

Diivoo Diivoo

Diivoo 2-Outlet Wi-Fi Irrigation Computer User Manual

Model: Diivoo

INTRODUCTION

This manual provides comprehensive instructions for the Diivoo 2-Outlet Wi-Fi Irrigation Computer. This smart device allows for automated and controlled watering of your garden, compatible with the Smart Life app and voice assistants like Alexa and Google Assistant. Please read this manual carefully before use to ensure proper operation and longevity of your device.

SETUP GUIDE

1. Unpacking and Initial Inspection

Carefully remove all components from the packaging. Verify that all parts are present and undamaged. The package should include the irrigation computer, a Wi-Fi hub, and necessary connectors.

2. Installing Batteries

Open the battery compartment on the irrigation computer. Insert the required batteries (typically AA, check device for specific type) ensuring correct polarity. Close the battery cover securely to maintain its waterproof seal.

3. Connecting to Water Source

Attach the irrigation computer to your outdoor faucet. Ensure a tight connection to prevent leaks. Use the provided sealing rings and thread sealing tape if necessary for a secure fit.

WiFi-bediening met Smart Life App

4. Smart Life App Installation and Device Pairing

1. **Download the Smart Life App:** Search for "Smart Life" in your smartphone's app store (iOS or Android) and install it.
2. **Register/Log In:** Open the app and create a new account or log in with an existing one.
3. **Connect the Wi-Fi Hub:** Plug in the Wi-Fi hub within 15 meters of the irrigation computer. Ensure your phone is connected to a **2.4 GHz Wi-Fi network**. The device does not support 5 GHz Wi-Fi.
4. **Add Devices:** In the Smart Life app, tap the "+" icon to add a new device. Select the gateway (Wi-Fi hub) first, then add the irrigation computer. Follow the on-screen instructions to complete the pairing process. Ensure both the gateway and the irrigation computer are blinking as indicated in the app during pairing.

Image: A smartphone screen showing the Smart Life app interface with multiple Diivoo smart water timers successfully paired and listed under a gateway. This confirms successful device integration.

OPERATING INSTRUCTIONS

1. Programming Irrigation Schedules (Smart Life App)

The Diivoo irrigation computer features two independent outlets, each capable of supporting up to 20 different irrigation plans. This allows for customized watering schedules for different areas of your garden.

- **Individual Zone Control:** Each outlet (Zone 1 and Zone 2) can be programmed independently.
- **Timed Watering:** Set specific start times, duration (1 minute to 24 hours), and frequency (e.g., daily, specific days of the week, odd/even days, every few days).
- **Cyclic Irrigation:** For continuous or repeated watering, set a start time, end time, duration, and interval (1 minute to 24 hours).

Timed Watergeefschema

Water op een bepaalde tijd

The image shows a woman in a white shirt and denim overalls, holding a blue and orange spray nozzle, spraying water onto a green plant. The background is a lush green garden. Overlaid on the left side of the image is a smartphone screen displaying the 'Add Timed Watering Schedule' interface of the Smart Life app. The interface includes a table for setting watering times, an 'Irrigation Duration' setting, and four frequency options: 'Weekly cycle', 'Odd day', 'Even day', and 'Every few days'. The 'Weekly cycle' option is selected, and the days of the week are shown as buttons. Below the phone, the text '4 aanpasbare frequentie-instellingen' is displayed, followed by four icons representing the frequency options: a calendar with a number 7, a calendar with a dot, a calendar with two dots, and a calendar with three dots. Below these icons are the labels: 'Wekelijkse cyclus', 'Vreemde dag', 'Even dag', and 'Elke paar dagen'.

Time	Time

2 Uitgangen & 40 Individueel plan voor één zone

Elk stopcontact werkt als een aparte timer met maximaal 20 instelbare starttijden per dag

Image: An overhead view of a garden being watered by sprinklers, with a smartphone in the foreground displaying the Smart Life app. The app shows options for setting individual watering plans for two distinct zones, highlighting the dual-zone control feature.

2. Rain Delay Function

To conserve water, the rain delay function allows you to pause your irrigation schedule for 1 to 7 days. This can be activated via the Smart Life app.

