

JVC HAA18TB

JVC Marshmallow True Wireless Bluetooth 5.3 Earbuds

MODEL: HAA18TB

Official Instruction Manual

Introduction

Thank you for choosing JVC Marshmallow True Wireless Bluetooth 5.3 Earbuds. These earbuds are designed for comfort and convenience, featuring soft memory foam earpieces, Bluetooth 5.3 connectivity, and IPX4 water resistance. This manual provides essential information for setting up, operating, and maintaining your earbuds.

What's in the Box

- JVC Marshmallow True Wireless Earbuds
- Wireless Charging Case
- USB Charging Cable
- Memory Foam Earpieces (multiple sizes)
- Silicone Earpieces (multiple sizes)

Setup

1. Charging the Earbuds and Case

Before first use, fully charge the earbuds and charging case. Connect the provided USB charging cable to the charging port on the back of the case and to a power source. The indicator lights on the case will show the charging status. Once fully charged, the lights will remain solid or turn off.

3. Bluetooth Pairing

1. Open the charging case. The earbuds will automatically enter pairing mode.
2. On your device (smartphone, tablet, etc.), enable Bluetooth and search for available devices.
3. Select "JVC HAA18TB" from the list to connect.
4. Once paired, the earbuds will automatically connect to your device when removed from the case.

Operating Instructions

1. Touch Sensor Controls

The earbuds feature intuitive touch sensor controls for various functions:

- **Play/Pause:** Single tap on either earbud.
- **Next Track:** Double tap on the right earbud.
- **Previous Track:** Double tap on the left earbud.
- **Volume Up:** Triple tap on the right earbud.
- **Volume Down:** Triple tap on the left earbud.
- **Answer/End Call:** Single tap on either earbud.
- **Reject Call:** Press and hold on either earbud.
- **Activate Voice Assistant:** Press and hold on either earbud (when not on a call).

2. Sound Modes

The earbuds offer three distinct sound modes to customize your listening experience:

- **Normal:** Balanced audio for everyday listening.
- **Clear:** Enhanced vocals and treble for podcasts and spoken content.
- **Bass:** Amplified low frequencies for a richer, deeper sound.

To switch between sound modes, press and hold the touch sensor on the left earbud for approximately 1

second.

3. Low Latency Mode

Activate Low Latency Mode for a delay-free audio experience, ideal for gaming and video playback. This mode minimizes audio lag, ensuring synchronization between visuals and sound.

Maintenance

1. Cleaning

Regularly clean your earbuds and charging case to ensure optimal performance and hygiene. Use a soft, dry cloth to wipe the surfaces. For earpieces, remove them and gently clean with a damp cloth, ensuring they are completely dry before reattaching.

2. Water Resistance (IPX4)

The earbuds are IPX4 water-resistant, meaning they are protected against splashing water from any direction. This makes them suitable for workouts and light rain. However, they are not designed for submersion in water. Ensure the earbuds are dry before placing them back in the charging case.

Troubleshooting

- **Earbuds not pairing:** Ensure both earbuds are in the charging case, then open the lid to initiate pairing mode. Check your device's Bluetooth settings and try reconnecting.
- **No sound from one earbud:** Place both earbuds back in the case, close the lid, and then reopen. This often resets the connection.
- **Low volume or poor sound quality:** Ensure earpieces are clean and properly fitted. Adjust sound modes (Normal, Clear, Bass) to your preference.
- **Charging issues:** Verify the charging cable is securely connected to both the case and power source.

Clean the charging contacts on the earbuds and inside the case.
