Please verify that all items are present in your package:

- Giftalk ST-6645 Mini Car Vacuum Cleaner (1 unit)
- Long Blow Nozzle + Brush (1 set)
- Long Vacuum Nozzle + Brush (1 set)
- Blow Nozzle (1 unit)
- Vacuum Nozzle (1 unit)

- Storage Bag (1 unit)
- USB Cable (1 unit)
- Metal Washable Filter (1 unit)
- HEPA Washable Filter (2 units)

Product Overview

This image displays the Giftalk Mini Car Vacuum Cleaner along with all its included accessories, clearly labeling each component such as the vacuum cleaner unit, various nozzles, brushes, filters, USB cable, and storage bag.

The Giftalk ST-6645 is a versatile 3-in-1 handheld vacuum cleaner designed for various cleaning tasks. It features a powerful brushless motor, multiple washable filters, and a compact, portable design.

Setup

1. **Initial Charge:** Fully charge the vacuum cleaner for 4 hours before its first use. Connect the USB cable to the charging port on the vacuum and a suitable USB power source. The charging indicator will be red while charging and turn green when fully charged.
2. **Filter Installation:** Ensure the metal filter and one HEPA filter are correctly installed inside the dust cup before use.

3. **Nozzle Attachment:** Select the appropriate nozzle for your cleaning task and firmly attach it to the vacuum's intake or exhaust port, depending on the desired function.

This image illustrates the charging process, showing the USB cable connected and the indicator lights (red for charging, green for full). It also demonstrates how to long press the power button for 3 seconds to turn on the device and short press to switch to high grade.

Operating Instructions

1. Vacuum Mode

Attach the desired vacuum nozzle (e.g., long vacuum nozzle with brush) to the intake port. Long press the power button for 3 seconds to turn on the vacuum. Move the nozzle over the area to be cleaned. For stubborn dirt, use the brush attachment. Short press the power button to switch to high-grade suction if needed.

3-in-1 Multifunction

This image shows the handheld vacuum cleaner being used to effectively clean dirt and debris from a car floor mat, demonstrating its vacuuming capability.

120% Stronger Suction Upgraded to 12000PA

This image collage illustrates the versatility of the vacuum cleaner, showing it being used with different nozzles to clean tight spaces, car seats, and floor mats within a car's interior.

2. Dust Blower Mode

Attach the blow nozzle (or long blow nozzle with brush) to the exhaust port of the vacuum. Long press the power button to activate the blowing function. Use this mode to clear dust from keyboards, car vents, or other hard-to-reach areas where suction is not ideal.

This image demonstrates the vacuum cleaner's dust blowing function, showing it effectively clearing debris from a computer keyboard.

3. Vacuum Sealing Mode

Attach the vacuum sealing nozzle to the intake port. Place the nozzle over the air valve of a vacuum seal bag. Long press the power button to start vacuuming the air out of the bag. This mode is useful for compacting items for storage or travel.

Air Duster Mode

Powerful dust blowing, no hiding dust

This image illustrates the vacuum cleaner's capability to vacuum seal, showing it removing air from a bag containing food items.

Maintenance

1. Emptying the Dust Cup

Regularly empty the dust cup to maintain optimal suction power. Twist the dust cup counter-clockwise to detach it from the main unit. Dispose of collected debris and reattach the dust cup by twisting clockwise until secure.

2. Cleaning the Filters

The vacuum cleaner is equipped with 1 metal filter and 2 HEPA filters, which are washable and reusable. After emptying the dust cup, remove the filters. Rinse them under running water until clean. Allow the filters to air dry completely before reinserting them into the vacuum cleaner. Do not use a dryer or direct heat.

3 Washable and Reusable Filters

Longer service life and money-saving

This image shows the washable metal and HEPA filters being rinsed under running water, highlighting the ease of maintenance for extended product life.

Troubleshooting

Problem	Possible Cause	Solution
No power/Doesn't turn on	Battery is low or dead.	Charge the vacuum cleaner fully.
Weak suction	Dust cup is full. Filters are clogged. Nozzle is blocked.	Empty the dust cup. Clean or replace filters. Clear any blockages from the nozzle.
Unusual noise	Something is stuck in the fan or motor.	Turn off the device immediately. Inspect for foreign objects and remove them carefully. If noise persists, contact support.

Problem	Possible Cause	Solution
Charging indicator not working	Faulty USB cable or power adapter.	Try a different USB cable or power adapter.

Specifications

- **Brand:** Giftalk
