Levigo COWIN SE7/SE7 PRO

Levigo Protein Leather Replacement Earpads User Manual

Model: COWIN SE7/SE7 PRO

Introduction

Thank you for choosing Levigo Protein Leather Replacement Earpads. These earpads are designed to provide a comfortable and immersive listening experience for your COWIN SE7 and SE7 PRO headphones. Crafted from high-quality protein leather and premium memory foam, they offer softness, breathability, and effective sound isolation, ensuring durable wear without pressure.

Setup and Installation

Replacing your old earpads with new Levigo earpads is a straightforward process. Please follow these steps carefully to ensure proper installation and optimal performance.

1. **Remove Old Earpads:** Gently peel off the existing earpads from your COWIN SE7/SE7 PRO headphones. They are typically held in place by a plastic ring or adhesive.
2. **Retrieve the Plastic Ring:** This is a critical step. The original earpads contain a plastic mounting ring that is essential for attaching the new Levigo earpads. Carefully separate this plastic ring from your old earpads. It might be glued or clipped in.

Image: A visual guide demonstrating the process of detaching the plastic ring from the old earpads and preparing it for the new ones. This ring is crucial for securing the new earpads to the headphone cups.

3. **Attach Ring to New Earpads:** Align the retrieved plastic ring with the back of the new Levigo earpads. Ensure it fits securely into the designated groove or attachment points on the earpad.
4. **Install New Earpads:** Carefully press the new earpads, with the plastic ring attached, onto the headphone cups. Ensure the clips or grooves on the plastic ring align with the corresponding slots on the headphone. Apply gentle, even pressure until the earpad clicks or secures firmly into place.

Operating and Benefits

Once installed, your Levigo replacement earpads will enhance your listening experience through several key features:

- **Enhanced Comfort:** The premium soft memory foam conforms to the shape of your ears, providing a comfortable fit for extended listening sessions without pressure points.
- **Superior Sound Isolation:** The design and materials effectively reduce external noise, allowing you to focus on your audio with improved clarity and bass performance.
- **Breathable Material:** The protein leather and memory foam are designed to be breathable, helping to keep your ears cool and comfortable.

Maintenance

To ensure the longevity and hygiene of your Levigo replacement earpads, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the surface of the earpads gently with a soft, damp cloth. For stubborn dirt, use a mild soap solution, then wipe with a clean, damp cloth and dry thoroughly. Avoid harsh chemicals or abrasive cleaners.
- **Storage:** When not in use, store your headphones in a clean, dry place away from direct sunlight and extreme temperatures.
- **Avoid Punctures:** Be careful not to puncture or tear the protein leather, as this can compromise the earpads' integrity and comfort.

Troubleshooting

If you encounter any issues during or after installation, please refer to the following common solutions:

Problem	Possible Cause / Solution
Earpads do not fit or are loose.	◦ Ensure you have retrieved and correctly installed the original plastic mounting ring from your old earpads onto the new Levigo earpads. This ring is crucial for a secure fit. ◦ Verify that the earpads are aligned correctly with the headphone's attachment points. Apply even pressure around the entire circumference until they click into place. ◦ Confirm your headphone model is COWIN SE7 or SE7 PRO. These earpads are specifically designed for these models.
Reduced sound quality or bass.	◦ Ensure the earpads are fully seated and sealed against your ears. A proper seal is essential for optimal sound isolation and bass response. ◦ Check for any gaps between the earpad and the headphone cup. Re-install if necessary to ensure a tight fit.
Earpads feel uncomfortable.	◦ Allow a short break-in period for the memory foam to fully adapt to the shape of your ears. ◦ Ensure the earpads are positioned correctly on your ears.
