):** Save your two favorite custom positions for quick recall.
- **One-Touch Flat:** Returns the bed to a completely flat position with a single button press.

- **Massage Modes:** Select from various massage modes (Wave, Pulse, Steady) and intensities to soothe your body. Includes a massage timer.
- **Under-Bed Light:** Activate the integrated nightlight for safe navigation in the dark.
- **Flashlight:** The remote control includes a built-in flashlight for added convenience.
- **Child Lock:** A safety feature to prevent unintended adjustments.
