1. INTRODUCTION

Thank you for choosing the Fackelmann Statement Lift-Up Serving Spoon. This versatile kitchen tool is designed to enhance your cooking and serving experience with its innovative features and durable construction. This manual provides essential information for the proper use, care, and maintenance of your new serving spoon.

The Fackelmann Statement Serving Spoon is an all-round talent, ideal for various cooking and serving tasks. Its unique lift-up function helps maintain a clean kitchen by keeping the spoon head elevated from your work surface. Constructed from high-quality silicone and metal, it is safe for use with coated pots and pans, preventing scratches. The ergonomically shaped handle features a honeycomb structure for a secure, non-slip grip, allowing you to focus on your culinary creations.

2. SETUP AND FIRST USE

Your Fackelmann Statement Lift-Up Serving Spoon requires minimal setup before its first use.

1. **Unpacking:** Carefully remove the serving spoon from its packaging.
2. **Initial Cleaning:** Before using for the first time, wash the spoon thoroughly with warm soapy water or place it in a dishwasher. Rinse well and dry completely.

3. OPERATING INSTRUCTIONS

The Fackelmann Statement Lift-Up Serving Spoon is designed for ease of use in various kitchen tasks.

3.1 General Use

- Use the spoon for stirring, mixing, serving, and transferring food items. Its broad head is suitable for a variety of dishes, from sauces to vegetables.
- The spoon is heat-resistant up to +230 °C, making it safe for use with hot foods and during cooking processes.

3.2 Lift-Up Function

- The integrated lift-up function allows the spoon head to rest elevated when placed on a flat surface,

such as a countertop or stovetop. This prevents direct contact between the spoon head and the surface, minimizing mess and maintaining hygiene.

- Simply place the spoon down, and its unique design will keep the working end off the surface.

3.3 Coated Cookware Compatibility

- The spoon's silicone and metal construction is specifically designed to be gentle on delicate surfaces. It is suitable for use with all types of coated pots and pans, including non-stick, ceramic, and enamel, without causing scratches or damage.

3.4 Ergonomic Handle

- The handle is ergonomically shaped with a honeycomb texture to provide a comfortable and secure grip, even when wet or oily. This design reduces hand fatigue during prolonged use and prevents slipping.

4. MAINTENANCE AND CARE

Proper care will ensure the longevity and optimal performance of your Fackelmann Statement Lift-Up Serving Spoon.

4.1 Cleaning

- The serving spoon is dishwasher-safe. For best results, place it in the top rack of your dishwasher.
- Alternatively, wash by hand using warm water and mild dish soap. Rinse thoroughly and dry immediately to prevent water spots.
- Avoid using abrasive cleaners, scouring pads, or harsh chemicals, as these can damage the silicone and metal surfaces.

4.2 Storage

- Store the spoon in a dry place, such as a utensil drawer or a utensil holder.
- The handle features a hanging hole for convenient storage on a hook.

5. TROUBLESHOOTING

While the Fackelmann Statement Lift-Up Serving Spoon is designed for durability and performance, here are some common considerations:

- **Food Sticking:** If food residue sticks to the silicone, soak the spoon in warm soapy water for a few minutes before washing.
- **Discoloration:** Certain highly pigmented foods (e.g., tomato sauce, turmeric) may cause temporary discoloration of the silicone. This is normal and does not affect the spoon's performance or safety.

Exposure to sunlight can sometimes help reduce discoloration.

- **Odor Retention:** If the silicone retains odors, try soaking it in a mixture of baking soda and water, or rub it with a lemon wedge before washing.

6. PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	25292
Material	Silicone, Metal
Color	Gray
Approximate Size	29 cm (11.4 inches)
Product Dimensions (L x W)	11.81"L x 2.36"W
Item Weight	0.16 Kilograms (5.6 ounces)
Heat Resistance	Up to +230 °C
Dishwasher Safe	Yes
Handle Material	Silicone, Metal
