HoneyGuaridan 3.5L

HoneyGuaridan Automatic Cat Feeder User Manual

Model: 3.5L

Introduction

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your HoneyGuaridan Dual Cat Automatic Feeder. Please read this manual carefully before use to ensure proper functionality and the well-being of your pets.

Figure 1: HoneyGuaridan Automatic Cat Feeder, showcasing its design with a transparent food reservoir and two stainless steel bowls.

Product Features

- **Unique Dual Side Equal Feeding:** Designed to distribute pet food evenly to both sides, preventing competition between pets.
- **Multiple Sealing for Freshness:** Features a rubber seal between the lid and container to prevent oxidation, a desiccant bag for dehumidification, and a sealed revolving door to prevent pests.
- **Fixed Time Quantitative Flexible Feeding:** Allows programming of 1-6 meals per day, with 0-24 servings per feeding. Each portion is approximately 6 grams.
- **Easy to Operate, Disassemble, and Clean:** Simple setup process. The top cover, clear food bucket, and stainless steel bowls are removable and washable.
- **Dual Power Supply:** Can be powered by a USB power adapter or 3 alkaline D-size batteries (not included). Batteries provide up to 200 days of backup power.

Setup Guide

1. Unpacking and Assembly

1. Carefully remove all components from the packaging.
2. Ensure all parts are present: main unit, food bucket, lid, desiccant bag, two stainless steel bowls, and USB power adapter.
3. Wash the food bucket, lid, and stainless steel bowls with water and mild detergent. Dry thoroughly before assembly.
4. Insert the stainless steel bowls into their designated slots on the base unit.

Figure 2: Detachable components of the feeder, including the food bucket, lid, and stainless steel bowls, for easy

cleaning.

2. Power Supply

- Connect the USB power adapter to the feeder and a power outlet.
- For backup power, insert 3 alkaline D-size batteries into the battery compartment located at the bottom of the unit.
  Note: Batteries are not included.

