AIFINI X2

AIFINI X2 Wireless Ear Cleaner with 1080P HD Camera and Light - User Manual

Model: X2

INTRODUCTION

Thank you for choosing the AIFINI X2 Wireless Ear Cleaner. This device is designed to provide a clear, real-time view of your ear canal, assisting in safe and effective ear wax removal. It features a 1080P HD camera, bright LED lights, and connects wirelessly to your iOS or Android device for visual guidance.

IMPORTANT SAFETY INFORMATION

- Always use the device gently and slowly within the ear canal.

- Do not use the product while it is charging.

- Ensure the silicone sleeve on the ear spoon is tightened before each use to prevent scratching the ear canal.

- Avoid inserting the device too deeply into the ear canal to prevent injury to the eardrum.

- Keep out of reach of children.

- Consult a medical professional if you experience pain, discomfort, or have a pre-existing ear condition.

PACKAGE CONTENTS

Please verify that all items are present in your package:

- AIFINI X2 Otoscope with Light (1)
- Type-C Charging Cable (1)
- Silicone Ear Spoons (6) - 3 kinds of curved designs
- User Manual (1)
- 7-piece Ear Wax Removal Tool Kit (1)

Product Features

- **1080P HD Camera:** Provides a clear, real-time view of the ear canal.

- **Integrated Ear Spoon Design:** The ear spoon is firmly fixed to the camera, enhancing security and simplifying use.

- **Soft Silicone Ear Spoons:** Includes six interchangeable silicone ear spoons with three different curve types for comfortable and effective cleaning.

- **Bright LED Lights:** Illuminates the dark ear canal for improved visibility.

- **Wide Compatibility:** Supports both iOS and Android devices via Wi-Fi connection.

- **Six-Axis Gravity Sensor & Screen Reverse Design:** Automatically adjusts the image orientation for consistent viewing regardless of device position.

- **Type-C Charging:** Convenient and fast charging.

SETUP GUIDE

1. **Download the App:** Scan the QR code below or visit http://qr19.cn/CRUIhc to download the "Suear" application on your iOS or Android device.

2. **Power On:** Press and hold the ear wax cleaner's on/off button for 1 to 2 seconds to turn on the device.

3. **Connect to Wi-Fi:**

   - Open your device's Wi-Fi settings.

   - Locate and connect to the Wi-Fi network named "Suear -xxxx" (where xxxx is a unique identifier).

   - *Note: It is normal to see a "Network unavailable" prompt as this Wi-Fi connection is for device communication only and does not provide internet access.*

4. **Launch App:** Return to the "Suear" app. The live view from the ear cleaner camera should now be displayed.

Inside the Package

Spring-loaded ear picks help you clean and massage the ear canal

Can rotate 360° to clean your ear canal.

Clean up the tools after using

OPERATING INSTRUCTIONS

1. **Attach Ear Spoon:** Select a suitable silicone ear spoon and firmly attach it to the device. Ensure it is securely tightened.

2. **Positioning:** Gently insert the ear cleaner into your ear canal. Observe the live feed on your smartphone.

3. **Cleaning:** Using the visual guidance, carefully and slowly maneuver the ear spoon to remove ear wax. Avoid aggressive scraping or pushing wax deeper.

4. **Adjust View:** The device features a six-axis gravity sensor, automatically adjusting the screen orientation for optimal viewing. You can switch between left and right ear views within the app.

5. **Optimal Posture:** The device can be used comfortably in various positions, including sitting or reclining, thanks to its screen reverse design.

MAINTENANCE

- **Cleaning Ear Spoons:** After each use, remove the silicone ear spoon and clean it thoroughly with soap and water or an alcohol wipe. Ensure it is dry before storage.

- **Device Cleaning:** Wipe the main body of the device with a soft, dry cloth. Do not immerse the device in water. The lens is waterproof and can be gently wiped.

- **Storage:** Store the device and accessories in a clean, dry place away from direct sunlight and extreme temperatures.

- **Charging:** Charge the device using the provided Type-C charging cable. Do not use the device while it is charging.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Low battery or not charged.	Charge the device using the provided Type-C cable. Ensure the power button is pressed and held for 1-2 seconds.
Cannot connect to Wi-Fi.	Device not powered on or incorrect Wi-Fi selected.	Ensure the device is powered on. Select the Wi-Fi network starting with "Suear -xxxx". Restart the device and try again.
"Network unavailable" message appears.	This is normal behavior.	The device's Wi-Fi provides a direct connection for the camera feed, not internet access. This message can be ignored.
No image in the app.	Not connected to device Wi-Fi or app not launched.	Verify Wi-Fi connection to "Suear -xxxx" and ensure the "Suear" app is open.
Image is blurry or unclear.	Lens might be dirty.	Gently clean the camera lens with a soft, dry cloth.
