DEVICE MAINTENANCE

Software Updates

Your Moto G Stylus 5G (2023) comes with Android 13 out of the box and is planned for an upgrade to Android 14. Regularly check for and install software updates to ensure your device has the latest features, security patches, and

performance improvements. You can typically find updates in Settings > System > System updates.

Water Repellent Design

The device features a water-repellent design, which helps protect it against moderate exposure to water, such as accidental spills, splashes, or light rain. It is not designed to be submerged in water or exposed to pressurized water. Always ensure the USB port and headphone jack are dry before charging or connecting accessories.

Cleaning Your Device

To clean your phone, use a soft, lint-free cloth. Avoid using abrasive cleaners, solvents, or aerosol sprays, as these can damage the device's finish or internal components. For stubborn smudges, slightly dampen the cloth with water.

TROUBLESHOOTING COMMON ISSUES

Performance Issues

If your phone is running slow or apps are crashing, try the following:

- Restart your device.
- Clear cache for problematic apps (Settings > Apps > [App Name] > Storage > Clear cache).
- Ensure you have sufficient storage space.
- Perform a factory reset as a last resort (Settings > System > Reset options > Erase all data).

Connectivity Problems

If you're experiencing issues with Wi-Fi or Bluetooth:

- Toggle Wi-Fi/Bluetooth off and on.
- Forget the network/device and reconnect.
- Restart your router/Bluetooth accessory.

Battery Drain

To optimize battery life:

- Reduce screen brightness.
- Disable unused features like Bluetooth, NFC, or GPS when not needed.
- Limit background app activity.
- Use Battery Saver mode.
