VEVOR Pull Out Cabinet Organizer

VEVOR 12.5"W x 16.5"D x 3.5"H Pull Out Cabinet Organizer User Manual

MODEL: PULL OUT CABINET ORGANIZER (B0C33QBLZF)

1. Introduction

This manual provides essential information for the safe and efficient installation, operation, and maintenance of your VEVOR 12.5"W x 16.5"D x 3.5"H Pull Out Cabinet Organizer. Please read these instructions thoroughly before assembly and retain them for future reference.

2. Product Features

- **Space Optimization:** Designed to create larger storage space within small cabinets, suitable for various items like pots, pans, seasoning jars, and cleaning supplies.
- **Smooth & Quiet Operation:** Features an industrial-grade ball sliding system for effortless and silent gliding, even under heavy loads.
- **Durable Construction:** Manufactured from high-quality, chrome-plated steel, offering resistance to rust and deformation. Capable of holding up to 28.6 lbs (13 kg).
- **Easy to Clean:** The chrome-plated surface is designed for easy cleaning, and the tray is detachable for convenience.
- **Versatile Installation:** Can be installed on either the left or right side of the cabinet, accommodating various cabinet layouts and avoiding obstructions like water pipes.

3. Safety Information

Always observe the following safety precautions during installation and use:

- Ensure the cabinet surface is clean, dry, and structurally sound before installation.

- Verify cabinet dimensions carefully to ensure proper fit and avoid obstructions like door hinges or pipes.
- Do not exceed the maximum load capacity of 28.6 lbs (13 kg) to prevent damage or injury.
- Use appropriate tools for installation and follow all steps as outlined in this manual.
- Keep small parts and tools away from children during assembly.

4. Package Contents

Upon opening the package, verify that all components are present and undamaged:

- Pull Out Cabinet Shelf (1 unit)
- PP Material Frosted Pad (1 unit)
- Partition Rods (3 units)
- Mounting Hardware (screws)
- User Manual

6. Installation & Setup

Follow these steps for a quick and simple installation:

1. **Measure Your Cabinet:** Before starting, measure the width, depth, and height of your cabinet opening. Ensure there are no obstructions like door hinges or pipes that would prevent the organizer from sliding smoothly. The recommended minimum installation size is 14"W x 17.5"D x 7"H.
2. **Position the Organizer:** Place the assembled pull-out organizer into the cabinet at your desired location. Ensure it is centered and aligned properly.
3. **Secure the Base:** Pull out the basket to expose the mounting holes on the slide rails. Use a screwdriver to drill in the provided screws, securing the base of the organizer to the cabinet floor. Repeat for all mounting points.
4. **Insert Frosted Pad:** Place the PP material frosted pad into the bottom of the basket. This pad helps prevent small items from falling through and provides a stable surface.
5. **Adjust Partition Rods:** If desired, set up the partition rods by inserting them into the designated slots on the basket. Adjust their positions to create compartments for different items.

■ QUICK & SIMPLE SETUP

Few steps needed, and get organized in no time

7. Operation

To use your VEVOR Pull Out Cabinet Organizer:

- Gently pull the front of the basket to slide it out. The industrial-grade ball bearing slides ensure a smooth and quiet extension.
- Place or retrieve items from the basket. The full extension design allows easy access to items at the back.
- Push the basket back into the cabinet until it is fully retracted.

8. Maintenance

To ensure the longevity and optimal performance of your cabinet organizer:

- **Cleaning:** Wipe the chrome-plated steel surfaces with a soft, damp cloth and mild detergent. Avoid abrasive cleaners or harsh chemicals that could damage the finish. The detachable tray can be removed for thorough cleaning.
- **Lubrication:** Periodically check the slide rails for smooth operation. If necessary, apply a small amount of silicone-based lubricant to the ball bearings to maintain effortless gliding.
- **Inspection:** Regularly inspect all screws and connections to ensure they remain tight. Tighten any loose fasteners to maintain stability.

9. Troubleshooting

If you encounter any issues with your VEVOR Pull Out Cabinet Organizer, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Organizer does not slide smoothly.	Dust or debris in rails; lack of lubrication; uneven installation.	Clean rails and apply lubricant. Check if the base is level and securely mounted.
Organizer feels wobbly or unstable.	Loose mounting screws; incorrect installation.	Tighten all mounting screws. Re-check installation steps to ensure proper alignment and secure fastening.
Items fall through the wire basket.	Frosted pad not in place or damaged.	Ensure the PP material frosted pad is correctly inserted at the bottom of the basket. Replace if damaged.
Organizer hits cabinet door/frame.	Incorrect cabinet measurement or placement.	Verify cabinet dimensions and ensure the organizer is installed with sufficient clearance from the door and hinges.

10. Warranty and Support

VEVOR is committed to providing quality products and excellent customer service. If you require assistance with missing accessories, instructions, or support during installation, please do not hesitate to contact us.

We will endeavor to provide the best possible service.
