Button Functions:

- **Left Click Button**
- **Right Click Button**
- **Scroll Wheel / Middle Click Button**
- **DPI Adjustment Button:** Cycles through DPI settings.
- **Light Control Button:** Located next to the right mouse button, cycles through 11 RGB lighting modes.
- **Fire Button:** Dedicated button for rapid actions.
- **Desktop Button:** Quickly minimizes all open windows to show the desktop.
- **Web Button:** Opens a new web browser window.
- Additional side buttons for various functions.

Note: This mouse does not include driver software for custom button programming. Button functions are fixed.

4. SETUP AND CONNECTIVITY

The KUIYN G6 mouse supports three connection methods: Wired, 2.4G Wireless, and Bluetooth.

Image: The KUIYN G6 mouse demonstrating its tri-mode connectivity with a laptop, tablet, and game controller.

4.1 Wired Mode

1. Connect the provided Type-C cable to the mouse and to an available USB port on your computer.
2. The mouse will be automatically recognized and ready for use.

4.2 2.4G Wireless Mode

1. Locate the USB 2.4G receiver (usually stored in a compartment on the underside of the mouse).
2. Plug the USB receiver into an available USB port on your computer.
3. Turn on the mouse using the power switch (located on the underside).
4. The mouse should connect automatically.

4.3 Bluetooth Mode

1. Turn on the mouse using the power switch.
2. Activate Bluetooth on your computer or device.
3. Search for new Bluetooth devices.
4. Select "KUIYN G6" (or similar name) from the list of available devices to pair.
5. Confirm pairing if prompted.

5. OPERATING INSTRUCTIONS

5.1 DPI Adjustment

Press the **DPI Adjustment Button** (typically located near the scroll wheel) to cycle through different sensitivity levels. The mouse supports a maximum sensitivity of 4000 DPI. There is no visual indicator for the current DPI setting.

5.2 RGB Lighting Control

The KUIYN G6 mouse features 11 RGB lighting modes. Use the dedicated **Light Control Button** (next to the right mouse

button) to switch between different lighting effects. This button allows for easy customization of the mouse's aesthetic without needing to access the underside.

6. CHARGING

The KUIYN G6 mouse is equipped with a built-in 500mAh rechargeable lithium battery.

Image: The KUIYN G6 mouse being charged via its Type-C port, highlighting the 500mAh battery capacity.

- To charge, connect the mouse to a power source using the provided Type-C cable.
- A full charge typically takes approximately 3-4 hours.
- The mouse is designed for energy efficiency, allowing for several weeks of use on a single charge.
- To conserve battery life, it is recommended to turn off the RGB lighting when not actively using the mouse.

7. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the mouse. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the mouse in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Handle the Type-C charging cable gently to prevent damage.

8. TROUBLESHOOTING

Issue	Possible Cause	Solution
Mouse not responding in wireless mode.	Low battery, receiver not plugged in, mouse not powered on, incorrect mode selected.	Ensure the mouse is charged. Verify the 2.4G USB receiver is securely plugged into a USB port. Confirm the mouse power switch is ON. Check if the mouse is in the correct wireless mode (2.4G or Bluetooth).

Issue	Possible Cause	Solution
Bluetooth connection issues.	Mouse not in pairing mode, device Bluetooth off, interference.	Ensure mouse is powered on and Bluetooth is enabled on your device. Try re-pairing the mouse through your device's Bluetooth settings. Ensure no other Bluetooth devices are causing interference.
RGB lights flickering or not working.	Low battery, light mode issue.	Charge the mouse fully. Press the Light Control Button to cycle through modes or turn off/on.
DPI settings reset after turning off.	Expected behavior for some units.	Adjust DPI settings each time the mouse is powered on if this behavior occurs.
Buttons are not programmable.	The mouse does not support custom button programming via software.	Button functions are fixed as per design.
