SETUP

Connecting Your Devices

The Taiahiro Mechanical Gaming Keyboard and Mouse Combo are wired devices, ensuring a stable and responsive connection. Both connect via a USB Type-C cable.

1. **Unpack the Devices:** Carefully remove the keyboard, mouse, and USB Type-C cable from their packaging.
2. **Connect the Keyboard:** Insert the USB Type-C end of the cable into the port located on the keyboard. Connect the standard USB-A end of the cable to an available USB port on your computer (PC or Mac).
3. **Connect the Mouse:** The mouse is also wired. Connect its USB-A cable to another available USB port on your computer.
4. **Plug and Play:** No additional drivers or software are required. Your operating system will automatically recognize the devices.

OPERATING INSTRUCTIONS & FEATURES

Keyboard Features

- **Mechanical Blue Switches:** The keyboard is equipped with durable mechanical blue switches, providing a satisfying tactile bump and audible click with each keystroke. This ensures precise and responsive feedback for both gaming and typing.

50,000,000 Times Keystrokes Life

- **98-Key Full-Size Layout:** This keyboard offers a complete typing experience with 98 keys, including a numeric keypad, in a compact design.
- **Detachable Floated Keycaps:** The double-shot-molded ABS keycaps are wear-resistant and non-fading. Their floated design makes them easy to remove for cleaning and maintenance.
- **Ergonomic Design:** The keyboard features an ergonomic, sloped design with adjustable feet, allowing you to set a comfortable typing angle to reduce hand fatigue during extended use.

- **7 Colors Breathing RGB Backlighting:** The mouse features dynamic 7-color RGB lighting that constantly breathes and cycles, adding to your gaming aesthetic.
- **Ergonomic Contoured Shape:** Designed to fit comfortably in your hand, the mouse's contoured shape and textured grip ensure a secure hold for improved accuracy.

MAINTENANCE

Cleaning the Keyboard

To maintain optimal performance and hygiene, regular cleaning of your keyboard is recommended.

1. **Disconnect the Keyboard:** Always unplug the keyboard from your computer before cleaning.
2. **Remove Keycaps:** Use the included keycap puller tool to carefully remove the keycaps. This allows access to the switches and the keyboard plate for thorough cleaning.

Image: A keycap puller tool, used for safely removing keycaps from the keyboard.

3. **Clean the Keycaps:** Keycaps can be cleaned with a mild soap and water solution. Ensure they are completely dry before reattaching.
4. **Clean the Keyboard Plate:** Use compressed air to blow out dust and debris from between the switches. A soft brush or microfiber cloth can be used to wipe down the surface.
5. **Replace Keycaps:** Carefully press each keycap back onto its corresponding switch until it clicks into place.

Cleaning the Mouse

Keep your mouse clean for smooth operation.

1. **Disconnect the Mouse:** Unplug the mouse from your computer.
2. **Wipe Surfaces:** Use a soft, damp cloth to wipe the surface of the mouse. Avoid using harsh chemicals.
3. **Clean Optical Sensor:** Gently clean the optical sensor on the bottom of the mouse with a cotton swab to ensure accurate tracking.

TROUBLESHOOTING

If you encounter any issues with your Taihiro Mechanical Gaming Keyboard and Mouse Combo, please refer to the following common troubleshooting steps:

- **No Response from Keyboard/Mouse:**
 - Ensure both devices are securely plugged into active USB ports on your computer.
 - Try connecting the devices to different USB ports.
 - Restart your computer.
- **Backlighting Not Working/Incorrect:**
 - For the keyboard, press **Fn + Home** to cycle through the 18 backlight modes.
 - Adjust brightness using **Fn + Up/Down Arrow** keys.
 - The mouse RGB lighting is automatic and cycles through 7 colors. Ensure the mouse is connected.
- **Mouse Tracking Issues:**

- Clean the optical sensor on the bottom of the mouse.
- Ensure you are using the mouse on a clean, non-reflective surface or the included mouse pad.
- Adjust the DPI settings using the DPI button on the mouse.

• **Keys Not Registering:**

- If a specific key is not working, try removing and re-seating its keycap.
- If the issue persists, the switch might need replacement. The product includes extra switches and a switch puller for this purpose.
