Lamshaw M900

Lamshaw TPU Screen Protector for ZOOAEXO M900 2.4" MP3 Player - Instruction Manual

1. PRODUCT OVERVIEW

This manual provides detailed instructions for the installation and care of your Lamshaw TPU Screen Protector, designed specifically for the ZOOAEXO M900 2.4" Full Touch Screen MP3 Player. This product offers full coverage protection for your device's screen.

Key Features:

- **Soft TPU Material:** Provides flexible and durable screen protection.
- **Full Coverage:** Designed to cover the entire screen of the ZOOAEXO M900.
- **Bubble Self-Healing:** Minor bubbles may disappear over time.
- **Anti-Shatter & Anti-Scratch:** Protects against impacts and scratches.
- **High Transparency & High Sensitivity:** Maintains original screen clarity and touch response.

3. INSTALLATION INSTRUCTIONS

Follow these steps carefully for optimal screen protector application. Ensure your ZOOAXO M900 2.4" MP3 Player is clean and free of dust before beginning.

1. **Clean the Screen:** Use the provided wet wipe (labeled '1') to thoroughly clean the MP3 player screen. Follow with the dry wipe (labeled '2') to remove any moisture. Finally, use the microfiber cloth to polish the screen and remove any remaining dust or smudges.
2. **Prepare the Protector:** The screen protector has three layers. Carefully peel off the red 'Back 1' layer.
3. **Align and Apply:** Align the screen protector precisely with the edges of your MP3 player screen. Once aligned, gently place it onto the screen, starting from one side and slowly laying it down.
4. **Remove Bubbles:** Use the squeegee card to push out any air bubbles from the center towards the edges. Apply firm, even pressure.
5. **Remove Top Layer:** Once the protector is smoothly applied and bubbles are removed, peel off the black 'Front 2' layer. The middle layer is the actual screen protector that remains on your device.
6. **Final Polish:** Use the microfiber cloth to gently wipe the newly applied screen protector.

Video 3.1: Official installation method for the TPU screen protector. This video demonstrates the step-by-step application process, including screen cleaning, protector alignment, and bubble removal.

Important Notes:

- Ensure your device model is ZOOAOXO M900 2.4" before installation.
- If the protector seems less sticky after peeling 'Front 2' first, it indicates the middle layer was mistakenly removed. Wrinkle the 'Back 1' layer to separate it, peel off the middle layer, and re-adhere it to the 'Front 2' side before re-attempting installation.

4. CARE AND MAINTENANCE

To ensure the longevity and clarity of your screen protector, follow these care guidelines:

- **Cleaning:** Use a soft, lint-free cloth (like the provided microfiber cloth) to gently wipe the screen protector. For stubborn smudges,

slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals.

- **Bubble Self-Healing:** Small air bubbles may naturally disappear within 24-48 hours due to the TPU material's self-healing properties. Avoid pressing excessively on these small bubbles immediately after installation.
- **Avoid Sharp Objects:** While the protector is scratch-resistant, extreme pressure from sharp objects can still cause damage.

5. TROUBLESHOOTING

If you encounter issues during or after installation, refer to the following:

- **Large Bubbles:** If a large bubble persists after using the squeegee, carefully lift the nearest edge of the protector and reapply it, pushing the bubble out as you go. Ensure the screen is free of dust particles, which are a common cause of large, persistent bubbles.
- **Protector Not Sticking:** If the protector does not adhere properly, ensure the screen was thoroughly cleaned and dry. If the issue is related to the layers being peeled incorrectly (as described in Section 3, Important Notes), follow the instructions to correct the layer separation.
- **Dust Under Protector:** If dust particles are trapped, carefully lift the protector near the dust, use a dust absorber sticker to lift the particle, and then reapply.
