4. MAINTENANCE

To ensure the longevity and appearance of your IKEA BLECKSJÖN Shower Hanger, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the hanger regularly with a soft, damp cloth. For stubborn marks, a mild soap solution can be used. Rinse thoroughly and dry with a clean cloth to prevent water spots.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, scouring pads, or strong chemical detergents, as these can damage the finish and compromise the rust-resistant properties of the stainless steel.
- **Rust Resistance:** The hanger is made of stainless steel and is rust-resistant. However, prolonged exposure to standing water or harsh chemicals can still affect its surface. Ensure good ventilation in the shower area.

5. TROUBLESHOOTING

The IKEA BLECKSJÖN Shower Hanger is a simple, non-mechanical product, and common operational

issues are minimal. However, if you encounter any concerns, consider the following:

- **Stability Issues:** If the hanger appears unstable, ensure it is securely placed on a robust fixture. Redistribute items evenly across the tiers to maintain balance.
- **Surface Marks:** If water spots or minor discoloration appear, refer to the "Maintenance" section for cleaning instructions.