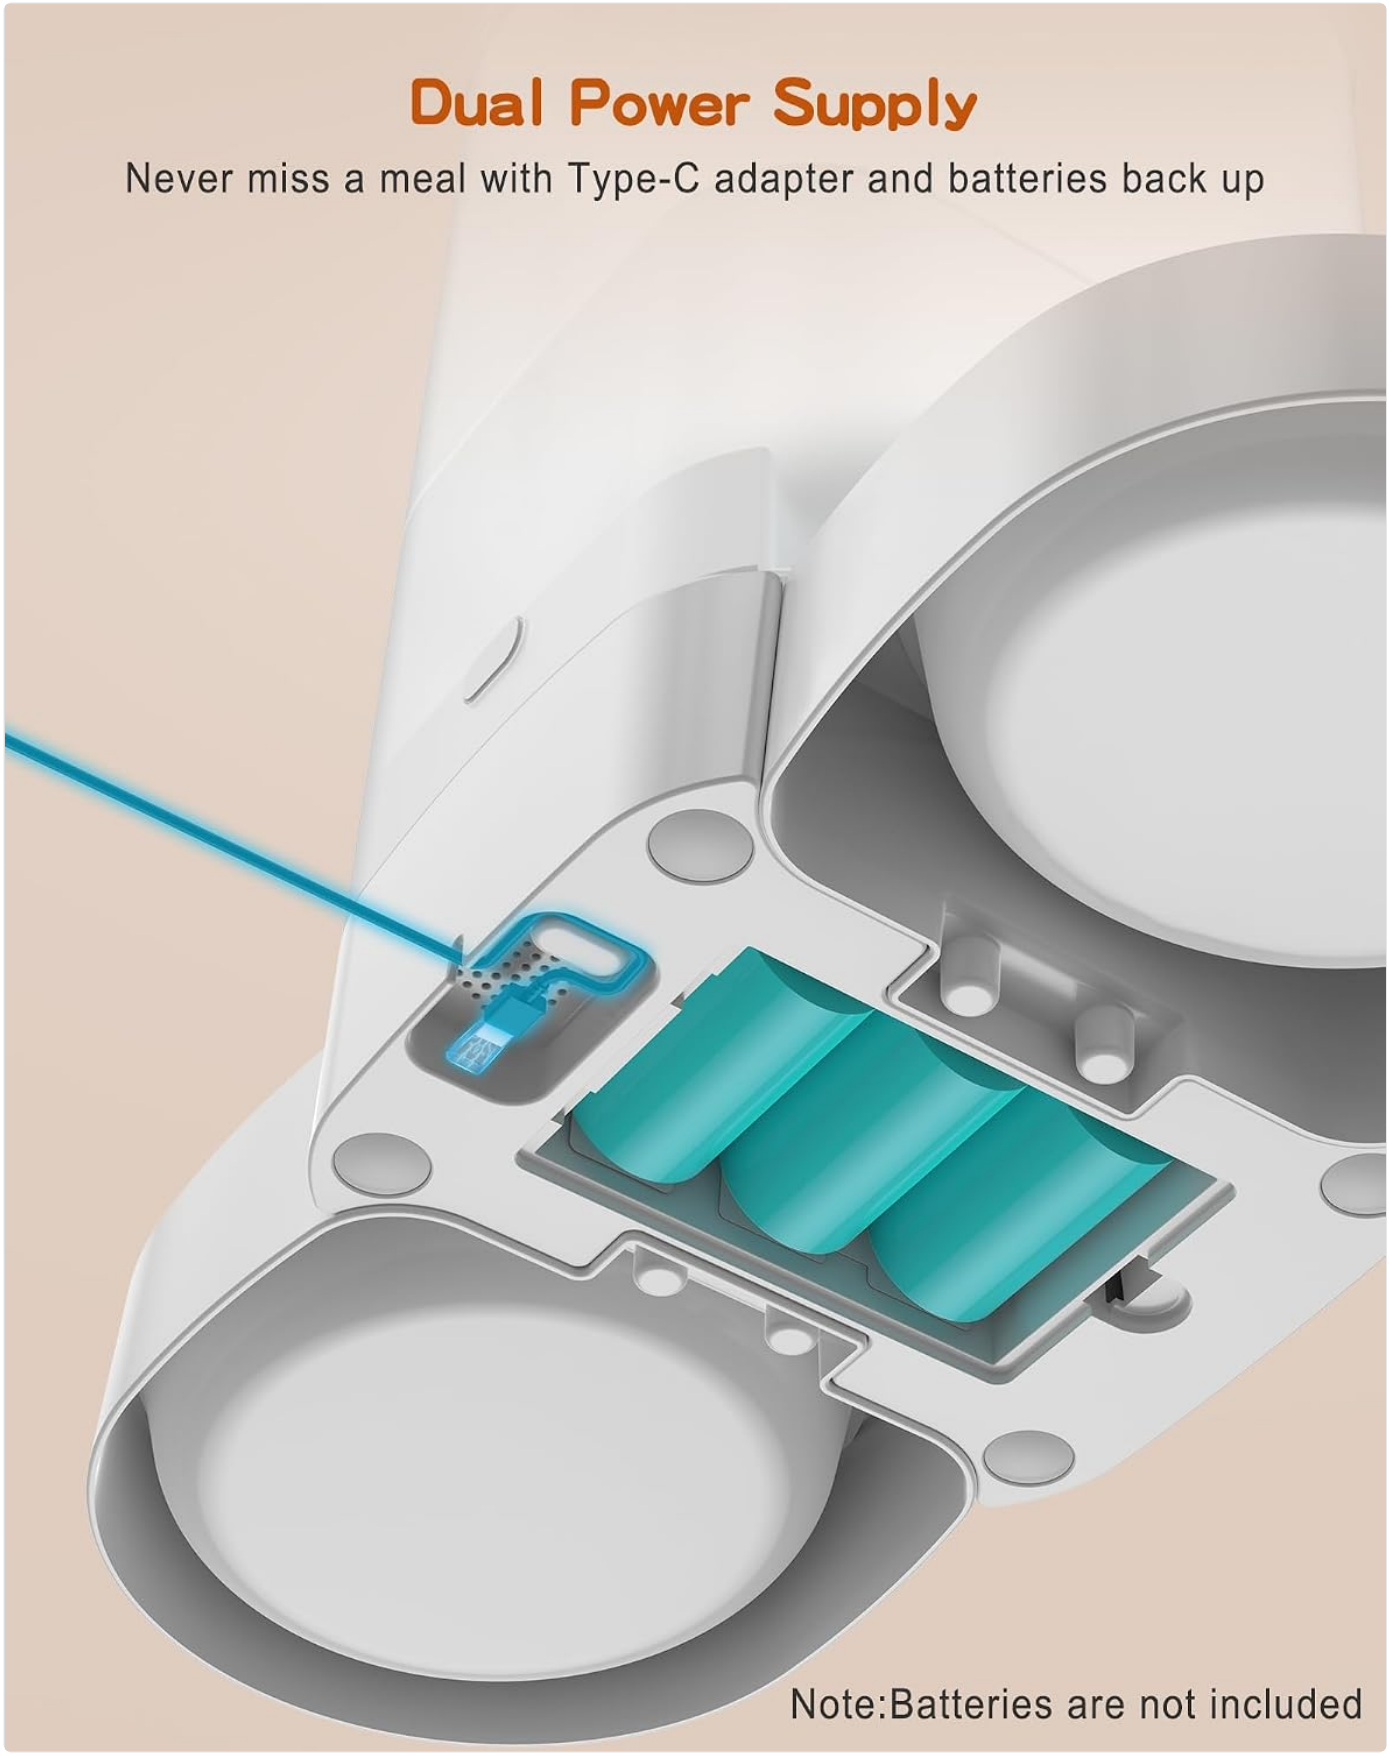

Figure 3: Illustration of the dual power supply system, showing the USB connection and battery compartment.

3. Filling the Food Reservoir

- Open the lid of the food bucket.
- Place the desiccant bag into its designated slot under the lid to help keep food fresh.
- Fill the food bucket with dry pet food. Ensure the kibble size is between 2-15mm (0.07-0.6 inches) to prevent clogging.
- Close the lid securely to maintain freshness and prevent pests.

