STRICH STANDARD 22

STRICH STANDARD 22 Guitar Pedal Board Instruction Manual

Model: STANDARD 22

1. INTRODUCTION

The STRICH STANDARD 22 Guitar Pedal Board is designed to provide musicians with an organized and robust platform for their effect pedals. Constructed from lightweight aluminum alloy, this pedalboard offers durability and portability. Its angled design facilitates comfortable access to pedals, and the hollow structure allows for efficient cable management and integrated power supply mounting.

2. PACKAGE CONTENTS

Verify that all items are present in your package:

- STRICH STANDARD 22 Guitar Pedal Board (Aluminum Alloy)
- Rugged Carrying Case with Shoulder Strap
- Velcro Strips (hook and loop) for pedal mounting
- Zip Ties for cable management

3. SETUP INSTRUCTIONS

3.1 Attaching Pedals

1. Ensure the pedalboard surface is clean and dry.
2. Apply the provided hook-side Velcro strips to the bottom of your effect pedals.
3. The pedalboard surface is pre-fitted with loop-side Velcro. Firmly press each pedal onto the desired location on the pedalboard to secure it.

ORGANIZED TONE CONTROL

Organize your pedals in one place for easy control

Tips: Guitar effect pedals are not included.

Image 3.1: Properly arranged guitar effect pedals on the pedal board, demonstrating organized tone control.

3.2 Power Supply Integration and Cable Management

The hollow design of the STANDARD 22 pedalboard allows for convenient mounting of most standard power supplies underneath. This keeps your setup neat and tidy.

1. Mount your power supply (not included) to the underside of the pedalboard using appropriate mounting hardware or additional Velcro.
2. Route power cables from the power supply through the openings in the pedalboard to each pedal.
3. Use the provided zip ties to secure excess cabling, preventing tangles and maintaining a clean appearance.

HOLLOW DESIGN FOR EASY WIRING

Hollow design keep your setup looking neat and tidy

Tips: Guitar pedal power supply is not included.

Image 3.2: The hollow design of the pedal board's underside, ideal for mounting a power supply and managing cables for a clean setup.

3.3 Ergonomic Angled Design

The pedalboard features an ergonomic angled design, providing a comfortable and accessible surface for engaging your pedals during performance.

VERSATILE MOUNTING OPTIONS

Customize your settings and change easily with accessories attached

INCLINE DESIGN

More comfortable, with raised anti-collision pad

Image 3.3: Illustration of the pedal board's 15-degree incline design, enhancing comfort and accessibility for foot-operated pedals.

4. OPERATING THE PEDAL BOARD

Once your pedals are securely mounted and powered, connect your guitar to the input of your first pedal and the output of your last pedal to your amplifier. The pedalboard provides a stable and organized foundation for your effects chain.

4.1 Using the Carrying Case

The included carrying case is designed for easy transport of your pedalboard with pedals attached. Place the loaded pedalboard into the main compartment. Utilize the front pocket for storing cables, power

adapters, and other accessories.

Video 4.2: A demonstration of how the STRICH pedalboard and its accessories fit conveniently into the carrying bag for transport.

5. MAINTENANCE

To ensure the longevity of your STRICH pedalboard:

- Regularly clean the pedalboard surface with a soft, dry cloth to remove dust and debris.
- Inspect Velcro strips periodically and replace if adhesion weakens.
- Check all connections and cables for wear and tear before each use.
- Store the pedalboard in its carrying case when not in use to protect it from dust and physical damage.

6. TROUBLESHOOTING

If you encounter issues with your pedalboard setup:

- **No Power to Pedals:** Ensure your power supply is correctly connected to a power source and that all pedal power cables are securely plugged into both the power supply and the pedals. Verify power supply output specifications match pedal requirements.
- **Unwanted Noise:** Check all patch cables for proper connection and integrity. Ensure your power supply is isolated if using multiple high-current pedals. Proper cable management can also reduce interference.
- **Pedals Not Sticking:** Clean the bottom of your pedals and the pedalboard's Velcro surface. Replace worn Velcro strips if necessary.

7. SPECIFICATIONS

Feature	Detail
Model Number	STANDARD 22
Dimensions	22" x 12.5" x 3.15" (56 cm x 32 cm x 8 cm)
Item Weight	2.65 lbs (1.2 kg)
Material Type	Aluminum Alloy
Color	Black
Design Features	Angled, Hollow for power supply mounting
