2. SAFETY INFORMATION

Please read all instructions carefully before assembly and use. Retain this manual for future reference.

- Do not overload the hamper beyond its stated capacity of 100 lbs (45 kg).

- Ensure all wheels are locked when the hamper needs to remain stationary, especially on sloped surfaces.
- Keep hands and fingers clear of moving parts, particularly during assembly and when engaging/disengaging wheel brakes.
- Do not allow children to climb on or play inside the hamper.
- Use only as intended for laundry and general storage.
- Avoid placing hot items or liquids directly into the canvas bag.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all parts are present and undamaged. If any parts are missing or damaged, please contact customer support.

4. SETUP AND ASSEMBLY

Assembly is straightforward and typically takes less than 20 minutes. No additional tools are required beyond what is provided.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface.
2. **Assemble the Steel Frame:** Connect the steel frame components according to the included diagram. Ensure all connections are secure.
3. **Attach Wheels:** Insert the four multi-directional wheels into the designated slots on the base of the steel frame. Press firmly until they click into place. Ensure the two wheels with brakes are positioned on the same side for easier access.
4. **Insert Canvas Bag:** Place the canvas laundry bag into the assembled steel frame.

5. **Secure the Bag:** Use the button closures or buckles provided to secure the canvas bag to the top rim of the steel frame. This ensures the bag remains firmly in place during use and transport.

5. OPERATING INSTRUCTIONS

Using Your Laundry Hamper:

- **Loading Laundry:** Place dirty clothes or other items directly into the canvas bag. The 160L capacity allows for a significant volume of items.
- **Moving the Hamper:** To move the hamper, ensure the wheel brakes are disengaged. Use the integrated handles or push the frame to roll it smoothly across various floor surfaces.
- **Locking Wheels:** When you need the hamper to remain stationary, push down the levers on the two lockable wheels to engage the brakes. This prevents unintended movement.
- **Unlocking Wheels:** To move the hamper again, lift the levers on the lockable wheels to disengage the brakes.

- **Multipurpose Use:** Beyond laundry, this cart can be used to transport or store children's toys, sports equipment, or other household goods, helping to keep your space organized.

6. MAINTENANCE

Regular maintenance will ensure the longevity and optimal performance of your laundry hamper.

- **Cleaning the Canvas Bag:** The canvas material is wear-resistant and easy to clean. For light dirt, wipe with a damp cloth. For heavier stains, a mild soap solution can be used, followed by wiping with a clean, damp cloth. Allow to air dry completely before reuse. Do not machine wash or tumble dry.
- **Frame Care:** The steel frame has a rust-resistant powder coating. Wipe the frame with a dry or slightly damp cloth as needed to remove dust or dirt. Avoid abrasive cleaners.
- **Wheel Maintenance:** Periodically check the wheels for any accumulated lint, hair, or debris that might hinder smooth rolling. Clean as necessary. Ensure the wheel brakes engage and disengage properly.
- **Storage:** When not in use, store the hamper in a dry environment to prevent moisture damage to the canvas or

frame.

7. TROUBLESHOOTING

If you encounter any issues with your STORAGE MANIAC Commercial Laundry Hamper, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Hamper does not roll smoothly.	Wheel brakes are engaged; debris caught in wheels.	Ensure wheel brakes are disengaged. Check wheels for lint, hair, or other obstructions and remove them.
Hamper is unstable or wobbly.	Frame components not fully secured; uneven load.	Check all frame connections and ensure they are tightly assembled. Distribute the load evenly within the canvas bag.
Canvas bag sags or detaches from frame.	Bag not properly secured; overloaded.	Ensure all button closures/buckles are securely fastened to the frame. Do not exceed the 100 lbs (45 kg) weight limit.