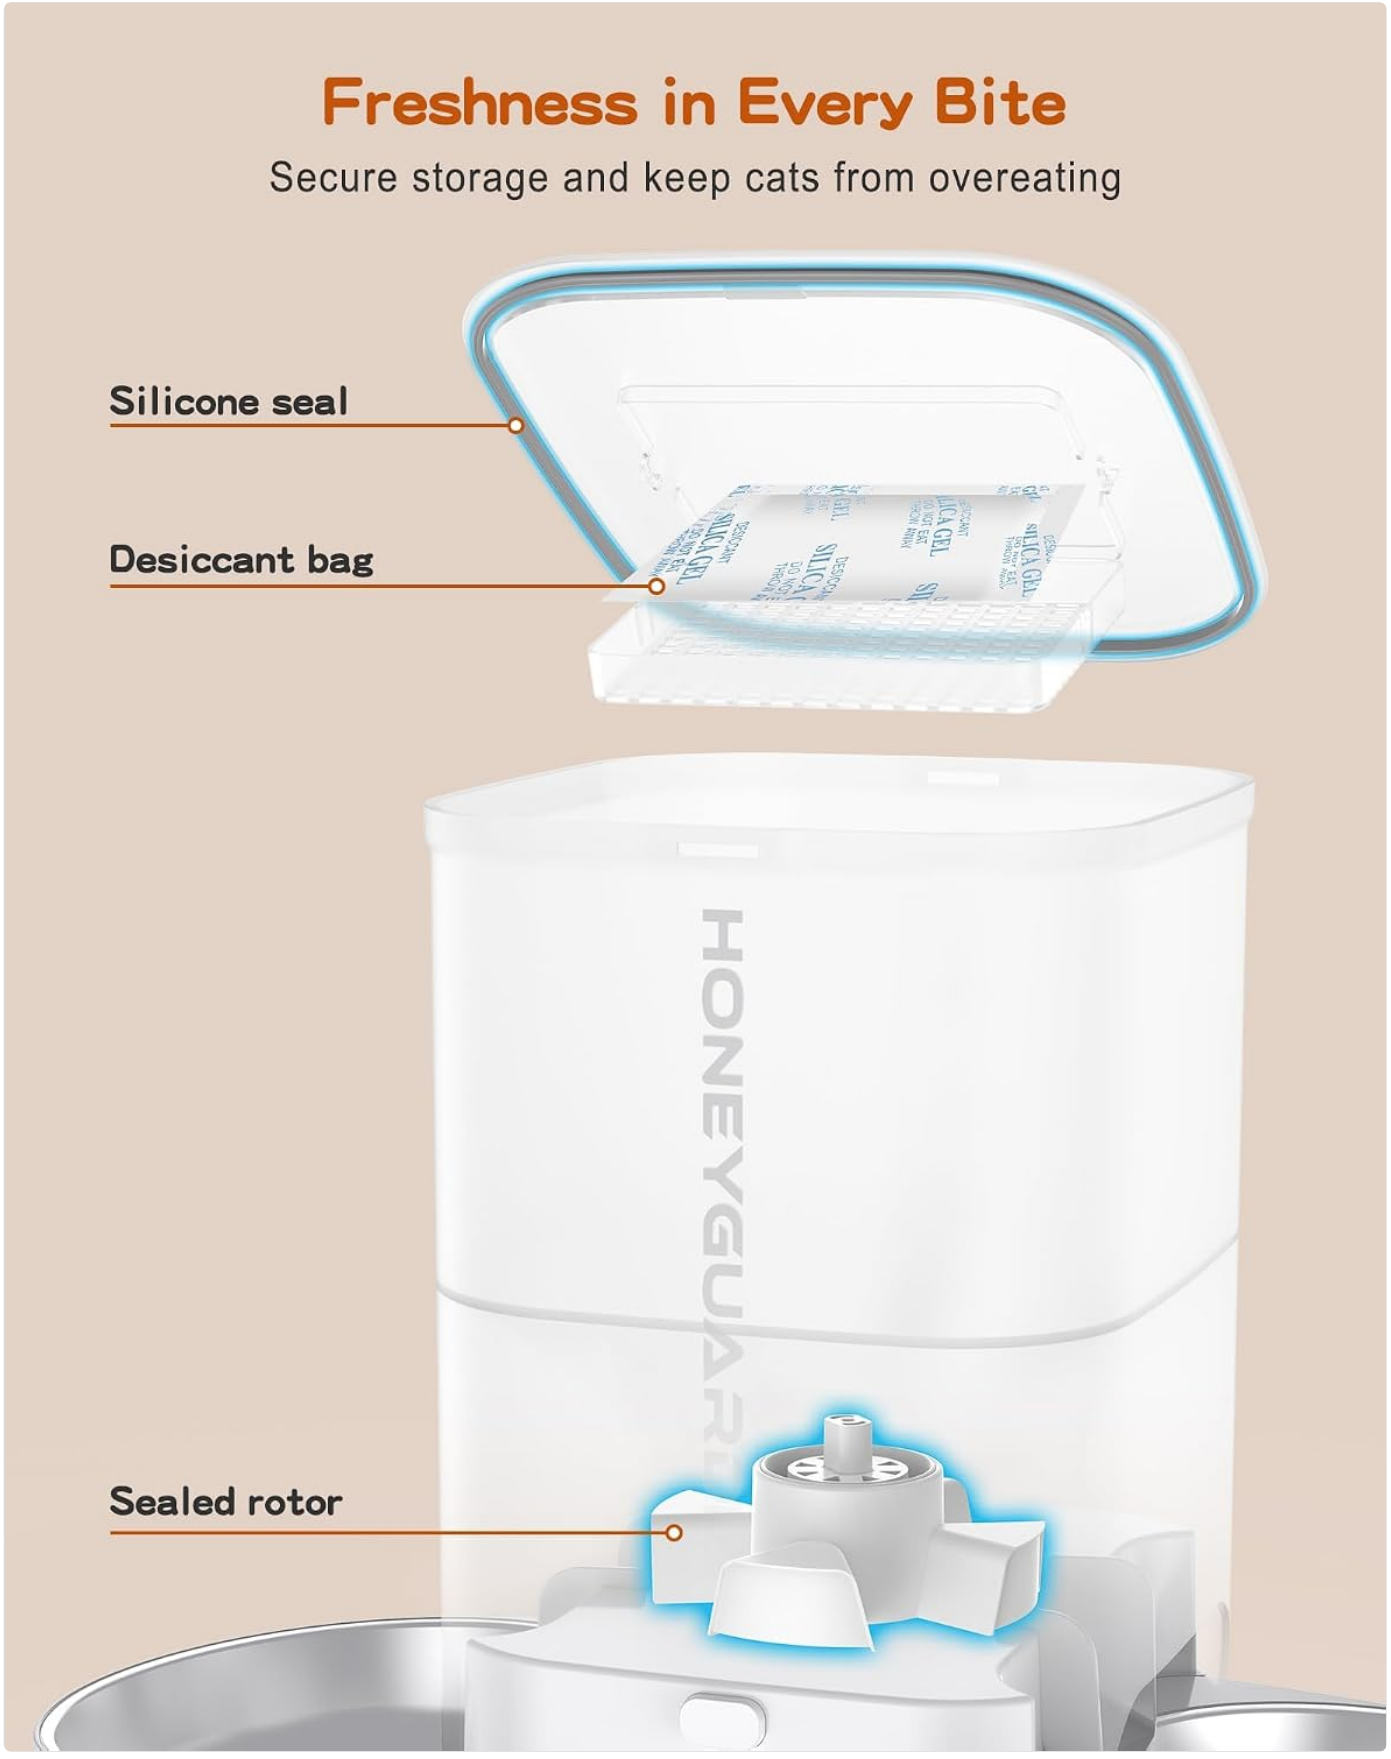

Figure 4: The feeder's freshness features, including the silicone seal, desiccant bag, and sealed rotor mechanism.

Figure 5: The anti-clog design ensures smooth and consistent food distribution into the bowls.

Operating Instructions

1. Setting the Time

Refer to the feeder's display and control buttons. Typically, there will be a "SET" or "TIME" button to enter time setting

mode. Use arrow buttons to adjust hours and minutes, then confirm.

2. Programming Feeding Schedule

- Press the "PROGRAM" or "MEAL" button to set meal times.
- You can program up to 6 meals per day. For each meal, set the desired time.
- Adjust the number of servings per meal (0-24 portions). Each portion is approximately 6 grams.
- Confirm each setting to save the schedule.

Figure 6: The feeder allows for a flexible feeding schedule, with options for 1-6 meals per day and adjustable portions.

