OHYEAHSPIN Light Box Blcak

OHYEAHSPIN iPad Photo Booth Instruction Manual

Model: Light Box Blcak

Brand: OHYEAHSPIN

1. INTRODUCTION AND OVERVIEW

This manual provides detailed instructions for the setup, operation, and maintenance of your OHYEAHSPIN iPad Photo Booth. Designed for versatility and ease of use, this photo booth is compatible with a wide range of iPad sizes, including 10.2-inch, 10.9-inch, 11-inch, and 12.9-inch models. It features an integrated RGB ring light with app and remote control, music synchronization capabilities, and a durable flight case for portability.

2. PRODUCT FEATURES

- **Universal iPad Compatibility:** Supports all iPad sizes (10.2in, 10.9in, 11in, 12.9in), offering flexibility for various devices.
- **Integrated RGB Ring Light:** Features 20+ color lighting modes, adjustable brightness (1%-100%), and color temperature (2700K-6500K). The ring light angle is flexible and adjustable.
- **Dual Control Methods:** RGB light box can be controlled via a dedicated mobile application or the included remote control.
- **Music Synchronization:** The RGB lighting effect can synchronize with music, changing rhythmically to enhance the atmosphere.
- **Photo and Video Recording:** Easily record and share moments, supporting image, video, and live streaming capture.
- **Durable and Portable Design:** Constructed from sheet metal for durability, lightweight, and includes a flight case for easy transport.

- **Printer Connectivity:** Allows for instant printing of photos when connected to a compatible printer.

3. SETUP AND ASSEMBLY

The OHYEAHSPIN iPad Photo Booth is designed for straightforward assembly. For detailed step-by-step instructions, please refer to the user manual included in the product packaging. An installation video is also available on the product page for visual guidance.

3.1 Unpacking and Component Identification

Carefully unpack all components from the flight case. Verify that all parts listed in the packing list are present and undamaged. Key components include the main stand, iPad holder with ring light, power adapter, and remote control.

PRODUCT DETAILS

Image 3.1: Overview of the main product components and their functions.

3.2 Assembly Steps

1. Attach the main stand to the base, ensuring it is securely fastened.
2. Mount the iPad holder and ring light assembly onto the top of the main stand.
3. Connect all necessary cables, including the power cable.
4. Insert your iPad into the designated holder.