Regen Vertraging

Pauzeer je schema voor 1-7 dagen

Image: The Diivoo irrigation computer attached to a faucet, with a smartphone displaying the Smart Life app's rain delay feature. The app shows options to pause watering for 1 to 7 days, with a visual representation of rain.

3. Manual Irrigation Mode

For immediate watering needs, the manual mode can be activated directly on the device or through the Smart Life app. This allows you to control the water flow as required, independent of programmed schedules.

Image: A split image showing a child watering plants with a hose on one side, and a hand manually operating the Diivoo irrigation computer on the other, demonstrating both app control and manual button operation.

4. Voice Control (Alexa & Google Assistant)

The irrigation computer is compatible with Alexa and Google Assistant for convenient voice control. [Link](#)

your Smart Life account to your preferred voice assistant app.

- **Example Command:** "Alexa, turn on/off the smart watering."
- **Example Command:** "Alexa, open Diivoo water timer."

MAINTENANCE

1. Leak-Proof Design and Sealing

The connectors of the irrigation timer are made from 30% reinforced nylon material, designed to withstand high water pressure (7.25 to 116.03 psi). Each timer is equipped with two different sizes of sealing rings and thread sealing tape to prevent leaks. The battery cover includes a waterproof rubber ring to keep moisture out of the battery compartment.

Regularly inspect the connections for any signs of wear or damage. Ensure all seals are intact and properly seated to maintain water resistance.

2. Cleaning

Clean the exterior of the device with a soft, damp cloth. Do not use abrasive cleaners or solvents. Ensure no water enters the battery compartment or electronic components.

3. Winter Storage

Before the first frost, disconnect the irrigation computer from the faucet and hoses. Remove the batteries. Store the device in a dry, frost-free location to prevent damage from freezing water.

TROUBLESHOOTING

Common Issues and Solutions

Problem	Possible Cause	Solution
Device not connecting to Wi-Fi / App	Incorrect Wi-Fi frequency (5GHz instead of 2.4GHz), Wi-Fi hub too far, incorrect pairing steps, weak signal.	Ensure your router supports 2.4 GHz Wi-Fi and your phone is connected to it during setup. Move the Wi-Fi hub closer to the irrigation computer (within 15 meters). Re-attempt pairing following the app's instructions, ensuring both devices are blinking as required. Check Wi-Fi signal strength.
Water not flowing / Timer not activating	Low battery, faucet turned off, incorrect schedule, low water pressure, device malfunction.	Replace batteries. Ensure the outdoor faucet is fully open. Verify your programmed schedule in the Smart Life app. Check water pressure. If issues persist, try manual mode.
Leaks at connections	Loose connection, damaged sealing ring, missing thread tape.	Tighten all connections. Inspect and replace any damaged sealing rings. Apply thread sealing tape to the faucet connection if needed.
Voice control not working	Smart Life account not linked to Alexa/Google Assistant, incorrect device name, internet connectivity issues.	Ensure your Smart Life account is correctly linked in the Alexa or Google Home app. Verify the device name used in voice commands matches the one in the app. Check your internet connection.

SPECIFICATIONS

Feature	Detail
Brand	Diivoo
Model Number	Diivoo
Color	Black
Material	Plastic (30% reinforced nylon for connectors)
Product Dimensions (L x W x H)	15D x 6.7B x 11.9H centimeters
Number of Outlets	2

Feature	Detail
Number of Settings (Programs)	Up to 20 per valve (total 40)
Smart Home Compatibility	Smart Life App, Alexa, Google Assistant
Wi-Fi Frequency	2.4 GHz only
Water Pressure Resistance	7.25 to 116.03 psi

WARRANTY AND SUPPORT

Warranty Information

Specific warranty details are typically provided with your purchase documentation or on the manufacturer's official website. Please refer to these resources for information regarding warranty duration and coverage.

Customer Support

For technical assistance, troubleshooting not covered in this manual, or warranty claims, please contact Diivoo customer support. Contact information can usually be found on the product packaging, the manufacturer's website, or within the Smart Life app.
