WATERH B002

WATERH Vita Smart Water Bottle Instruction Manual

Model: B002

INTRODUCTION

The WATERH Vita Smart Water Bottle is designed to enhance your hydration habits through intelligent tracking, personalized reminders, and real-time water quality analysis. This BPA-free, vacuum-insulated bottle with a built-in straw helps you maintain optimal hydration throughout your day.

WHAT'S INCLUDED

- Smart Bottle
- Universal Type-C Charging Cable
- User Manual (PDF available online)

SETUP GUIDE

1. Charging Your Bottle

Place the smart bottle on the wireless charging base. Connect the charging base to a power source using the provided Type-C cable. The LED light at the base of the bottle will indicate its charging status. A full charge lasts up to 15 days of uninterrupted use.

2. App Connection & Personalized Hydration Goals

Download the official WaterH app from your device's app store. Bring your phone near your WaterH bottle and follow the in-app instructions to connect via Bluetooth. The bottle's LED light will display a solid blue light when it is ready to be paired. Within the app, you can customize your daily hydration goal based on your personal needs. The app will monitor your real-time progress.

Hydration Journey

Take control of your hydration goals with our intuitive WaterH app. Seamlessly integrate technology into your hydration routine for a smarter, more informed approach to staying hydrated.

Works with

Apple Health

Fitbit

Apple Watch

OPERATING YOUR SMART BOTTLE

Hydration Reminders

Stay hydrated with alerts from your watch, phone, or the LED light ring at the base of the bottle. These reminders are based on your customized water plan within the app, helping you build healthy drinking habits and prevent dehydration.

Water Intake Tracking

The smart sensor inside the bottle automatically tracks your exact water intake. Your progress is seamlessly synced to the WaterH app, providing accurate data and insights into your hydration patterns.

Track Your Water Intake

Download and Connect to the FREE WaterH App to Track your Water Intake.

LED reminders so you stay hydrate all day long.

Wireless charging, long lasting for 15 days.

TDS Meter (Water Quality Detection)

The built-in TDS (Total Dissolved Solids) water quality detection system allows you to monitor water purity in real-time. This feature is compatible with WaterH filter straws (sold separately), which reduce chlorine and particulates for fresh, clean water.

Smart Water Quality Sensor

Built-in a TDS water quality sensor

MAINTENANCE

- **Hand Wash Only:** To ensure the longevity of your smart bottle and its electronic components, hand wash only.
- **Not Freezer Safe:** Do not place the bottle in the freezer.
- **Not Dishwasher Compatible:** Avoid washing the bottle in a dishwasher.

TROUBLESHOOTING

- **App Connection Issues:** If the bottle fails to connect to the app, try removing and re-adding the device in the app settings. Ensure Bluetooth is enabled on your device.
- **Inaccurate Tracking:** For optimal hydration tracking accuracy, place the bottle upright on a flat surface for 2-3 seconds after drinking. Avoid excessive ice, as it may affect readings.
- **LED Light Indicators:**
 - **Breathing Red Light:** Low Battery

- **Breathing Green Light:** Bottle is Charging
- **Steady Green Light:** Bottle is Ready to Go
- **Breathing Blue Light:** Hydration Reminder
- **Steady Blue Light:** Ready to be Paired

SPECIFICATIONS

Attribute	Detail
Brand	WATERH
Material	Stainless Steel
Capacity	18 Ounces
Product Dimensions	3.46"W x 9.92"H
Special Features	Leak Proof, Double Wall, Programmable
Model Name	Vita
Item Model Number	B002
Batteries	1 Lithium Ion battery required (included)
