2.1 Unpacking and Preparation

1. Carefully unpack all components and verify against the parts list in your assembly guide.
2. Lay out all parts on a clean, soft surface (e.g., a blanket or carpet) to prevent scratches.
3. Identify all hardware and sort them for easy access. Extra hardware is often provided.

2.2 Assembly Steps

Follow the step-by-step visual instructions provided in the included assembly manual. Pay close attention to the orientation of parts, especially when attaching the main desktop and the L-shaped extension, as the desk is reversible.

- Begin by assembling the main desk frame, ensuring all screws are finger-tight before final tightening.

- Assemble the storage units, including the file drawers and shelves. The fabric drawers are designed for ease of assembly and weight reduction.
- Install the monitor stand and the recessed power strip according to the instructions. Ensure the power cord is routed safely.
- Affix the LED light strip. The strip typically comes with 3M adhesive tape and wire holders for neat installation.

The long monitor stand is designed to elevate your screens to an ergonomic viewing height, reducing neck and back strain.

- Place your monitors directly on the elevated shelf. The wide surface can accommodate multiple screens.
- Utilize the space underneath the monitor stand for additional storage of smaller items or to keep your desktop clear.

4. Maintenance

Regular maintenance will help preserve the appearance and functionality of your ODK L Shaped Desk.

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish. For the vintage wood finish, a dry cloth is often sufficient for light dusting.
- **Stability Check:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if any wobbling or looseness is detected.

- **LED Strip:** Ensure the LED strip and its connections remain dry and free from dust. If the adhesive weakens, re-secure with appropriate tape or clips.
- **Power Outlet:** Keep the power outlets clean and free of debris. Do not spill liquids into the outlets.
- **Weight Capacity:** Do not exceed the recommended maximum weight of 50 pounds on the desktop or shelves to prevent damage.

5. Troubleshooting

This section addresses common issues you might encounter with your ODK L Shaped Desk.

Problem	Possible Cause	Solution
Desk wobbles or is unstable.	Loose screws; uneven floor; incorrect assembly.	Ensure all screws are fully tightened. Adjust the adjustable foot pads on the desk legs to level the desk on uneven surfaces. Review assembly instructions to confirm correct part orientation.
LED lights do not turn on or function incorrectly.	Power connection issue; remote control battery low; LED strip damage.	Check if the power plug for the LED strip is securely connected to the power outlet. Ensure the desk's main power cord is plugged into a working wall outlet. Verify the remote control battery. Inspect the LED strip for any visible damage.
Power outlets or USB ports are not working.	Desk's main power cord unplugged; circuit breaker tripped; faulty device.	Confirm the desk's main power cord is securely plugged into a functional wall outlet. Check your home's circuit breaker. Test with a different device to rule out a faulty device.
File drawers are difficult to open/close.	Overloaded drawer; fabric misaligned; obstruction.	Reduce the weight in the drawer. Ensure the fabric drawer is properly seated within its frame and not catching on any edges. Check for any obstructions inside or around the drawer.
