## 7. Care and Maintenance

To maintain the quality and appearance of your bamboo storage shelf, wipe it with a damp cloth as needed. Avoid using harsh chemicals or abrasive cleaners, which can damage the PU paint finish. Ensure the area around the feet pads remains dry to prevent moisture damage.

## 8. Safety Information

---

Assemble the shelf carefully and ensure it is securely installed using the provided wall nails. Do not exceed the maximum load capacity of 220 lbs to prevent damage or injury. Regularly check all screws and connections to ensure they remain tight. Keep small children and pets away from the unit during assembly and ensure it is stable before loading items.

## 9. Troubleshooting

---

- **Wobbly Unit:** Ensure all screws are tightened. Verify the unit is placed on a flat, level surface. Adjust the waterproof feet pads if necessary to compensate for uneven flooring.
- **Lack of Clearance:** Double-check the dimensions of your toilet and the shelf's bottom clearance (37.4"H). If the toilet lid is obstructed, ensure the unit is pushed back as far as possible or consider adjusting the side storage position.
- **Missing Parts:** If any parts are missing or damaged upon arrival, please contact Homde customer support for assistance.
