3. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your Belffin Modular Sectional Sleeper Sofa.

3.1 General Cleaning

- **Regular Vacuuming:** Vacuum the sofa regularly using a soft brush attachment to remove dust and loose debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Avoid rubbing, as this can spread the stain. For stubborn stains, use a mild fabric cleaner and test on an inconspicuous area first.
- **Avoid Harsh Chemicals:** Do not use harsh detergents, bleach, or abrasive cleaners, as these can damage the fabric.

3.2 Fabric Care

The sofa's fabric is designed for durability. While the back pillows may have removable covers, the main seat cushions are not designed for machine washing. Professional cleaning is recommended for deep cleaning or significant stains.

3.3 Preventing Wear

- **Rotate Cushions:** Periodically rotate and fluff cushions to ensure even wear and maintain their shape.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position your sofa away from direct sunlight or use window coverings.
- **Protect from Pets:** If you have pets, consider using protective covers to prevent scratches and excessive wear.

4. TROUBLESHOOTING

This section addresses common issues you might encounter with your modular sofa.

4.1 Assembly Difficulties

- **Modules not connecting smoothly:** Ensure the metal brackets on the underside of the modules are correctly aligned. Sometimes a slight lift or wiggle can help them slide into place. Verify no obstructions are present.
- **Missing parts:** If any parts are missing upon arrival, please contact Belffin customer support immediately.

4.2 Comfort and Firmness

- **Sofa feels too firm:** The cushions are filled with high-resilience foam, providing firm support. Over time, the cushions will naturally soften with use.

4.3 General Issues

- **Squeaking noises:** Check all connections to ensure they are secure. If a module feels loose, re-engage the connecting brackets.
- **Fabric pilling:** Some fabrics may experience minor pilling with use. This can often be removed with a fabric shaver.
