SETUP INSTRUCTIONS

1. **Unpack the Lamp:** Carefully remove all components from the packaging. Inspect for any damage.
2. **Position the Lamp:** Place the lamp on a stable, flat surface. Ensure there is adequate space around the lamp for ventilation and adjustment.
3. **Install the Bulb:**
 - Ensure the lamp is unplugged from the power source.
 - Gently screw an E27 base bulb (not included) into the lamp socket until it is secure. Do not overtighten.
 - *Note:* The lamp is designed for a maximum wattage of 5W. Using a bulb with higher wattage may damage the lamp or pose a safety risk.
4. **Connect to Power:** Insert the power adapter plug into the lamp's power input port. Then, plug the power adapter into a standard electrical outlet.

OPERATING INSTRUCTIONS

1. **Power On/Off:** The lamp features touch control. Gently touch the designated touch sensor on the lamp base or stem to turn the lamp on or off.
2. **Adjusting Brightness/Modes:** Repeatedly touch the sensor to cycle through available brightness levels or lighting modes (if applicable). Refer to the product specifications for specific features.
3. **Positioning:** Adjust the lamp head and arm to direct light as needed. Handle the lamp gently to avoid damage to moving parts.

MAINTENANCE

- **Cleaning:** Disconnect the lamp from the power supply before cleaning. Use a soft, dry cloth to wipe the lamp. Do not use abrasive cleaners, solvents, or excessive moisture, as these can damage the finish or electrical components.
- **Bulb Replacement:**
 - Always unplug the lamp before replacing the bulb.
 - Allow the old bulb to cool completely before touching it.
 - Unscrew the old E27 bulb counter-clockwise and remove it.
 - Screw in a new E27 bulb (max 5W) clockwise until secure.
 - Reconnect the lamp to power.
- **Storage:** If storing the lamp for an extended period, ensure it is clean, dry, and stored in a safe place away from extreme temperatures or humidity.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Lamp does not turn on.	No power supply. Bulb is loose or faulty. Touch sensor malfunction.	Check if the power adapter is securely plugged into the lamp and the wall outlet. Ensure the bulb is screwed in tightly. Replace the bulb if it is burnt out. Try touching the sensor multiple times or unplugging and replugging the lamp.
Light flickers.	Loose bulb connection. Faulty bulb. Unstable power supply.	Tighten the bulb. Replace the bulb with a new one. Try plugging the lamp into a different outlet.