3. Voice Recording (10s Meal Call)

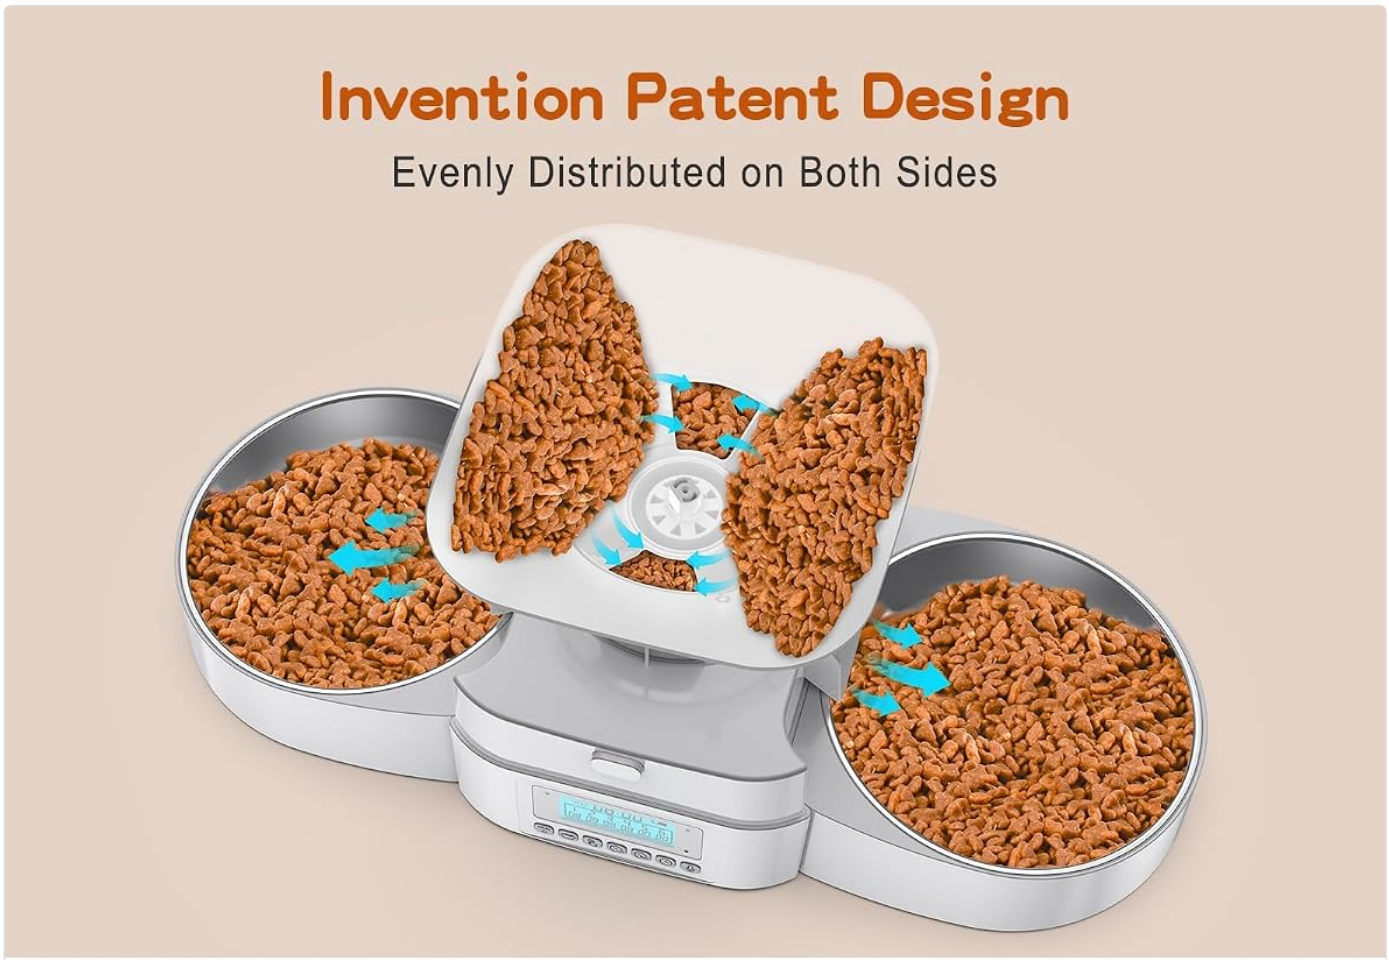

The feeder allows you to record a 10-second voice message that will play at each feeding time to call your pets. Locate the "REC" button, press and hold to record, then release to save.

4. Manual Feeding

Most feeders have a manual feed button (often labeled "MANUAL" or "FEED"). Pressing this button will dispense one serving immediately, allowing for extra treats or testing.

