Keter 9112000

Keter Groove Multi-Space Cabinet Instruction Manual

BRAND: KETER | MODEL: 9112000

Product Overview

The Keter Groove multi-space cabinet is an original, functional, and durable storage solution. Practical and modular, Groove is ideal for organizing spaces in any environment, both at home and at work. Made from recycled resin with wooden handles, it offers an original and trendy style inspired by outdoor design. Groove combines aesthetic detail with ease of use and maintenance, while respecting the environment. This new range is perfect for terraces, laundry rooms, and workspaces.

Key Features:

- Ideal for organizing spaces in homes, interiors, and exteriors such as terraces, garages, patios, and gardens.
- IPX3 waterproof rating, wooden handles, adjustable feet, and padlock compatibility.
- Durable product made from recycled plastic resin, contributing to reduced CO2 emissions.
- Equipped with reinforced shelves, each with a load capacity of 15 kg, and resistant metal hinges.
- Stylish design with wooden handles, suitable for any indoor and outdoor environment.

Safety Information

Please read all safety warnings carefully before assembly and use to ensure safe operation and prevent injury or damage.

- Always ensure the cabinet is properly installed and leveled using the adjustable feet.
- Do not overload the cabinet. It has a maximum weight capacity of 15 kg per shelf.
- After exposure to water, allow the cabinet to dry thoroughly to prevent mold growth.
- Always use the lockable feature to prevent accidental opening.
- Keep small parts away from children during assembly.
- Do not climb on or hang from the cabinet.

Setup and Assembly

While specific assembly instructions are provided with your product packaging, here are general guidelines for setting up your Keter Groove cabinet:

- 1. Unpack Components:** Carefully remove all parts from the packaging. Verify that all components listed in the product's included manual are present.
- 2. Identify Parts:** Familiarize yourself with the different panels, shelves, hinges, and hardware.
- 3. Assemble Frame:** Follow the step-by-step instructions to connect the side panels, back panel, and base. Ensure all connections are secure.
- 4. Install Shelves:** Insert the reinforced shelves into the desired positions. The shelves are designed to hold up to 15 kg each.
- 5. Attach Doors:** Securely attach the doors using the provided hinges. Ensure they open and close smoothly.
- 6. Adjust Feet:** Use the adjustable feet at the base of the cabinet to level it on uneven surfaces. This is crucial for stability and proper door alignment.
- 7. Final Check:** Double-check all connections and ensure the cabinet is stable and secure before placing items inside.

Image: Keter Groove Multi-Space Cabinet with closed doors, showcasing its beige color and distinctive vertical groove design on the front. The cabinet features two tall doors with wooden-accented handles.

Image: Keter Groove Multi-Space Cabinet with both doors wide open, displaying the spacious interior with multiple adjustable shelves. The shelves are designed for versatile storage and can be repositioned as needed.

Operating Instructions

Using your Keter Groove cabinet is straightforward:

- **Opening/Closing Doors:** Gently pull the wooden-accented handles to open the doors. Push them firmly to close until they latch securely.
- **Adjusting Shelves:** The shelves are adjustable. To reposition a shelf, carefully lift it from its current supports and place it onto new supports at the desired height. Ensure the shelf is level and securely seated before placing items on it.
- **Loading Items:** Distribute weight evenly across the shelves. Do not exceed the maximum weight capacity of 15 kg per shelf. Place heavier items on lower shelves for better stability.
- **Locking Mechanism:** The cabinet is designed to be lockable. If you wish to secure the contents, use a compatible padlock (not included) through the designated locking points on the doors.

Maintenance and Care

To ensure the longevity and appearance of your Keter Groove cabinet, follow these maintenance guidelines:

- **Cleaning:** Clean the cabinet regularly with a soft cloth and mild soap and water. Avoid abrasive cleaners or harsh chemicals, as they may damage the resin material.
- **Drying After Water Exposure:** If the cabinet is exposed to rain or excessive moisture, ensure it dries thoroughly to prevent mold or mildew growth. You can wipe it down with a dry cloth or leave the doors slightly ajar in a well-ventilated area until completely dry.
- **Inspection:** Periodically check all connections, hinges, and adjustable feet to ensure they are secure and functioning correctly. Tighten any loose screws if necessary.
- **Winter Storage (if applicable):** While designed for outdoor use, in extremely harsh winter conditions, consider storing the cabinet in a sheltered area or covering it to protect it from prolonged exposure to snow and ice.

Troubleshooting

If you encounter any issues with your Keter Groove cabinet, refer to the following common solutions:

Problem	Possible Cause	Solution
Cabinet is wobbly or unstable.	Uneven surface; adjustable feet not properly set.	Adjust the leveling feet at the base of the cabinet until it is stable on all corners. Ensure the cabinet is on a flat, firm surface.
Doors do not close properly or are misaligned.	Cabinet is not level; hinges are loose or damaged.	Check if the cabinet is level using the adjustable feet. Inspect hinges for looseness and tighten if necessary. Ensure no items inside are obstructing the doors.
Shelves sag or bend.	Overloaded shelf; uneven weight distribution.	Reduce the weight on the shelf, ensuring it does not exceed 15 kg. Distribute items evenly across the shelf surface.
Mold or mildew growth.	Insufficient drying after water exposure; poor ventilation.	Clean affected areas with a mild bleach solution (diluted) or mold remover. Ensure the cabinet is thoroughly dried after any exposure to moisture and placed in a well-ventilated area.

Specifications

Feature	Detail
Brand	Keter
Model Number	9112000
Color	Beige/Sand
Dimensions (L x W x H)	80 x 45 x 180 cm
