5. SETUP AND INSTALLATION

This fixture is designed for US standard junction boxes. No complicated installation procedures are required, but professional installation is recommended for safety.

5.1 Pre-Installation

- Turn off power at the circuit breaker.
- Ensure the mounting surface is clean, dry, and structurally sound.
- Unpack all components and inspect for any damage.

5.2 Mounting the Fixture

1. Attach the mounting bracket to the junction box using the provided screws.
2. Connect the electrical wires (black to black, white to white, ground to ground) using wire nuts.
3. Carefully tuck the wires into the junction box.
4. Align the fixture base with the mounting bracket and secure it with the provided screws.

5.3 Installing Bulbs and Crystal Shades

- Prepare E26 standard bulbs (maximum 60W, not included). Compatible types include LED, halogen, incandescent, and energy-saving bulbs.
- Screw the bulbs into the E26 US standard sockets.
- Attach the clear K9 crystal shades to the fixture. The shades are designed with holes to fit onto small pins on the fixture.

6. OPERATING INSTRUCTIONS

Once installed and power is restored, the vanity light can be operated via a standard wall switch. If using dimmable E26 bulbs and a compatible dimmer switch, the light can be dimmed. The fixture also supports 3000K (warm white), 4000K (neutral white), and 6000K (cool white) color temperatures, depending on the bulbs used and if controlled by a compatible remote system.

7. MAINTENANCE

To maintain the appearance and functionality of your vanity light, follow these guidelines:

- **Cleaning:** Use a soft, dry cloth to gently wipe the chrome finish and crystal shades. For more thorough cleaning, a slightly damp cloth can be used on the metal parts, followed by a dry cloth. A dust brush can be used to clean inside and outside the crystal shades. Avoid abrasive cleaners or solvents that may damage the finish or crystals.
- **Bulb Replacement:** Ensure power is off before replacing bulbs. Allow bulbs to cool completely before handling.
- **Crystal Care:** The fixture includes additional replacement crystal strips. If a crystal is damaged, carefully replace it using the spare parts.

8. TROUBLESHOOTING

If you encounter issues with your FDPBY Modern Bathroom Vanity Light, consider the following:

- **Light not turning on:** Check the circuit breaker, ensure bulbs are correctly installed and not burnt out, and verify all electrical connections are secure.
- **Flickering lights:** Ensure bulbs are fully screwed in. If using dimmable bulbs, confirm compatibility with your dimmer switch.
- **Uneven light distribution:** Verify all crystal shades are properly seated and clean.

If problems persist, consult a qualified electrician or contact customer support.
