4. TROUBLESHOOTING

This section addresses common concerns regarding the laptop sleeve.

Issue	Possible Cause	Solution
Laptop does not fit	Incorrect laptop size or laptop has a bulky hard case.	Verify your laptop's dimensions against the sleeve's internal dimensions (12.31" x 8.71" x 0.61"). The sleeve is designed for a snug fit; a very thick hard case might prevent proper closure.
Zipper is stiff or stuck	Dust/debris in zipper teeth or misalignment.	Gently clean the zipper teeth with a small brush. Apply a small amount of zipper lubricant (e.g., beeswax or silicone spray) if needed. Do not force the zipper.
Sleeve appears dirty	Accumulation of dust or minor stains.	Refer to the "Maintenance and Care" section for cleaning instructions.
