TROUBLESHOOTING

If you encounter any issues with your ModernLuxe Loft Bed, refer to the following common troubleshooting tips:

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose fasteners. Uneven floor.	Check and tighten all bolts and screws. Ensure the bed is on a level surface; use shims if necessary.
Squeaking noises.	Loose connections. Friction between parts.	Tighten all fasteners. Apply a small amount of silicone lubricant to contact points if necessary (avoiding areas that bear weight).
Drawers stick or don't slide smoothly.	Misalignment. Obstruction.	Check drawer slides for debris. Ensure drawers are properly aligned on their tracks. Re-check assembly of the desk unit.
Ladder feels loose.	Ladder attachment bolts are loose.	Re-tighten the bolts connecting the ladder to the bed frame.

If the problem persists after attempting these solutions, please contact ModernLuxe customer support.
