## WHAT'S IN THE BOX

---

Your Audio-Technica ATH-SQ1TW package includes the following components:

- Audio-Technica ATH-SQ1TW Wireless In-Ear Headphones (Pink/Brown)
- 12-inch USB-A/USB-C Charging Cable
- Ear Tips Set (XS/S/M/L)
- Protective Case

## SETUP

---

### 1. Initial Charging

Before first use, fully charge the headphones and their charging case. Place the earbuds into the charging case. The earbuds will automatically begin charging when placed inside the case. Connect the provided USB-A/USB-C charging cable to the charging case and a compatible USB power source.

### 2. Pairing with a Device

The headphones automatically turn on when removed from the case and enter pairing mode. For Android devices, the headphones support Fast Pair for convenient, one-touch connection. A pop-up will appear on your Android device's screen when the headphones are in pairing mode; simply touch it to connect. For other Bluetooth-enabled devices (smartphones, tablets,

laptops), go to your device's Bluetooth settings and select "ATH-SQ1TW" from the list of available devices. The Bluetooth connectivity range is up to 10 meters.

## OPERATING

---

### Touch Sensor Controls

The ATH-SQ1TW headphones feature intuitive touch sensor controls on each earbud. These controls allow you to:

- Play or pause music
- Skip between tracks
- Answer or end calls
- Adjust volume

Refer to the quick start guide included in the packaging for specific tap patterns for each function.

### Dual or Single-Ear Use

You can use either the left or right earbud independently for music playback or calls, providing flexibility based on your environment and preference. Simply remove one earbud from the case to use it in single-ear mode.

### Low Latency Mode

For an optimized experience when watching videos or playing games, activate the low latency mode. This feature minimizes sound delay, ensuring audio and video are perfectly synchronized. Consult the full user manual for instructions on how to enable this mode.

## MAINTENANCE

---

### Cleaning

Regular cleaning helps maintain the performance and longevity of your headphones. Use a soft, dry cloth to wipe the earbuds and charging case. For ear tips, remove them from the earbuds and gently clean with a mild soap solution if necessary, then rinse thoroughly and allow to dry completely before reattaching. Avoid using harsh chemicals or abrasive materials.

### Storage

When not in use, always store the headphones in their charging case to protect them from dust, damage, and to ensure they remain charged. Store in a cool, dry place away from direct sunlight and extreme temperatures.

## TROUBLESHOOTING

---

If you encounter issues with your ATH-SQ1TW headphones, try the following common troubleshooting steps:

- **No Sound:** Ensure the headphones are charged and properly paired with your device. Check the volume levels on both the headphones and your connected device.
- **Cannot Pair:** Make sure Bluetooth is enabled on your device and the headphones are in pairing mode (usually indicated by a flashing LED). Try turning Bluetooth off and on again on your device, or restarting both the headphones and your device.
- **Intermittent Connection:** Move closer to your connected device to ensure you are within the 10-meter Bluetooth range. Avoid environments with significant wireless interference.
- **Earbuds Not Charging:** Ensure the earbuds are correctly seated in the charging case and the case itself is charged. Clean

the charging contacts on both the earbuds and the case with a dry cotton swab.

- **Touch Controls Unresponsive:** Ensure your fingers are clean and dry. A factory reset (refer to the full manual for instructions) can sometimes resolve persistent control issues.

For more detailed troubleshooting or persistent issues, please refer to the comprehensive user manual available on the Audio-Technica website or contact customer support.
