WHAT'S IN THE BOX

Verify that all items are present in the package:

- 1 x Tuanzi GT100 Smart Watch with Earbuds
- 1 x Charging Cable
- 2 x Replaceable Earphone Silicone Pads (pairs)
- 1 x User Manual

SETUP GUIDE

1. Initial Charging

Before first use, fully charge the smartwatch and earbuds. Connect the provided charging cable to the watch and a USB power source. Ensure the earbuds are securely placed in their charging slots on the watch.

2. Power On

Press and hold the power button on the smartwatch until the screen illuminates.

3. App Installation and Pairing

Download and install the 'V BAND' application on your smartphone. Open the app and follow the on-screen instructions to pair your Tuanzi GT100 smartwatch via Bluetooth. This will enable data synchronization and access to all smart features.

4. Earbuds Pairing

Once the watch is paired with your phone, the earbuds will automatically pair with the watch. To use the earbuds with your phone, remove them from the watch and pair them directly via your phone's Bluetooth settings.

OPERATING INSTRUCTIONS

Display and Navigation

- **Screen Activation:** Raise your hand to automatically light up the 1.43-inch HD 466x466 AMOLED display.
- **UI Styles:** The watch supports 8 different UI styles for personalized interface customization.

Health Monitoring

The GT100 smartwatch provides comprehensive health tracking:

- **Heart Rate (HR):** Real-time heart rate monitoring.
- **Blood Pressure (BP):** Blood pressure measurement.
- **Blood Oxygen (SpO2):** Blood oxygen saturation monitoring.
- **Sleep Tracking:** Monitors sleep patterns and quality.

Music control more convenient to use

The smart watch is combined with the Bluetooth headset, which can be carried for driving, sports, and listening to music. Just take out the headset and use it with the mobile phone to wear it in the ear, and you can enjoy the fusion of new looks in an instant

Music Playback and Control

The GT100 has 128MB of internal memory, capable of storing 30-50 songs. You can control music playback directly from the watch.

- **Earbud Playtime:** The TWS earbuds offer approximately 5 hours of continuous playback on a single charge.
- **Graphene Earbuds:** The earbuds are constructed with graphene for enhanced sound quality.

Various detection functions, 24-hour scientific care for your health, heart rate, true blood oxygen, blood pressure, exercise alarm clock, stopwatch, etc., all available, you can check the corresponding records at any time, the health status is clear at a glance, and always pay attention to your personal health Condition.

MAINTENANCE

- **Cleaning:** Wipe the watch and earbuds with a soft, dry cloth. For stubborn dirt, use a slightly damp cloth and mild soap, then dry thoroughly.
- **Water Exposure:** While waterproof, avoid prolonged submersion or exposure to hot water, steam, or high-pressure water jets. Ensure earbuds are dry before placing them back into the watch.
- **Charging Contacts:** Keep the charging contacts on the watch and earbuds clean and dry to ensure efficient charging.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

- **Device Not Powering On:** Ensure the device is fully charged. If it still doesn't power on, try a different charging cable or adapter.
- **Pairing Issues:** Ensure Bluetooth is enabled on your smartphone and the watch. Restart both devices and try pairing again through the 'V BAND' app.
- **Inaccurate Health Readings:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor on the back of the watch.

- **Earbuds Not Charging/Connecting:** Ensure the earbuds are correctly seated in their charging slots. Clean the charging contacts on both the earbuds and the watch.
- **Short Battery Life:** Reduce screen brightness, disable unnecessary notifications, and limit continuous health monitoring if not required.