5. Dual Side Feeding Mechanism

The feeder is designed to dispense food evenly into both stainless steel bowls, ensuring both pets receive their share without conflict.

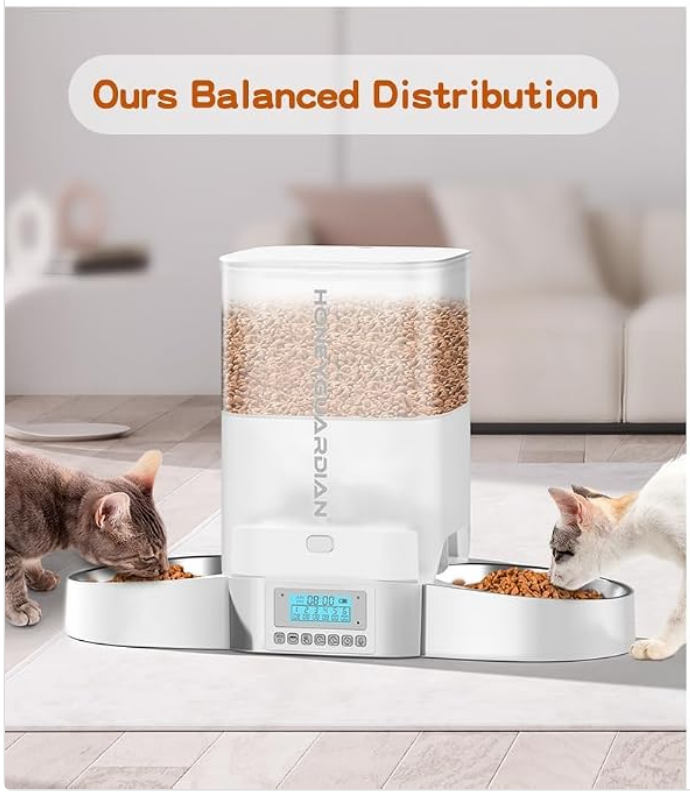

Figure 7: The patented design ensures food is evenly distributed to both bowls, ideal for multi-pet households.

Maintenance

1. Cleaning

- Regularly clean the food bucket, lid, and stainless steel bowls. These parts are detachable and can be hand washed with water and mild detergent.
- Do not submerge the main unit (containing electronics) in water. Wipe it clean with a damp cloth.
- Ensure all parts are completely dry before reassembling to prevent moisture damage or mold growth.

2. Desiccant Bag Replacement

The desiccant bag helps keep the food fresh. Replace it periodically, especially in humid environments, to maintain optimal food quality.

Troubleshooting

Problem	Possible Cause	Solution
Feeder not dispensing food.	Food hopper empty; kibble size too large; food jammed; power issue.	Refill food; check kibble size (2-15mm); clear any blockages; ensure power adapter is connected or batteries are installed and charged.
Uneven food distribution.	Feeder not level; internal mechanism obstruction.	Place feeder on a flat, stable surface; check for and clear any obstructions in the dispensing mechanism.
Display not working.	No power; loose connection.	Check power adapter connection; ensure batteries are correctly inserted and have charge.
Voice recording not playing.	No recording saved; low battery.	Re-record the voice message; check battery level.

Specifications

Model: 3.5L

Capacity: 3.5 Liters

Dimensions (LxWxH): 11.02 x 6.69 x 2.95 inches

Item Weight: 3.89 pounds

Power Supply: USB power adapter (included), 3 x D-size alkaline batteries (not included)

Battery Life (approx.): 200 days (battery alone)

Meals per Day: 1-6 programmable meals

Portions per Meal: 0-24 servings (approx. 6g per portion)

Suitable Kibble Size: 2-15mm (0.07-0.6 inches)

Target Species: Cats, Dogs (Medium Breeds, Small Breeders)

Included Components: Stainless steel bowls

Color: White

Care Instructions: Hand Wash Only (detachable parts)
