

LEVOIT B0C23VH3V3

LEVOIT Air Purifier and Tower Fan User Manual

Model: B0C23VH3V3

1. INTRODUCTION

Thank you for purchasing the LEVOIT Air Purifier and Tower Fan. This manual provides essential information for the safe operation, maintenance, and troubleshooting of your device. Please read this manual thoroughly before use and retain it for future reference.

2. IMPORTANT SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, always follow basic safety precautions when operating this appliance.

- Always place the appliance on a firm, level surface.
- Do not immerse the appliance in water or other liquids.
- Keep the appliance away from heat sources, direct sunlight, and moisture.
- Ensure the voltage of your power outlet matches the appliance's rating.
- Do not operate the appliance with a damaged cord or plug.
- Unplug the appliance before cleaning or performing any maintenance.
- Keep children and pets away from the appliance during operation.
- Do not block air inlets or outlets.

3. PACKAGE CONTENTS

- 1 x LEVOIT Air Purifier
- 1 x LEVOIT Tower Fan

- 1 x True HEPA 3-in-1 Filter (pre-installed in air purifier)
- 1 x Remote Control (for Tower Fan)
- 1 x User Manual

4. PRODUCT OVERVIEW

Familiarize yourself with the components of your LEVOIT Air Purifier and Tower Fan.

Figure 1: LEVOIT Air Purifier and Tower Fan. This image displays the LEVOIT Air Purifier (left) and the LEVOIT Tower Fan (right). The air purifier is cylindrical with a white base and a dark top panel, while the tower fan is a tall, slender unit with a digital display and comes with a remote control.

Air Purifier Components:

- Control Panel (Top)
- Air Outlet (Top)
- Air Inlet (Bottom)
- Filter Cover (Bottom)
- True HEPA 3-in-1 Filter

Tower Fan Components:

- Control Panel / Display (Top)
- Air Outlet (Front)
- Base
- Remote Control

5. SETUP

5.1 Air Purifier Filter Installation

1. Before first use, open the filter cover at the bottom of the air purifier.
2. Remove the plastic packaging from the True HEPA 3-in-1 filter.
3. Place the filter back into the air purifier with the pull tabs facing outwards.
4. Replace the filter cover and twist clockwise to secure it.

5.2 Tower Fan Assembly

The LEVOIT Tower Fan typically comes pre-assembled. If any assembly is required, refer to the quick start guide included in the fan's packaging. Ensure the base is securely attached before use.

5.3 Placement

Place both the air purifier and tower fan on a flat, stable surface. Ensure there is at least 15 cm (6 inches) of clearance on all sides for optimal airflow.

6. OPERATING INSTRUCTIONS

6.1 Air Purifier Operation

1. **Power On/Off:** Plug in the air purifier. Press the Power button on the control panel to turn it on or off.
2. **Fan Speed:** Press the Fan Speed button to cycle through low, medium, and high speeds.
3. **Sleep Mode:** Press the Sleep Mode button to operate the purifier at its quietest setting with display lights off.
4. **Timer:** Press the Timer button to set the purifier to run for a specific duration (e.g., 2, 4, 8 hours).
5. **Filter Reset Indicator:** A light will illuminate when it's time to check or replace the filter. After replacing, press and hold the Filter Reset button for 3 seconds to reset the indicator.

6.2 Tower Fan Operation

The tower fan features button control on the unit and a remote control for convenience.

1. **Power On/Off:** Press the Power button on the control panel or remote to turn the fan on or off.
2. **Fan Speed:** Press the Speed button to adjust airflow intensity. The display will show the current speed setting.
3. **Modes:** Cycle through various modes (e.g., Normal, Natural, Sleep) using the Mode button.
4. **Oscillation:** Press the Oscillation button to activate or deactivate the fan's oscillating function, which distributes air across a wider area.
5. **Timer:** Use the Timer button to set an automatic shut-off time.

7. MAINTENANCE

7.1 Air Purifier Filter Replacement

The filter should be replaced every 6–8 months, depending on usage and air quality. The filter reset indicator will remind you.

1. Unplug the air purifier.
2. Remove the filter cover and the old filter.
3. Dispose of the old filter properly.
4. Unwrap a new LEVOIT True HEPA 3-in-1 replacement filter.
5. Insert the new filter, replace the cover, and reset the filter indicator as described in Section 6.1.

7.2 Cleaning

- Always unplug both devices before cleaning.
- Wipe the exterior of the air purifier and tower fan with a soft, dry cloth.
- Do not use abrasive cleaners or chemicals.
- Clean the air inlet and outlet grilles with a soft brush or vacuum cleaner to remove dust buildup.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in; power outlet malfunction; power button not pressed.	Ensure the power cord is securely plugged in. Try a different outlet. Press the power button firmly.
Air Purifier has reduced airflow or unusual noise.	Filter is dirty or clogged; filter packaging not removed.	Check and replace the filter if necessary. Ensure all plastic packaging has been removed from the filter.
Tower Fan is not oscillating.	Oscillation function is off.	Press the Oscillation button on the control panel or remote.
Filter Reset Indicator remains on after filter change.	Indicator not reset.	Press and hold the Filter Reset button for 3 seconds until the light turns off.

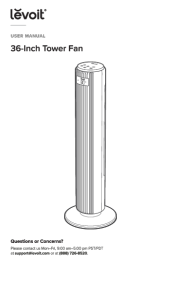

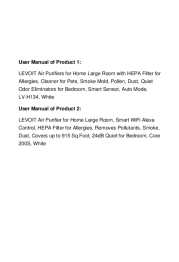

9. SPECIFICATIONS

- **Brand:** LEVOIT
- **Model:** B0C23VH3V3
- **Manufacturer:** LEVOIT
- **Air Purifier CADR:** 141 CFM / 240 m³/h
- **Air Purifier Coverage Area:** Purifies 1,095 ft² once per hour
- **Noise Level:** 55 dB (maximum)
