## ASSEMBLY INSTRUCTIONS

Assembly is required for this product. It is recommended to have two people for certain steps to ensure ease and safety. All necessary assembly tools are included.

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a clean, soft surface to prevent scratches. Identify each part using the provided diagram in your packaging.
2. **Assemble the Frame:** Begin by attaching the metal frame components. Ensure all screws are finger-tightened initially to allow for adjustments.
3. **Attach Desktop Panels:** Place the desktop panels onto the assembled frame. The L-shape design allows for reversible configuration (left or right orientation). Align the screw holes and secure the desktop panels to the frame. Once all panels are in place, tighten all screws on the frame and desktop.
4. **Install Footrests:** Attach the footrest panels to the lower sections of the desk legs as indicated in the assembly diagram. These provide additional stability and support.
5. **Attach Adjustable Foot Pads:** Screw the adjustable foot pads into the bottom of each leg. These can be adjusted to stabilize the desk on uneven surfaces.
6. **Position Monitor Stand:** Place the removable monitor stand on the desired section of the desktop. It is designed to be freely positioned.
7. **Install Metal Hook:** Attach the metal hook to either the left or right side of the desk frame, according to your preference.
