# Giantex Full Size Gold Bed Frame User Manual

Model: GX10387GD-F-UH

## 1. INTRODUCTION

---

Thank you for choosing the Giantex Full Size Gold Bed Frame. This manual provides detailed instructions for the assembly, operation, maintenance, and troubleshooting of your new bed frame. Please read this manual carefully before assembly and retain it for future reference. This bed frame is designed to provide a stable and comfortable foundation for your mattress, enhancing the aesthetics of your bedroom with its modern design.

## 2. SAFETY INFORMATION

---

### Important Safety Precautions:

- Exceeding the maximum weight capacity of **1100 lbs** can cause safety hazards and damage to the bed frame.
- Be aware of sharp corners during assembly and use to prevent injury.
- Improper assembly can lead to instability and potential hazards. Follow the assembly instructions carefully to ensure a safe and stable bed frame.
- Ensure all bolts and screws are tightened securely before use and periodically check for looseness.
- Keep small parts away from children during assembly to prevent choking hazards.

## 3. PRODUCT OVERVIEW

---

The Giantex Full Size Gold Bed Frame features a robust metal construction with an elegant velvet upholstered headboard and footboard. It is designed for durability, comfort, and style, providing ample under-bed storage space.

### Key Features:

- **Heavy-Duty Construction:** Crafted with metal slats for enhanced support and a strong load-bearing capacity of up to 1100 lbs.
- **Noise-Free Design:** Features a mute bar on the metal beam to prevent noise caused by friction, ensuring a quiet night's sleep.
- **Upholstered Comfort:** Headboard and footboard are padded with high-density sponge and covered with skin-friendly velvet for optimal comfort and a luxurious feel.
- **Ample Under-Bed Storage:** Provides 9.5 inches of clearance, ideal for storing items and facilitating easy

cleaning.

- **No Box Spring Needed:** Sturdy metal slats support the mattress directly, eliminating the need for a box spring. Recommended mattress thickness: 8"-12".
- **Adjustable Stability:** Middle support legs include adjustable foot pads to ensure higher stability on uneven surfaces and protect floors.

### Product Dimensions:

## 4. SETUP AND ASSEMBLY

---

The Giantex Full Size Gold Bed Frame is designed for easy assembly. All necessary accessories and parts are clearly marked. An installation manual is included in the package to guide you through the process.

### Assembly Steps:

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out. Refer to the included parts list in your installation manual to ensure all pieces are present and undamaged.
2. **Assemble Headboard and Footboard:** Follow the specific instructions in your manual to attach the main frame components to the headboard and footboard.
3. **Attach Side Rails:** Connect the side rails to the assembled headboard and footboard sections. Ensure all connections are secure.
4. **Install Metal Slats:** Place and secure the metal slats onto the designated supports on the side rails. Ensure they are evenly spaced and firmly attached.
5. **Secure Support Legs:** Attach and adjust the middle support legs with their foot pads to ensure the bed frame is level and stable.
6. **Final Tightening:** Once all components are in place, go back and tighten all bolts and screws firmly. Do not overtighten.

**Tip:** While assembly is designed to be straightforward, having two people can make the process easier, especially when handling larger components like the headboard and main frame sections.

## 5. OPERATING INSTRUCTIONS

---

The Giantex Full Size Gold Bed Frame functions as a stable and supportive base for your mattress. Proper operation primarily involves correct mattress placement and adherence to weight limits.

## Usage Guidelines:

- **Mattress Placement:** Carefully place your full-size mattress directly onto the metal slats. The upholstered footboard is designed to help prevent the mattress from sliding.
- **Recommended Mattress Thickness:** For optimal support and aesthetic appeal, use a mattress with a thickness between 8 and 12 inches. A box spring is not required.
- **Weight Capacity:** Do not exceed the maximum weight capacity of 1100 lbs (including mattress and occupants) to ensure the longevity and safety of the bed frame.
- **Under-Bed Storage:** Utilize the 9.5-inch under-bed space for storage. Ensure items stored do not obstruct airflow or put undue pressure on the bed frame's underside.

## 6. MAINTENANCE

---

Regular maintenance will help preserve the appearance and structural integrity of your Giantex bed frame.

### Care and Cleaning:

- **Metal Frame:** Wipe the gold metal frame with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the lacquered finish. Dry immediately with a clean cloth.
- **Velvet Upholstery:** For the velvet headboard and footboard, gently vacuum with an upholstery attachment to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For tougher stains, consult a professional upholstery cleaner or use a mild fabric cleaner specifically designed for velvet, testing on an inconspicuous area first.
- **Structural Check:** Periodically (e.g., every 3-6 months) check all bolts, screws, and connections to ensure they remain tight. Retighten if necessary to maintain stability and prevent squeaking.
- **Foot Pads:** Ensure the non-slip foot pads on the support legs are intact and properly positioned to protect your flooring.

## 7. TROUBLESHOOTING

---

This section addresses common issues you might encounter with your bed frame.

### Common Issues and Solutions:

Problem	Possible Cause	Solution
Squeaking noises	Loose connections; friction between metal parts.	Ensure all bolts and screws are tightened. The integrated mute bar should minimize friction, but check if it's properly seated.
Bed frame feels unstable/wobbly	Loose connections; uneven floor; support legs not properly adjusted.	Retighten all assembly hardware. Adjust the foot pads on the middle support legs to level the frame on uneven surfaces.
Mattress sliding	Mattress not properly seated; excessive movement.	Ensure the mattress is centered on the slats and against the footboard. The upholstered footboard is designed to help prevent sliding.
Damage to floor	Missing or damaged foot pads.	Verify that all support legs have their non-slip foot pads intact. Replace any damaged pads.
