5. INSTALLATION

Follow these steps to properly install your portable air conditioner for optimal performance.

Window Kit Installation

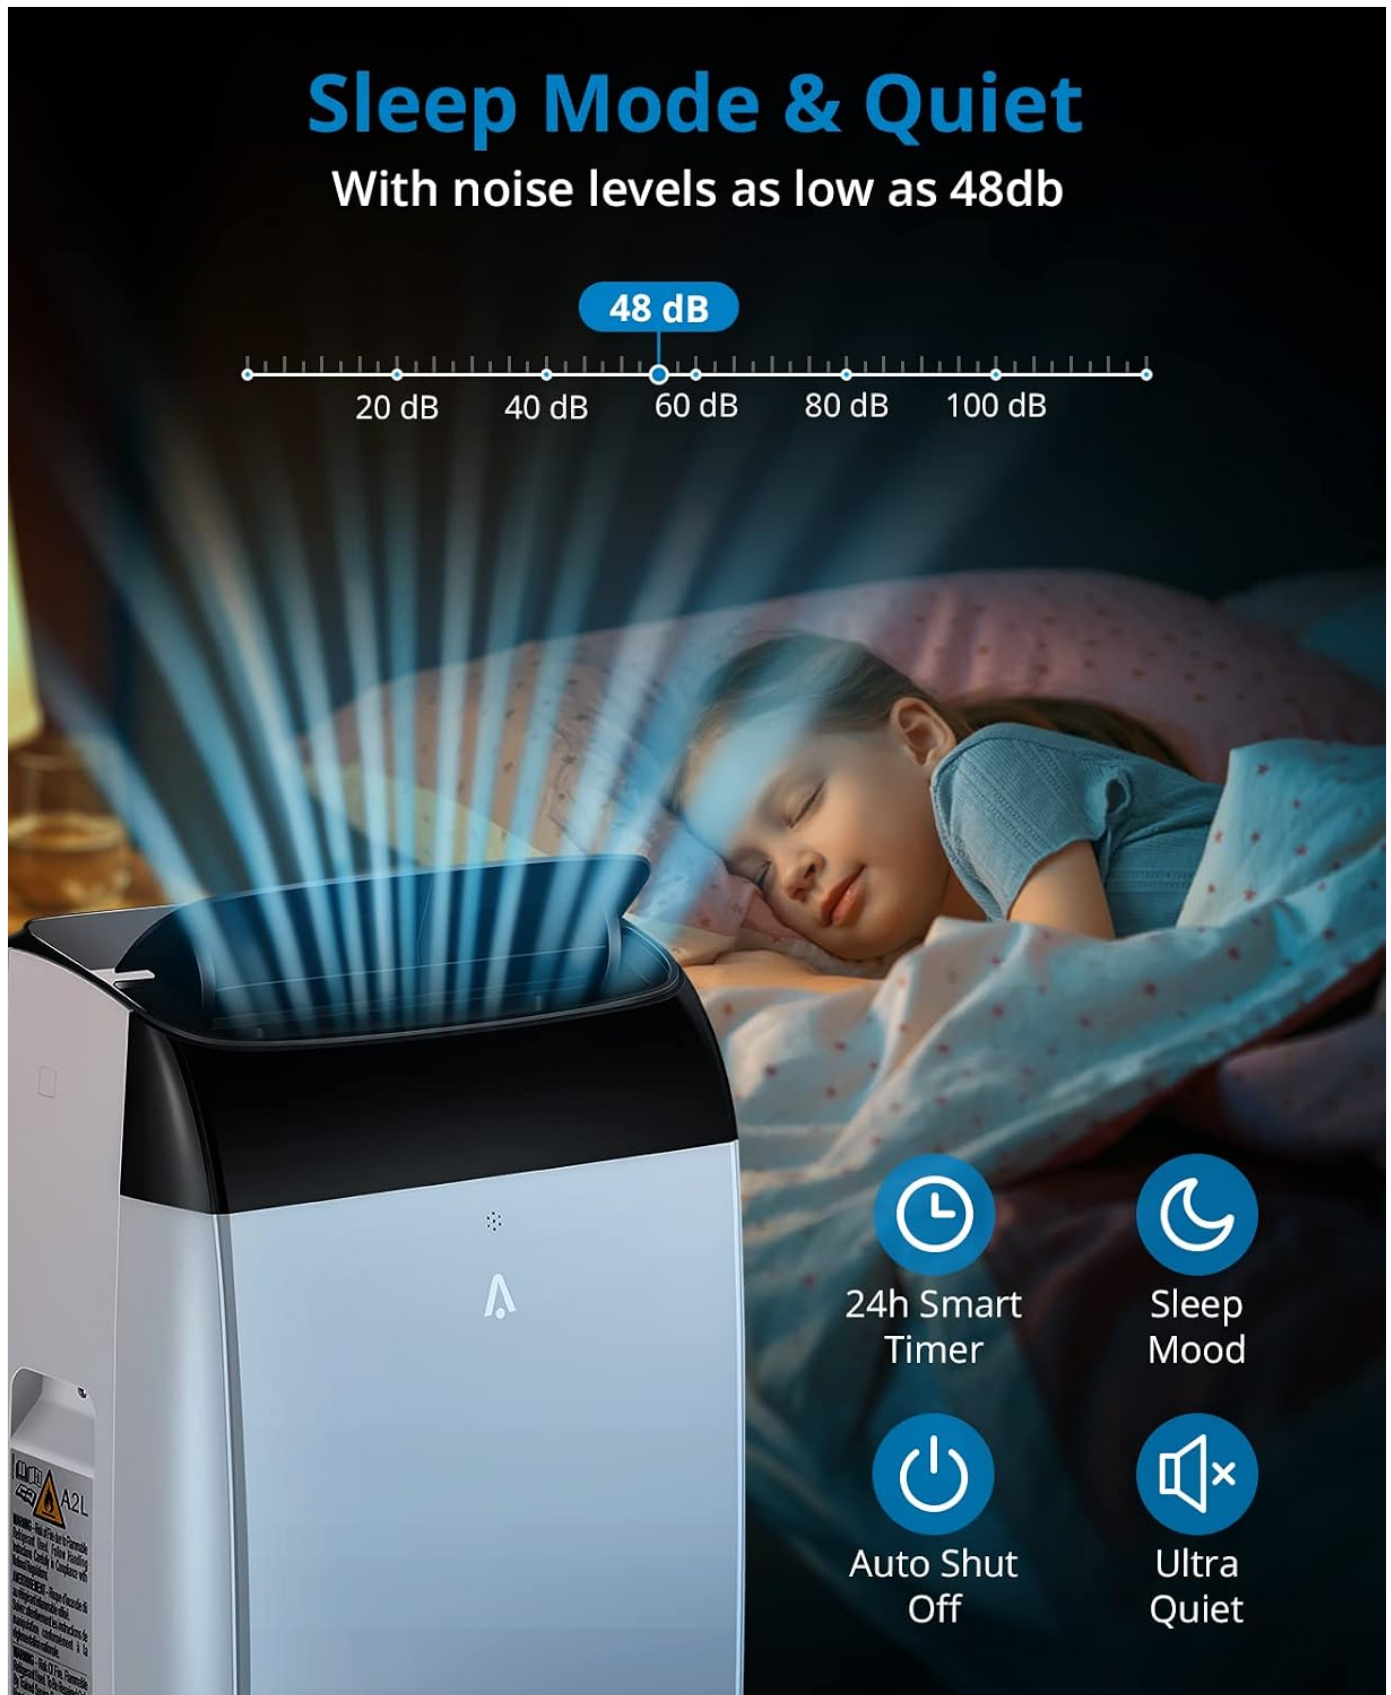

1. Measure your window opening to ensure it is compatible with the window vent installation kit. The kit is designed for

double/single-hung windows and sliding windows with heights between 20.47 inches and 39.9 inches.

2. Assemble the window slider kit by connecting the extension pieces as needed to fit your window frame securely.
3. Place the assembled window kit into the window opening and extend it to fit snugly. Close the window against the kit to hold it in place.
4. Attach one end of the exhaust hose to the air conditioner unit and the other end to the opening in the window kit. Ensure both connections are secure to prevent air leakage.

6. OPERATING INSTRUCTIONS

Your portable air conditioner offers multiple operating modes to provide comfort.

Operating Modes

- **Cooling Mode:** Provides powerful cooling for the room. Set your desired temperature between 64°F and 90°F.

- **Dehumidification Mode (Dry):** Reduces humidity in the air, removing up to 80 pints per day.
- **Fan Mode:** Circulates air without cooling. Choose between High, Low, or Auto fan speeds.
- **ECO Mode:** Optimizes energy consumption while maintaining comfort.
- **Sleep Mode:** Operates quietly with reduced fan speed and gradual temperature adjustments for comfortable sleep.

Using the Remote Control

Point the remote control directly at the receiver on the air conditioner unit. The remote allows you to power on/off, select modes, adjust temperature, set fan speed, and activate the timer or sleep function.

Self-Evaporation, Water-Draining Free

No need for repeated drainage, it can effectively reduce the drainage operation of air conditioners.

7. MAINTENANCE

Regular maintenance ensures the longevity and efficiency of your air conditioner.

Cleaning the Air Filter

The air filter should be cleaned regularly (e.g., every two weeks, depending on usage) to maintain air quality and cooling performance. A dirty filter can restrict airflow and reduce efficiency.

