## YADAQE S-FD01

# YADAQE Baby Bassinet, Bedside Sleeper, Portable Crib Instruction Manual

Model: S-FD01

## INTRODUCTION

This manual provides essential instructions for the safe assembly, operation, and maintenance of your YADAQE Baby Bassinet, Model S-FD01. Please read all instructions carefully before use and retain this manual for future reference. The YADAQE Baby Bassinet is designed as a multi-functional sleeping solution for infants, offering modes such as a bedside sleeper, a standalone bassinet, and an inclined nursing bed. It features portability and adjustable height for convenience.

## IMPORTANT SAFETY GUIDELINES

**WARNING:** Failure to follow these warnings and instructions could result in serious injury or death.

- Always place the bassinet on a flat, stable surface.
- Do not use this product if any parts are missing, damaged, or broken. Contact customer service for replacement parts and instructional literature if needed. Do not substitute parts.
- Discontinue use of the bassinet when the infant begins to push up on hands and knees, or has reached the weight limit specified in the specifications section, whichever comes first.
- Ensure all locking mechanisms are engaged before placing an infant in the bassinet.
- Never leave an infant unattended in the bassinet.
- Keep small parts away from children during assembly.
- Do not use accessories or replacement parts other than those approved by the manufacturer.
- Avoid placing the bassinet near windows where cords from blinds or drapes could strangle a child.
- Do not place items with a string around a child's neck, such as hood strings or pacifier cords. Do not suspend strings over a bassinet or attach strings to toys.
- To reduce the risk of SIDS, pediatricians recommend healthy infants be placed on their backs to sleep, unless otherwise advised by your physician.

## ASSEMBLY INSTRUCTIONS

---

Assembly typically requires one person and no special tools. Follow these steps carefully.

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface.
2. **Assemble Frame:** Connect the frame components as indicated by the pre-drilled holes and locking mechanisms. Ensure all connections are secure. The frame is constructed from steel and plastic.
3. **Attach Wheels:** If not pre-attached, insert the wheels into the designated slots on the bassinet legs until they click into place. Ensure the 360-degree swivel casters are functional and the brakes can be engaged.
4. **Install Fabric Assembly:** Drape the bassinet fabric over the assembled frame, securing it with any zippers, snaps, or Velcro straps provided. Ensure the breathable mesh sides are correctly positioned.
5. **Insert Mattress Pad:** Place the mattress pad securely into the bottom of the bassinet. Ensure it fits snugly and there are no gaps.
6. **Attach Storage Basket:** Secure the large storage basket underneath the bassinet frame using the provided attachments.
7. **Attach Mosquito Net:** If desired, attach the mosquito net to the designated points on the bassinet frame.

## OPERATING MODES AND FEATURES

### 1. Bedside Sleeper Mode

To use as a bedside sleeper, adjust the bassinet height to match your adult bed. Lower one side of the bassinet (if applicable, refer to specific mechanism) to allow easy access to your baby. Ensure the bassinet is securely positioned next to your bed and the wheels are locked.

## **2. Standalone Bassinet Mode**

For standalone use, ensure all sides of the bassinet are raised and securely locked. The bassinet can be moved to any location using its wheels. Always engage the wheel locks once the bassinet is in its desired position to ensure stability.

## **3. Inclined Nursing Bed / Tilt Mode**

The bassinet features a tilt mode, which can be useful for preventing choking during feeding or for babies with reflux. To activate tilt mode, follow the instructions for adjusting the height of one side of the bassinet independently, creating a gentle incline. Ensure the incline is stable and not excessive.

#### 4. Cradle Mode

To switch to cradle mode, locate the rotation mechanism (often a button or lever) and press to unlock. Gently rotate the bassinet to engage the rocking function. Ensure the mechanism locks securely in the cradle position before use.

#### HEIGHT ADJUSTMENT

The bassinet's height can be manually adjusted to align with various adult bed heights. Locate the height adjustment buttons or levers on the legs of the bassinet. Simultaneously press and hold these mechanisms while raising or lowering the bassinet to the desired height. Release the mechanisms to lock the bassinet in place. Ensure both sides are adjusted to the same height for a level sleeping surface, unless intentionally setting an incline.

#### PORTABILITY AND FOLDING FOR STORAGE

The YADAQE Baby Bassinet is designed for easy portability. To move the bassinet, unlock the wheels and gently push it to the new location. Always lock the wheels once the bassinet is in its new position.

For storage or travel, the bassinet can be easily folded. Refer to the specific folding mechanisms on your model, typically involving releasing frame locks and collapsing the structure. Ensure all fabric components are clean and dry before folding for long-term storage.

## CARE AND MAINTENANCE

---

Regular cleaning and maintenance will ensure the longevity and hygiene of your bassinet.

- **Fabric Cleaning:** The sheets and side fabrics are removable and machine washable. Use a gentle cycle with cold water and mild detergent. Do not use bleach. Air dry or tumble dry on low heat.
- **Frame Cleaning:** Wipe the frame and plastic components with a damp cloth and mild soap. Rinse thoroughly and dry completely before use.
- **Mattress Pad:** The mattress pad cover can be removed and washed according to the care label. The inner pad can be spot cleaned with a damp cloth.
- **Inspection:** Periodically inspect the bassinet for loose screws, worn parts, or damaged fabric. Discontinue use if any damage is found and contact customer service for replacement parts.
