Setup and Assembly

Before You Begin

- Choose a clear, spacious area for assembly.
- Unpack all components and lay them out on a soft, clean surface to prevent scratches.
- Identify each part and hardware piece using the provided parts list in the assembly kit.
- Do not fully tighten any screws until all components are loosely assembled. This allows for easier alignment.

Assembly Steps

1. **Attach Side Rails:** Connect the side rails to the headboard and footboard using the provided bolts and the Allen wrench. Do not fully tighten yet.
2. **Install Center Support:** Secure the center support beam and its legs to the designated points on the bed frame.
3. **Place Wooden Slats:** Lay the wooden slats across the bed frame. The slats feature a Velcro fastening system for quick installation and noise reduction. Ensure each slat is properly aligned and secured to the Velcro strips on the side rails.
4. **Adjust Headboard Height:** The headboard offers adjustable height settings. Choose your desired height (between 41.7" and 47.7") and secure it with the appropriate hardware.
5. **Final Tightening:** Once all components are in place and aligned, systematically tighten all bolts and screws securely.

Maintenance

Cleaning

- **Upholstered Fabric:** For general cleaning, gently vacuum the fabric to remove dust. For spills or stains, spot clean immediately with a clean, damp cloth and a mild fabric cleaner. Blot the area gently; do not rub vigorously. Allow to air dry completely.
- **Metal and Wood Components:** Wipe down metal and wood parts with a soft, dry cloth. Avoid using harsh chemicals or abrasive cleaners.

Regular Checks

Periodically (e.g., every 3-6 months), inspect all bolts, screws, and connections to ensure they remain tight. Re-tighten any loose hardware to maintain the bed frame's stability and prevent noise.

Troubleshooting

Common Issues and Solutions

- **Bed Frame is Noisy or Squeaks:**
  - Ensure all assembly bolts and screws are fully tightened.

  - Check that the center support legs are firmly on the floor and not wobbling.
