SOAR BTX2

SOAR NCAA Shockbox LED Wireless Bluetooth Speaker User Manual

Model: BTX2 (NCAA-BTX2-TXT)

INTRODUCTION

Thank you for purchasing the SOAR NCAA Shockbox LED Wireless Bluetooth Speaker. This manual provides essential information for setting up, operating, and maintaining your speaker to ensure optimal performance and longevity. Please read this manual thoroughly before using the product.

KEY FEATURES

- Bluetooth 5.0 technology with a 30ft wireless range for seamless connectivity.
- Ability to sync two speakers together for enhanced stereo sound.
- Durable, shockproof, and water-resistant construction for outdoor use.
- Over 5 hours of play time per charge.
- Multicolor LED lights that synchronize with the music beat.
- Convenient top handle for easy portability and storage.

PACKAGE CONTENTS

Ensure all items are present upon unboxing:

- SOAR NCAA Shockbox LED Wireless Bluetooth Speaker
- Micro-USB Charging Cable
- User Manual (this document)

SETUP GUIDE

1. Charging the Speaker

Before first use, fully charge the speaker. The speaker provides over 5 hours of playtime on a full charge.

1. Locate the micro-USB charging port on the back of the speaker, usually protected by a rubber flap.
2. Connect the provided micro-USB cable to the speaker's charging port.
3. Connect the other end of the USB cable to a compatible USB power source (e.g., computer, wall adapter).
4. The LED indicator will show charging status (e.g., red for charging, off or blue for fully charged).

Image: Rear view of the speaker, highlighting the charging port and power switch, typically covered by a protective flap.

2. Bluetooth Pairing

Pair your speaker with a Bluetooth-enabled device to stream audio wirelessly.

1. Ensure the speaker is fully charged and powered off.
2. Slide the power switch to the "ON" position. The speaker will enter pairing mode, indicated by a flashing LED light.
3. On your device (smartphone, tablet, etc.), enable Bluetooth and search for available devices.

4. Select "SOAR BTX2" (or similar name) from the list of devices.
5. Once connected, the LED indicator will typically show a solid blue light, and you may hear an audible confirmation.

3. Syncing Two Speakers for Stereo Sound

For an immersive audio experience, you can pair two SOAR Shockbox speakers together.

1. Ensure both speakers are charged and powered off.
2. Turn on both speakers. Do not pair them with your device yet.
3. On one speaker, double-press the power button (or a dedicated sync button if available, refer to specific model instructions). This speaker will become the primary speaker.
4. The primary speaker will search for the secondary speaker. Once connected, you will hear a confirmation tone.
5. Now, pair the primary speaker with your Bluetooth device as described in "2. Bluetooth Pairing". Both speakers will now play audio in stereo.

OPERATING INSTRUCTIONS

Power On/Off

- To power on, slide the power switch to the "ON" position.
- To power off, slide the power switch to the "OFF" position.

Playing Audio

- Once paired with your device, simply start playing audio from your device. The sound will be transmitted to the speaker.
- Adjust volume directly from your connected device.

LED Light Features

The speaker features multicolor LED lights that react to the rhythm of your music.

- The LED lights are automatically activated when the speaker is on and playing music.
- There is no manual control for the LED light patterns; they are designed to sync with the audio.

MAINTENANCE AND CARE

- Cleaning:** Use a soft, damp cloth to clean the exterior of the speaker. Avoid harsh chemicals or abrasive cleaners.
- Water Resistance:** While water-resistant, avoid submerging the speaker in water for extended periods. Ensure the charging port flap is securely closed when near water.
- Storage:** Store the speaker in a cool, dry place away from direct sunlight and extreme temperatures when not in use.
- Battery Care:** To prolong battery life, avoid fully discharging the speaker frequently. Charge it regularly, even if not in constant use.

TROUBLESHOOTING

Problem	Solution
Speaker does not power on.	Ensure the speaker is fully charged. Connect it to a power source using the micro-USB cable.
Cannot pair with Bluetooth device.	Ensure the speaker is in pairing mode (flashing LED). Make sure Bluetooth is enabled on your device. Move the speaker closer to your device (within 30ft). Forget "SOAR BTX2" from your device's Bluetooth settings and try pairing again. Ensure no other devices are currently connected to the speaker.
No sound or low volume.	Increase the volume on both the speaker and your connected device. Ensure the speaker is properly paired. Check if the audio source on your device is playing.
Two speakers not syncing for stereo.	Ensure both speakers are powered on and not paired to any other device. Follow the stereo pairing instructions carefully, ensuring you double-press the button on one speaker to initiate the sync.
