## Paul Neuhaus 8371-55

# Paul Neuhaus Amara Dimmable LED Ceiling Light - Model 8371-55 User Manual

Comprehensive instructions for installation, operation, and maintenance.

## INTRODUCTION

---

Thank you for choosing the Paul Neuhaus Amara Dimmable LED Ceiling Light. This manual provides essential information for the safe and efficient use of your new lighting fixture. Please read these instructions carefully before installation and retain them for future reference.

The Amara ceiling light features a modern design with integrated LED technology, offering dimmable functionality to adjust brightness according to your needs. It is constructed from durable metal and designed for indoor use.

## IMPORTANT SAFETY INSTRUCTIONS

---

- Always disconnect power at the main fuse or circuit breaker before installation, maintenance, or cleaning.
- Installation must be performed by a qualified electrician in accordance with all local and national electrical codes.
- Do not modify the fixture in any way. Unauthorized modifications may void the warranty and create safety hazards.
- Ensure the mounting surface can support the weight of the fixture.
- Do not look directly into the LED light source when illuminated, as this may cause eye strain.
- Keep packaging materials out of reach of children.
- This fixture is designed for indoor use only. Do not expose to moisture or extreme temperatures.

## PACKAGE CONTENTS

---

Before beginning installation, verify that all parts are present and undamaged. If any part is missing or broken, contact your retailer.

- Paul Neuhaus Amara LED Ceiling Light fixture
- Mounting bracket
- Mounting screws and wall plugs

- Instruction manual (this document)

## SETUP AND INSTALLATION

---

### 1. Preparation:

- Turn off the main power supply at the circuit breaker before starting any electrical work.
- Ensure you have the necessary tools: screwdriver, drill, wire strippers, voltage tester.

### 2. Mounting the Bracket:

- Position the mounting bracket on the ceiling at the desired location.
- Mark the drilling points through the holes in the bracket.
- Drill holes and insert wall plugs if necessary.
- Secure the mounting bracket to the ceiling using the provided screws.

### 3. Electrical Connection:

- Connect the household electrical wires to the terminal block on the fixture.
- Ensure correct polarity: Live (L) to Live, Neutral (N) to Neutral, and Earth (E) to Earth.
- Double-check all connections for security.

### 4. Attaching the Fixture:

- Carefully align the ceiling light fixture with the mounting bracket.
- Secure the fixture to the bracket using the screws provided.
- Ensure the fixture is firmly attached and flush with the ceiling.

### 5. Final Step:

- Restore power at the circuit breaker.
- Test the light fixture.

## OPERATING INSTRUCTIONS

---

The Paul Neuhaus Amara LED Ceiling Light is designed for simple operation.

### Turning On/Off

Use a standard wall switch connected to the fixture to turn the light on or off.

### Dimmable Functionality

This fixture is dimmable. To adjust the brightness, you will need a compatible external dimmer switch (not included) installed in your electrical circuit. Follow the dimmer switch manufacturer's instructions for operation.

- Ensure the dimmer switch is compatible with LED lighting.
- Rotate or press the dimmer switch to increase or decrease the light intensity.

## MAINTENANCE AND CARE

---

Regular maintenance will help preserve the appearance and functionality of your Paul Neuhaus Amara LED Ceiling Light.

- **Cleaning:** Always disconnect power before cleaning. Use a soft, dry, or slightly damp cloth to wipe the surface of the fixture. Do not use abrasive cleaners, solvents, or polishes, as these can damage the finish.
- **LEDs:** The integrated LED light source is designed for a long lifespan and is not user-replaceable. Do not attempt to replace the LEDs.
- **Inspection:** Periodically check the fixture for any signs of damage or loose connections. If any issues are found, disconnect power and consult a qualified electrician.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Light does not turn on.	No power supply. Loose wiring connection. Faulty wall switch.	Check circuit breaker and wall switch. Ensure all electrical connections are secure (consult an electrician). Test the wall switch with another device or replace it.
Light flickers or dims unexpectedly.	Incompatible dimmer switch. Loose wiring. Voltage fluctuations.	Ensure dimmer is LED compatible. Check wiring connections (consult an electrician). Contact your electricity provider if voltage issues persist.
Light is not dimming.	No dimmer switch installed. Incompatible dimmer switch. Dimmer switch not functioning correctly.	Install a compatible LED dimmer switch. Replace with an LED-compatible dimmer. Check dimmer switch wiring or replace it.

If you experience problems not listed above, or if the suggested solutions do not resolve the issue, please contact Paul Neuhaus customer support or a qualified electrician.