1. Unplug the air conditioner from the power outlet.
2. Locate the air filter panel, typically on the rear or side of the unit.
3. Remove the filter.
4. Clean the filter with a vacuum cleaner or wash it with warm, soapy water. Rinse thoroughly and allow it to air dry completely before reinserting.
5. Reinstall the dry filter and close the panel.

Draining Water

This unit features a self-evaporation system that minimizes the need for manual draining. However, in high humidity conditions, the internal water tank may fill up. When this occurs, the unit will stop operating and display an error code (e.g., 'FL' for full tank).

1. Unplug the air conditioner.
2. Locate the drain port at the bottom rear of the unit.
3. Place a shallow pan or tray beneath the drain port.
4. Remove the drain plug to allow water to flow out.
5. Once drained, replace the drain plug securely.

8. TROUBLESHOOTING

Refer to this section for solutions to common issues you may encounter.

Problem	Possible Cause	Solution
Unit does not turn on	No power supply; Power cord not plugged in; Fuse blown or circuit breaker tripped.	Ensure unit is plugged into a working outlet; Check household fuse/circuit breaker.
Unit does not cool effectively	Dirty air filter; Room too large; Doors/windows open; Exhaust hose not properly installed; Temperature setting too high.	Clean air filter; Ensure room size is within capacity (750 sq ft); Close all doors/windows; Check exhaust hose connection; Lower the set temperature.
Unit is noisy	Unit not on a level surface; Air filter dirty.	Place unit on a flat, stable surface; Clean air filter.
Water leakage	Drain plug loose; Unit tilted.	Ensure drain plug is securely in place; Place unit on a level surface.
Error code displayed	Specific internal issue; Water tank full (e.g., 'FL').	Refer to specific error code in a more detailed manual (if available) or contact customer support. For 'FL', drain the water tank.

If the problem persists after attempting these solutions, please contact customer support.
