

## Saphe 1014

# Saphe Drive Pro User Manual

Model: 1014 | Brand: Saphe

## INTRODUCTION

The Saphe Drive Pro is an advanced speed camera and hazard warning device designed to enhance road safety and help drivers avoid fines. Featuring a vibrant color display, it provides real-time information on speed limits, current speed, and alerts for various traffic incidents. The device integrates seamlessly with Apple CarPlay and Android Auto, ensuring all critical information is readily available. It operates using data from a large European traffic community, including Blitzer.de, and comes with a 12-month Saphe Premium subscription for continuous updates and features.

## SETUP AND INSTALLATION

### What's Included

Your Saphe Drive Pro package includes the following components:

- 1 x Saphe Drive Pro Traffic Alarm device
- 2 x Mounting Sets
- 1 x Saphe Drive Pro Adhesive Pad
- (Note: No cable is included as the device is battery-powered and connects wirelessly.)

Image: The contents of the Saphe Drive Pro box, showing the device, two mounting sets, and an adhesive pad.

## Mounting the Device

The Saphe Drive Pro is designed for easy installation on your car's dashboard. Use the provided adhesive pad and mounting sets to secure the device in a position that offers a clear line of sight to the road and is easily visible to the driver.

1. Choose a flat, clean surface on your dashboard.
2. Attach the adhesive pad to one of the mounting sets.
3. Securely attach the device to the mounting set.
4. Press the mounted device firmly onto the chosen dashboard location.

## Initial Connection and App Setup

To activate your Saphe Drive Pro and access its full features, you need to connect it to your smartphone via Bluetooth and set up the Saphe Link App.

- Download the "Saphe Link" app from your smartphone's app store (compatible with iOS 16+ and Android).
- Ensure Bluetooth is enabled on your smartphone.
- The device will automatically start when your car door opens or closes (due to vibration).
- Open the Saphe Link app and follow the on-screen instructions to pair your device.
- Allow the app to maintain a permanent Bluetooth connection for optimal performance.
- Activate your included 12-month Saphe Premium subscription within the app to unlock all features and future updates.

## OPERATING THE SAPHE DRIVE PRO

### Display Information

The 1.54-inch color display provides clear and concise information to the driver:

- **Current Speed:** Displays your real-time speed, measured by GPS.
- **Speed Limits:** Shows the current speed limit for the road you are on, and can indicate upcoming changes.
- **Warning Type:** Uses intuitive symbols to indicate speed cameras, traffic light cameras, or general hazards.
- **Distance to Incident:** Shows the remaining distance to the detected incident.
- **Average Speed:** For section controls, it can display your average speed.

Image: The Saphe Drive Pro display indicating current speed, a speed camera warning, and the distance to the camera.

Image: The Saphe Drive Pro display showing both the current speed limit and the next upcoming speed limit.

## Warning System

The device provides timely warnings for various road conditions:

- **Speed Cameras:** Alerts you to fixed and mobile speed cameras based on community data.
- **Hazards:** Warns of dangerous situations on the road, such as accidents or obstacles.
- **Speed Limit Assistant:** Can be configured to provide an acoustic warning if you exceed the posted speed limit.

Image: Saphe Drive Pro's core functions: helping to avoid fines and accidents, and warning of hazardous locations.

## Reporting Incidents

You can contribute to the community by reporting new incidents with a single button press:

- Press the **left button** to report a hazard or accident.
- Press the **right button** to report a speed camera.

## CarPlay and Android Auto Integration

The Saphe Link App can be mirrored onto your car's main display via Apple CarPlay or Android Auto, providing a larger view of warnings and traffic information.

Image: The Saphe Drive Pro device on the dashboard, with the car's main screen displaying a map and integrated Saphe app information.

## MAINTENANCE

### Charging

The Saphe Drive Pro is battery-powered. While charging time may be slow, a full charge provides a long operating time. Ensure the device is charged regularly to maintain optimal performance.

### Software Updates

Regular software updates are provided through the Saphe Link app. It is recommended to update your device periodically to ensure you have the latest features and traffic data. Your 12-month Premium subscription includes free access to these updates.

## TROUBLESHOOTING

- Connection Issues:** Ensure your smartphone is close to the device and has a clear, unobstructed line of sight. The Saphe Link app should be allowed to maintain a permanent Bluetooth connection.

- **Inaccurate Speed/Warnings:** This can sometimes occur if the phone's GPS signal is weak or if the app is not running optimally. Ensure your phone is not in a pocket where the signal might be blocked.
- **General Glitches:** Many issues can be resolved by ensuring your device and the Saphe Link app are running the latest software updates. Check the app for available updates.
- **Compatibility:** The Saphe Link app requires iOS 16 or higher for Apple devices. Ensure your smartphone meets the minimum operating system requirements.

## SPECIFICATIONS

Feature	Detail
Product Dimensions	6.92 x 4.22 x 2.03 cm
Weight	100 grams
Model Number	1014
Brand	Saphe
Compatible Devices	Smartphones with Apple CarPlay or Android Auto
