## X-PRO Fiji 150

# X-PRO 150cc Moped Street Gas Moped Instruction Manual

Model: Fiji 150

Brand: X-PRO

## 1. INTRODUCTION

This manual provides essential information for the safe and efficient operation, assembly, and maintenance of your X-PRO 150cc Moped Street Gas Moped, Model Fiji 150. Please read this manual thoroughly before assembly and operation to ensure proper use and to prevent damage or injury.

## **2. SETUP AND ASSEMBLY**

Your X-PRO Fiji 150 Moped requires some assembly upon arrival. Follow these steps carefully. Refer to the assembly video for visual guidance.

### **2.1 Unboxing and Frame Removal**

The moped is shipped securely within a metal frame and cardboard box. Carefully remove the outer packaging.

*Figure 2: Moped secured within its metal shipping frame.*

Use appropriate tools to carefully unbolt and remove the metal frame surrounding the moped. Ensure the moped is stable before proceeding.

## **2.2 Handlebar Installation**

The handlebar assembly needs to be attached to the steering column. Ensure all cables and wires are routed correctly and not pinched.

## **2.3 Front Wheel and Fender Assembly**

Install the front wheel, ensuring the brake caliper aligns correctly with the disc. Attach the front fender securely.

## **2.4 Battery Connection**

Locate the battery compartment, typically under the floorboard. Connect the positive (red) and negative (black) terminals to the battery. Ensure connections are tight and secure.

## **2.5 Mirror Installation**

Install the rearview mirrors into their designated mounting points on the handlebar. Adjust for optimal visibility.

## **2.6 Rear Rack Installation**

Attach the rear rack to the designated mounting points at the rear of the moped. Ensure all bolts are tightened securely.

## **2.7 Assembly Video Guide**

For a comprehensive visual guide on the assembly process, please watch the official X-PRO Fiji 150 Scooter Assembly Video:

*Video 1: X-PRO Fiji 150 Scooter Assembly Video. This video demonstrates the step-by-step assembly process for the moped, including unboxing, attaching the handlebars, installing wheels, connecting the battery, and other essential setup procedures.*

## 3. OPERATING INSTRUCTIONS

---

Familiarize yourself with the moped's controls before riding. Always wear appropriate safety gear, including a helmet.

### 3.1 Pre-Ride Checks

- **Tires:** Check tire pressure and condition.
- **Brakes:** Test front and rear brakes for proper function.
- **Lights:** Verify headlights, taillights, and turn signals are working.
- **Fuel:** Ensure sufficient fuel level. Use recommended fuel type.
- **Oil:** Check engine oil level.

### 3.2 Starting the Moped

1. Insert the key into the ignition and turn it to the 'ON' position.
2. Ensure the kill switch is in the 'RUN' position.
3. Apply the brake lever (either front or rear).
4. Press the electric start button. If the engine does not start, try using the kick-start lever.

### 3.3 Riding the Moped

Once the engine is running, slowly twist the throttle grip to accelerate. Release the throttle to decelerate. Use the brake levers to stop. Practice in a safe, open area before riding in traffic.

## 4. MAINTENANCE

---

Regular maintenance is crucial for the longevity and safe operation of your moped.

### 4.1 Routine Checks

- **Oil Change:** Change engine oil every 500-1000 miles or as recommended in the full owner's manual.
- **Tire Pressure:** Check weekly. Refer to the tire sidewall for recommended pressure.
- **Brake Fluid:** Check fluid level monthly. Top up if necessary with recommended fluid.
- **Chain/Belt:** Inspect for proper tension and lubrication (if applicable).
- **Spark Plug:** Inspect and clean or replace as needed.

### 4.2 Cleaning and Storage

Clean your moped regularly with mild soap and water. Avoid high-pressure washers on electrical components. When storing for extended periods, ensure the fuel tank is full (to prevent condensation) and the battery is disconnected or on a trickle charger.

## 5. TROUBLESHOOTING

---

This section addresses common issues you might encounter with your moped.

### 5.1 Engine Won't Start

- **No Fuel:** Check fuel level.
- **Kill Switch:** Ensure it's in the 'RUN' position.

- **Battery:** Check battery connections and charge level.
- **Spark Plug:** Inspect for fouling or damage.

### 5.2 Poor Performance

- **Low Tire Pressure:** Inflate tires to recommended levels.
- **Clogged Air Filter:** Clean or replace the air filter.
- **Carburetor Issues:** May require professional adjustment or cleaning.

## 6. SPECIFICATIONS

Specification	Value
Brand	X-PRO
Model Name	Fiji 150
Item Weight	290 Pounds
Weight Limit	340 Pounds
Number of Wheels	2
Wheel Material	Aluminum
Frame Material	Aluminum
Wheel Size	13 Inches
Brake Style	Disc/Drum
Recommended Uses	urban commuting, recreational riding

## 7. WARRANTY AND SUPPORT

For warranty information, please refer to the documentation provided at the time of purchase. X-PRO is committed to customer satisfaction and offers support for parts and technical assistance.

If you require assistance or have questions not covered in this manual, please contact the seller or manufacturer directly through the contact information provided with your purchase or on the official X-PRO website.
