IKEA KOMPLEMENT Sliding Tray with Shoe Insert User Manual

Model: IK.594.370.28

Introduction

This manual provides essential information for the assembly, usage, and maintenance of your IKEA KOMPLEMENT Sliding Tray with Shoe Insert. Designed to enhance the functionality of your KOMPLEMENT wardrobe system, this accessory helps organize shoes and other items efficiently. Please read these instructions carefully before installation and use.

Product Overview

The IKEA KOMPLEMENT Sliding Tray with Shoe Insert is a versatile storage solution designed to fit seamlessly into the KOMPLEMENT wardrobe series. It features a durable resin construction and a sliding mechanism for easy access to your stored items.

- **Dimensions:** 50 x 58 cm
- **Material:** Resin
- **Color:** Dark Grey/Light Grey
- **Functionality:** Sliding tray with integrated shoe organization.

Setup and Assembly

The KOMPLEMENT sliding tray is designed for straightforward installation within your existing KOMPLEMENT wardrobe frame. No complex tools are typically required beyond what is provided with your KOMPLEMENT wardrobe frame for rail installation.

1. **Prepare the Wardrobe Frame:** Ensure your KOMPLEMENT wardrobe frame is fully assembled and stable. Identify the desired height for the sliding tray.
2. **Install Sliding Rails:** Attach the appropriate KOMPLEMENT sliding rails (sold separately or included with your wardrobe frame) to the interior sides of the wardrobe frame at the chosen height. Follow the instructions provided with the KOMPLEMENT frame for rail installation, ensuring they are level and securely fastened.
3. **Insert the Tray:** Carefully slide the KOMPLEMENT Sliding Tray with Shoe Insert onto the installed rails. Ensure both sides engage properly and the tray slides smoothly.

4. **Test Functionality:** Gently pull the tray out and push it back in to confirm smooth operation and secure fitting.

Note: This product is an accessory for the IKEA KOMPLEMENT wardrobe system. Ensure compatibility with your specific KOMPLEMENT frame.

Operating Instructions

Using your KOMPLEMENT Sliding Tray is simple and intuitive.

- **Accessing Items:** Gently pull the tray forward to extend it from the wardrobe frame. The sliding mechanism allows for full extension, providing easy access to all contents.
- **Storing Shoes:** Place shoes within the designated compartments of the shoe insert. The design helps keep pairs together and prevents them from shifting.
- **Storing Other Items:** While primarily designed for shoes, the tray can also accommodate other small items like folded garments, accessories, or bags, utilizing the available space efficiently.
- **Closing the Tray:** Push the tray back into the wardrobe frame until it is fully recessed. Ensure it is pushed all the way in to prevent obstruction of wardrobe doors.

Maintenance and Care

To ensure the longevity and appearance of your KOMPLEMENT Sliding Tray, follow these simple care guidelines:

- **Cleaning:** Wipe clean with a damp cloth. A mild detergent can be used if necessary.
- **Drying:** Wipe dry with a clean cloth.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, strong solvents, or harsh chemicals, as these can damage the resin material and finish.
- **Load Capacity:** Do not overload the tray. While durable, excessive weight can strain the sliding mechanism and potentially cause damage. Refer to your KOMPLEMENT wardrobe frame manual for specific load capacities if available.

Troubleshooting

Problem	Possible Cause	Solution
Tray does not slide smoothly.	Rails are not properly aligned or installed. Obstruction on the rails. Tray is overloaded.	Check rail installation and alignment. Re-install if necessary. Inspect rails for debris and clean them. Reduce the weight on the tray.
Tray is difficult to pull out or push in.	Rails or tray mechanism require lubrication. Tray is not correctly seated on the rails.	Apply a small amount of silicone-based lubricant to the sliding parts of the rails. Remove the tray and re-seat it carefully onto the rails.
Tray appears wobbly or unstable.	Rails are not securely fastened to the wardrobe frame. Wardrobe frame itself is unstable.	Tighten all screws securing the rails to the wardrobe frame. Check the stability of the entire KOMPLEMENT wardrobe frame and ensure all its connections are secure.

Specifications

Attribute	Detail
