Beats MQLJ3LL/A

Beats Studio Buds + True Wireless Noise Cancelling Earbuds

Model: MQLJ3LL/A

INTRODUCTION

The Beats Studio Buds + are true wireless noise-cancelling earbuds designed to deliver an immersive audio experience with enhanced compatibility for both Apple and Android devices. This manual provides essential information for setting up, operating, maintaining, and troubleshooting your earbuds.

WHAT'S IN THE BOX

- Beats Studio Buds + Earbuds
- Pocketable charging case
- Eartips (four size options: XS, S, M, L)
- USB-C to USB-C charging cable
- User Manual

SETUP

Charging Your Earbuds

The Beats Studio Buds + provide up to 9 hours of listening time on a single charge, extending to 36 hours with the charging case. Ensure the case and earbuds are fully charged before first use. Use the provided USB-C to USB-C cable to charge the case.

Spatial Audio

For immersive listening

Compatible hardware and software required. Works with compatible content in supported apps. Not all content available in Dolby Atmos.

The Beats Studio Buds + and charging case offer up to 36 hours of combined battery life. Charge the case using the included USB-C cable.

Pairing with Your Device

For Apple devices, open the charging case near your iPhone or iPad and follow the on-screen prompts for one-touch pairing. For Android devices, download the Beats app and enable Fast Pair to connect your earbuds.

Finding Your Fit

Achieving a proper fit is crucial for optimal sound quality and effective noise cancellation. The Beats Studio Buds + come with four sizes of silicone ear tips (XS, S, M, L). Select the size that provides a comfortable and secure seal in your ear. Insert the earbud and gently rotate it downwards until it feels snug.

Battery Life

Up to 9 hours of listening time;
36 hours with the case

Testing conducted by Apple in March 2023 using preproduction Beats Studio Buds + and Charging Case units and software paired with iPhone 13 Pro units and prerelease software. The playlist consisted of 358 unique audio tracks purchased from the iTunes Store (256-Kbps AAC encoding). Volume was set to 50% and Active Noise Cancellation and Transparency were turned off. Testing consisted of full Beats Studio Buds + battery discharge while playing audio until the first Beats Studio Buds + stopped playback. Battery life depends on device settings, environment, usage, and many other factors.

Select the appropriate ear tip size and insert the earbud, rotating it downwards for a secure and acoustically sealed fit.

OPERATING

On-Device Controls

The Beats Studio Buds + feature on-device controls for managing calls and music playback. A single press typically plays/pauses music or answers a call. Double-pressing skips forward, and triple-pressing skips backward. Press and hold to switch between Active Noise Cancelling and Transparency modes, or to activate your voice assistant.

Active Noise Cancelling (ANC)

Up to 1.6x more Active Noise Cancelling power¹

Utilize the on-device controls for music playback, call management, and switching listening modes.

Active Noise Cancelling (ANC) and Transparency Mode

Active Noise Cancelling (ANC) blocks external sounds for an immersive listening experience. Transparency mode allows you to hear your surroundings while still enjoying your audio. Switch between these modes using the on-device controls.

Great fit means great sound.

Step 01

Beats Studio Buds + come with four ear tip sizes so you can find the perfect fit.

Step 02

Insert and rotate the earbud downwards until it forms a secure fit and acoustic seal.

Experience enhanced focus with Active Noise Cancelling, or stay aware of your environment with Transparency mode.

Spatial Audio

Beats Studio Buds + support Spatial Audio for an immersive, theater-like listening experience. This feature requires compatible hardware, software, and content.

On-Device Controls

Allow you to manage calls and control music

Spatial Audio provides an immersive listening experience with compatible content.

Making Calls

The earbuds feature voice-targeting microphones designed to filter background noise, ensuring clear call performance.

MAINTENANCE

Cleaning

Regularly clean your earbuds and charging case with a soft, dry, lint-free cloth. Avoid using abrasive materials or harsh chemicals. Ensure the charging contacts are free of debris.

Water Resistance

The Beats Studio Buds + are IPX4-rated sweat and water resistant, making them suitable for workouts and light rain. They are not designed for swimming or showering and should not be submerged in water.

TROUBLESHOOTING

No Sound or Connection Issues

If you experience no sound or connection issues, ensure the earbuds are charged and within Bluetooth range of your device. Try resetting the earbuds by placing them in the charging case, closing the lid for 10 seconds, then reopening.

Poor Fit or Sound Quality

If sound quality is poor or Active Noise Cancelling is ineffective, ensure you have selected the correct ear tip size for a secure seal. Experiment with different sizes to find the best fit for your ears.

SPECIFICATIONS

Feature	Detail
Model Number	MQLJ3LL/A
Product Dimensions	2.83 x 2.01 x 1 inches
Item Weight	2.89 ounces (earbuds and case)
