## podof Radio de Coche 2 DIN

# Podof 10.1" Android 13 Car Stereo User Manual

Model: Radio de Coche 2 DIN

## INTRODUCTION

---

This manual provides detailed instructions for the installation, operation, and maintenance of your Podof 10.1" Android 13 Car Stereo. Please read this manual thoroughly before using the product to ensure proper functionality and safety. Keep this manual for future reference.

## SETUP AND INSTALLATION

---

The Podof 10.1" Android 13 Car Stereo is designed for universal 2-DIN installation. Ensure your vehicle's dashboard opening is compatible with the unit's dimensions.

### Package Contents

Before installation, verify that all components are present in the package:

- 1 x Car Stereo Unit
- 1 x Power Cable
- 1 x GPS Antenna
- 1 x Rear Camera Input Cable
- 1 x AHD Backup Camera
- 1 x RCA Cable
- 2 x USB Cables
- 2 x Mounting Brackets
- 4 x Screws
- 1 x User Manual

## Installation Steps

1. **Preparation:** Disconnect the vehicle's battery to prevent electrical shorts.
2. **Remove Old Unit:** Carefully remove the existing car stereo from the dashboard.
3. **Wiring:**
  - Connect the provided power cable to the car stereo and the vehicle's wiring harness.
  - Connect the GPS antenna and position it in a location with clear sky view (e.g., dashboard).
  - If installing the backup camera, route the camera cable from the rear of the vehicle to the stereo unit and connect it to the dedicated input.
  - Connect USB cables for external devices as needed.
  - Connect RCA cables for external amplifiers or video outputs if applicable.
4. **Mounting:** Attach the mounting brackets to the sides of the car stereo unit using the provided screws. Slide the unit into the dashboard opening and secure it.
5. **Test:** Reconnect the vehicle's battery. Turn on the ignition and test the car stereo's basic functions (power, audio, display).

6. **Final Assembly:** Reassemble the dashboard trim panels.

*Note: Professional installation is recommended if you are unfamiliar with car audio wiring.*

## OPERATING INSTRUCTIONS

---

Your Podofu car stereo runs on Android 13, offering a wide range of features and customization options.

### Basic Operation and User Interface

The 10.1-inch touchscreen provides intuitive control. The system features 2GB RAM and 32GB ROM for smooth performance and ample storage.

## Wireless Carplay & Android Auto / Mirror Link

Connect your smartphone wirelessly or via USB to access Apple Carplay or Android Auto. This allows you to use phone contacts, emails, notifications, music, and map navigation directly on the car stereo display, minimizing distractions while driving.

- **Wireless/Wired Apple Carplay:** For iPhone users.
- **Wireless/Wired Android Auto:** For Android smartphone users.
- **Mirror Link:** Synchronize most mobile applications from your phone to the 10.1" screen.

# Carplay/Android Auto

## Navigation (Online/Offline)

The unit supports GPS/QZSS/SBAS with built-in GPS navigation. Connect to Wi-Fi for real-time online navigation using applications like Google Maps. The included GPS antenna ensures accurate positioning.

## Bluetooth, FM/RDS Radio, and EQ Settings

- **Bluetooth:** Enjoy hands-free calling and Bluetooth music playback. The system automatically loads your phonebook.
- **FM/RDS Radio:** Access 30 preset radio stations. The high-end radio chip provides powerful noise reduction and anti-interference capabilities. Supports FM/AM RDS function for clear channel search.
- **EQ Settings:** Adjust audio equalization settings to customize your sound experience.

## Steering Wheel Control (SWC)

The unit supports Steering Wheel Control. Connect your vehicle's SWC cable to the car stereo's control cable. Follow the instructions in the user manual to program the buttons, allowing you to control functions directly from your steering wheel.

## MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your car stereo.

- **Cleaning:** Use a soft, dry cloth to clean the screen and unit. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid abrasive materials or harsh chemicals.
- **Software Updates:** Periodically check for software updates from the manufacturer to ensure the system runs efficiently and has the latest features and security patches.
- **Environmental Conditions:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

## TROUBLESHOOTING

---

If you encounter issues with your Podofo car stereo, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
<b>Unit does not power on.</b>	Check power cable connections. Ensure vehicle battery is connected and charged. Check vehicle's fuse box for blown fuses.
<b>No sound.</b>	Check speaker connections. Verify volume level is not muted or too low. Check audio settings (EQ, balance, fader).
<b>GPS signal weak or lost.</b>	Ensure GPS antenna is properly connected and placed in an unobstructed location. Move to an open area away from tall buildings or dense foliage.
<b>Bluetooth connection issues.</b>	Ensure Bluetooth is enabled on both the stereo and your phone. Delete previous pairings and re-pair the devices. Restart both devices.
<b>Backup camera not displaying.</b>	Check the camera's power and video signal connections. Ensure the vehicle is in reverse gear. Verify camera settings in the stereo menu.
<b>Touchscreen unresponsive.</b>	Perform a soft reset (refer to the manual for reset button location, usually a small pinhole). If persistent, contact support.

For issues not listed here, or if troubleshooting steps do not resolve the problem, please contact Podofo customer support.