3.3 Power Connections and Controls

PARTIAL FEATURE

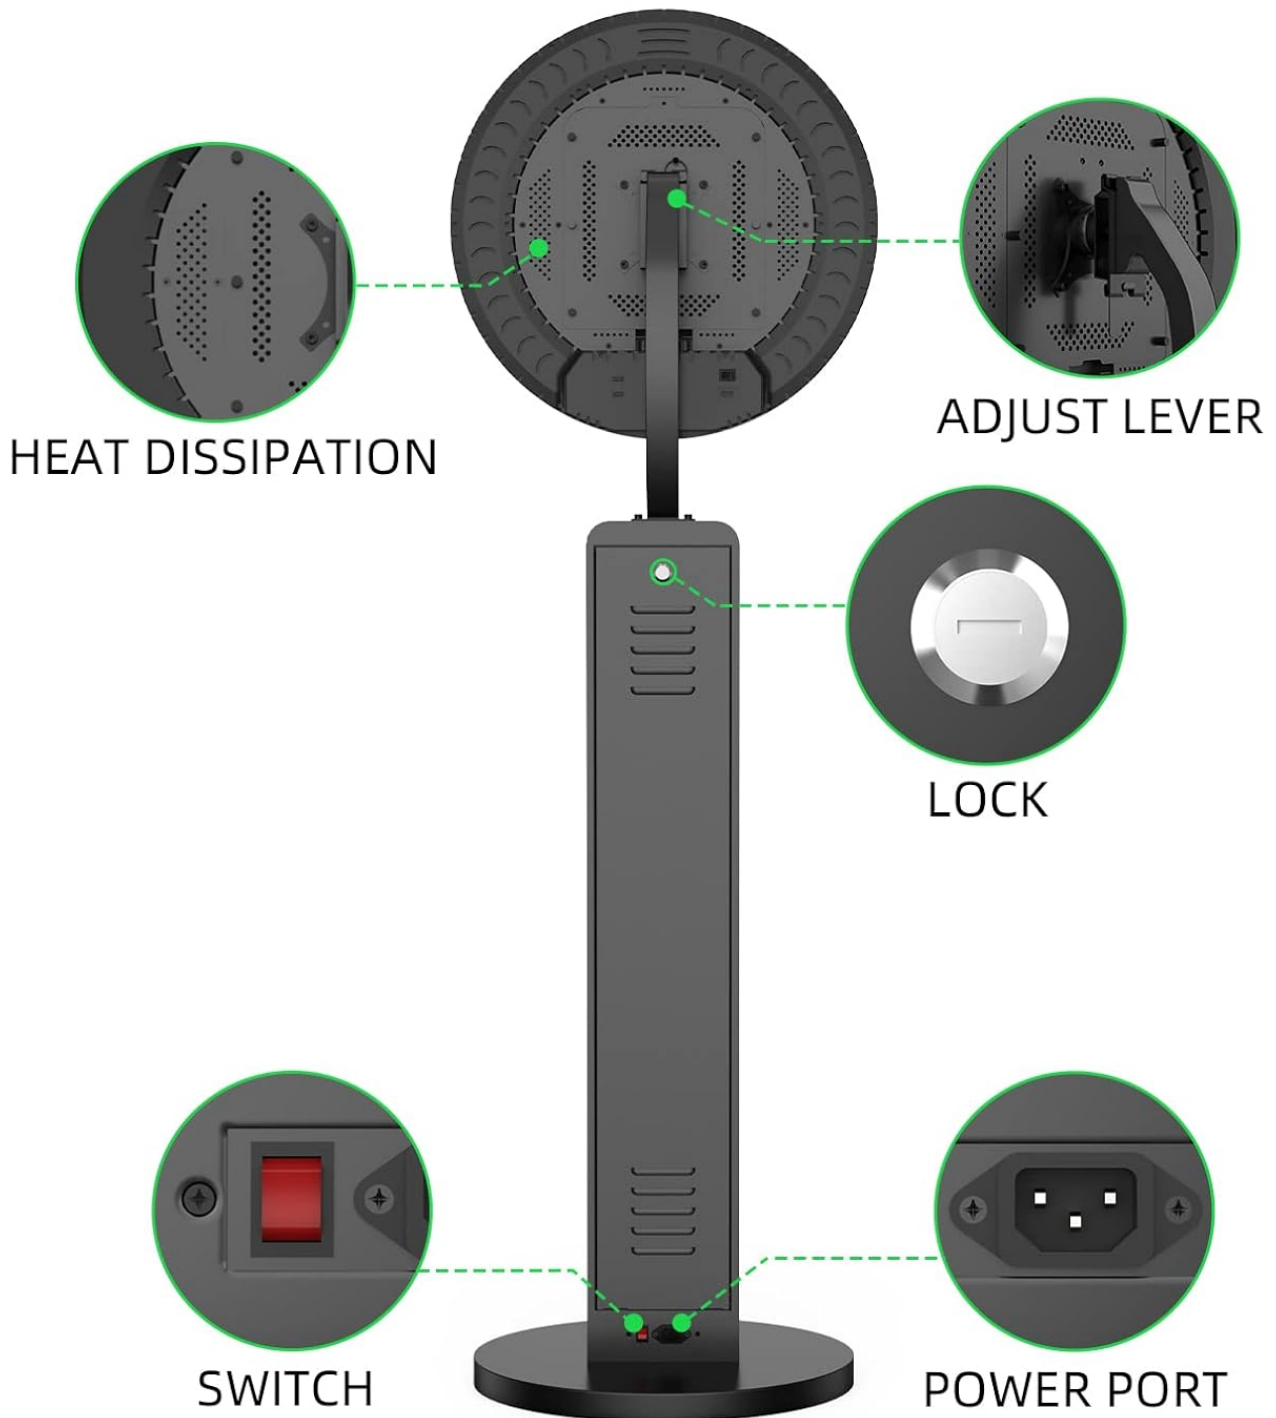

Image 3.2: Key functional areas including the power port, main switch, and adjustment points.

Locate the power port and switch on the unit. Ensure the power cable is securely connected. The unit also features heat dissipation vents to prevent overheating during extended use.

4. OPERATING INSTRUCTIONS

4.1 Powering On and Off

To power on the photo booth, connect the power cable and flip the main switch to the 'ON' position. To power off, flip the switch to the 'OFF' position and disconnect the power cable.

4.2 iPad Installation and Removal

Gently slide your iPad into the holder. Ensure it is seated firmly and securely. To remove, carefully slide the iPad out of the holder.

4.3 Controlling the RGB Ring Light

The RGB ring light can be controlled using either the provided remote control or the dedicated Chacktok mobile application. Both methods allow you to:

- Select from over 20 color lighting modes.
- Adjust brightness from 1% to 100%.
- Set color temperature between 2700K (warm) and 6500K (cold).
- Activate music synchronization mode.

4.4 Photo and Video Capture

Utilize your iPad's camera and preferred photo booth software (e.g., Chacktok app) to capture images and videos. The adjustable ring light and iPad angle allow for optimal framing and lighting.

4.5 Sharing and Printing

Captured content can be easily shared to various social media platforms directly from your iPad. For physical prints, connect a compatible printer to your iPad via Bluetooth or Wi-Fi, and use your photo booth software's printing function.

5. MAINTENANCE

5.1 Cleaning

To maintain the appearance and functionality of your photo booth, regularly wipe down surfaces with a soft, dry cloth. For stubborn marks, a slightly damp cloth with mild soap can be used, followed by drying. Avoid abrasive cleaners or solvents.

5.2 Storage and Transport

When not in use, store the photo booth in its provided flight case. The flight case is designed with corner protection and thick crash foam to ensure the unit's safety during transport. Utilize the portable belt for easier carrying.

Image 5.1: The robust flight case provides secure storage and convenient portability for the photo booth.

6. TROUBLESHOOTING

If you encounter any issues with your OHYEAHSPIN iPad Photo Booth, please refer to the following common troubleshooting tips. For more complex problems, contact customer support.

6.1 Power Issues

- **No Power:** Ensure the power cable is securely connected to both the unit and a working power outlet. Check that the main power switch is in the 'ON' position.

6.2 Ring Light Malfunction

- **Lights Not Responding:** Verify that the remote control batteries are functional. If using the app, ensure Bluetooth is enabled on your iPad and the app is properly connected to the photo booth.
- **Inconsistent Lighting:** Check for any obstructions around the ring light. Ensure the power supply is stable.

6.3 iPad Connectivity

- **iPad Not Fitting:** Ensure you are using a compatible iPad size (10.2", 10.9", 11", or 12.9"). Do not force the iPad into the holder.
- **Charging Issues:** Verify the iPad charging port on the photo booth is clean and the cable is properly inserted.
