Nespresso Zenius Professional Coffee Machine User Manual

Your guide to an exceptional coffee experience.

1. INTRODUCTION

Welcome to the Nespresso Professional Coffee Starter Bundle. This comprehensive kit is designed to bring the premium Nespresso coffee experience to your small business environment. It includes the Zenius Professional Coffee Machine, a selection of Nespresso Professional Intenso coffee capsules, a dedicated recycling bin, and recycling bags.

The Zenius machine is engineered for ease of use, reliability, and speed, ensuring that you can offer high-quality coffee at the touch of a button. This manual provides essential information on setting up, operating, maintaining, and troubleshooting your new Nespresso Professional system.

2. SETUP

2.1 Unboxing and Placement

Carefully remove all components from the packaging. Place the Zenius machine on a stable, flat, and clean surface, away from heat sources and direct sunlight. Ensure there is adequate space around the machine for ventilation and access to the water tank and capsule container.

2.2 Filling the Water Tank

1. Remove the water tank from the back of the machine.
2. Fill the tank with fresh, potable water up to the 'MAX' level indicator. Do not use sparkling water or any other liquids.
3. Place the water tank back into its position on the machine, ensuring it is securely seated.

2.3 First Use and Rinsing

Before first use, or after a long period of inactivity, it is recommended to rinse the machine to ensure optimal coffee quality.

1. Ensure the water tank is filled.
2. Place a container (at least 0.5 liters) under the coffee outlet.
3. Press any coffee button (Ristretto, Espresso, or Lungo) without inserting a capsule. The machine will dispense hot water. Repeat this process 2-3 times.
4. Empty and clean the used water container.

3. OPERATING THE MACHINE

3.1 Powering On

Plug the machine into a grounded power outlet. Press the power button. The machine will heat up in approximately 35 seconds. The coffee buttons will illuminate steadily when the machine is ready for use.

3.2 Brewing Coffee

The Zenius machine offers three programmable coffee sizes: Ristretto, Espresso, and Lungo. It also provides a hot water function.

1. **Insert Capsule:** Lift the lever, insert a Nespresso Professional single-serve coffee capsule into the designated slot, and close the lever firmly.
2. **Place Cup:** Position your cup on the drip tray under the coffee outlet.
3. **Select Coffee Size:** Press the button corresponding to your desired coffee size (Ristretto, Espresso, or Lungo). The machine will begin brewing.
4. **Hot Water Function:** To dispense hot water for Americanos or tea, press the dedicated hot water button.
5. **Eject Capsule:** After brewing, lift the lever to automatically eject the used capsule into the integrated capsule container.

COMPATIBLE WITH NESPRESSO PROFESSIONAL CAPSULES

- Mild, intense, flavored, single-origin, organic and decaf coffees
 - Hermetically sealed and fully recyclable through our free recycling program

4. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Nespresso Zenius machine.

4.1 Daily Cleaning

- **Drip Tray and Used Capsule Container:** Empty and rinse the drip tray and used capsule container daily with warm water. Dry thoroughly before reassembling.
- **Water Tank:** Rinse the water tank daily and refill with fresh water.
- **Machine Exterior:** Wipe the machine's exterior with a soft, damp cloth. Do not use abrasive cleaning agents or immerse the machine in water.

4.2 Descaling

Descaling is crucial to remove mineral deposits that can affect machine performance and coffee taste. The frequency depends on water hardness and usage. Refer to the Nespresso Professional website or contact customer support for specific descaling instructions and recommended descaling solutions.

4.3 Capsule Recycling

The Nespresso Professional Coffee Starter Bundle includes a recycling bin and bags for convenient recycling of used Nespresso capsules. Nespresso offers a free recycling program for its capsules.

5. TROUBLESHOOTING

If you encounter issues with your Zenius machine, please refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
No coffee flow or very slow flow	Empty water tank; Machine needs descaling; Capsule not inserted correctly.	Fill water tank; Perform descaling procedure; Ensure capsule is correctly inserted and lever is fully closed.
Coffee is not hot enough	Machine needs descaling; Cold cup.	Perform descaling procedure; Preheat cup with hot water from the machine.
Machine not turning on	No power supply.	Check power cord connection to machine and wall outlet; Check circuit breaker.
Water leaking from machine	Water tank not correctly positioned; Drip tray full.	Ensure water tank is securely in place; Empty and clean drip tray.

If the problem persists after attempting these solutions, please contact Nespresso Professional Customer Support.

6. SPECIFICATIONS

Feature	Detail
Brand	Nespresso
