IsisPharma Neotone Pigmentation Spots - Serum

Isis Pharma Neotone Pigmentation Spots - Serum User Manual

Model: Neotone Pigmentation Spots - Serum

1. Product Overview

The Isis Pharma Neotone Pigmentation Spots - Serum is an intensive dermatological treatment formulated to target and reduce the appearance of hyperpigmentation and dark spots. This serum works through a synergistic blend of active ingredients to inhibit melanin overproduction and promote the exfoliation of existing pigmentation, contributing to a more even and radiant skin tone.

Image 1: Isis Pharma Neotone Serum tubes, highlighting the product's indications and properties.

The serum's formulation includes six active ingredients designed to address pigmentation concerns. It aims to clear the skin by exfoliating dead cells and enhancing overall skin radiance.

2. Preparation for Use

Before applying the Neotone Pigmentation Spots - Serum, ensure your skin is thoroughly cleansed and dry. No additional special preparation steps are required beyond your regular facial cleansing routine.

3. Application Instructions

1. Apply Neotone Serum every night.
2. Dispense a small amount of serum onto your fingertips.
3. Gently apply the serum to areas with hyperpigmentation and across the entire face to ensure uniform treatment.
4. During the entire treatment period, it is essential to use suitable sun protection daily. Apply a product with SPF 50+, such as Neotone Radiance SPF 50+ or a product from the Uveblock range, to all sun-exposed areas.

Image 2: Visual guide for applying Neotone Serum, emphasizing nightly use and the importance of sun protection.

4. Maintenance and Storage

- Store the serum in a cool, dry place, away from direct sunlight and extreme temperatures.
- Ensure the cap is tightly closed after each use to preserve the product's efficacy and prevent contamination.
- Avoid direct contact with eyes. In case of accidental contact, rinse thoroughly with clean water.

5. Troubleshooting

- **Skin Irritation:** If skin irritation, redness, or discomfort occurs, reduce the frequency of application. If irritation persists, discontinue use and consult a dermatologist.
- **Lack of Visible Improvement:** Ensure consistent nightly application and, most importantly, diligent daily use of high SPF sun protection. Sun exposure can counteract the depigmenting effects of the serum.
- **Staining:** The serum may potentially stain fabrics. Exercise caution during application and allow the product to fully absorb into the skin before contact with clothing, towels, or bedsheets.

6. Specifications

Feature	Detail
Brand Name	IsisPharma
Item Form	Serum
Number of Items	1
Skin Type	All
Product Benefits	Exfoliating
Target Use Body Part	Face
Scent Name	Aloe
Special Ingredients	Glycolic Acid, Salicylic Acid
Active Ingredients	Ascorbic Acid, Glycolic Acid, Licorice, Salicylic Acid
Recommended Uses	Uneven Pigment, Sun Protection (during treatment)
Package Dimensions	5.28 x 2.09 x 1.34 inches; 1.76 ounces
UPC	821555204282
ASIN	B0C2HR6XFK
Manufacturer	IsisPharma

7. Ingredients

The Neotone Pigmentation Spots - Serum contains a blend of active ingredients designed to target pigmentation:

- **Glycolic Acid:** Gently exfoliates preformed melanin from the skin's surface, aiding in the removal of dead cells.
- **Ascorbic Acid:** Contributes to skin radiance and promotes a more luminous complexion.
- **Salicylic Acid:** Provides exfoliating action through the reduction of corneocytes.
- **Alpha-Arbutin:** Inhibits melanogenesis by targeting tyrosinase activity.
- **Lumiskin (Diacetyl Boldine):** Further inhibits tyrosinase activity.
- **Licorice Extract:** Acts on melanin overproduction and tyrosinase inhibition.

The product is formulated with natural ingredients.

8. Safety Information

While no specific safety warnings are provided beyond general usage instructions, it is always recommended to perform a patch test on a small, inconspicuous area of skin before full application, especially if you have sensitive skin or are prone to allergic reactions. Discontinue use if severe irritation occurs.

9. Warranty and Support

No specific warranty information is provided with the Isis Pharma Neotone Pigmentation Spots - Serum. For product support, inquiries, or further assistance, please contact IsisPharma customer service directly through their official channels.
