

**NIU KQi Youth+**

## **NIU KQi Youth+ Electric Kick Scooter User Manual**

Model: KQi Youth+ | Brand: NIU

### **1. INTRODUCTION**

---

This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your NIU KQi Youth+ Electric Kick Scooter. Please read this manual thoroughly before using the scooter to ensure proper handling and to prevent injury or damage.

The NIU KQi Youth+ is designed for children aged 6-14 with a height between 48-63 inches, offering a fun and safe riding experience with adjustable speed modes and durable construction.

## 2. SAFETY GUIDELINES

Your safety is paramount. Always adhere to the following safety guidelines:

- Always wear a helmet and appropriate protective gear (knee pads, elbow pads) when riding.
- Ensure the scooter is fully charged before each use.
- Do not ride in heavy rain or through deep puddles. The scooter has an IP54 water resistance rating, suitable for light drizzle.
- Observe all local traffic laws and regulations.
- Do not perform stunts or ride recklessly.
- Supervise young riders at all times.
- The maximum weight limit for the rider is 132 pounds.

*Image: An adult assisting a child with a helmet, emphasizing the importance of safety gear.*

## 3. SETUP AND ASSEMBLY

The NIU KQi Youth+ Electric Kick Scooter comes with necessary installation accessories. Follow these general steps for initial setup:

1. **Unboxing:** Carefully remove all components from the packaging.
2. **Handlebar Attachment:** Securely attach the handlebar to the main stem. Ensure all connections are firm and screws are tightened according to the included quick start guide (if applicable).

3. **Initial Charge:** Before first use, fully charge the scooter's battery. The charging time is approximately 4 hours.
4. **Pre-Ride Check:** Verify that all parts are securely fastened, brakes are functional, and tires are in good condition.

## 4. OPERATING INSTRUCTIONS

### 4.1 Powering On/Off

To power on the scooter, press and hold the power button located on the LED display. Repeat to power off.

### 4.2 Riding Modes

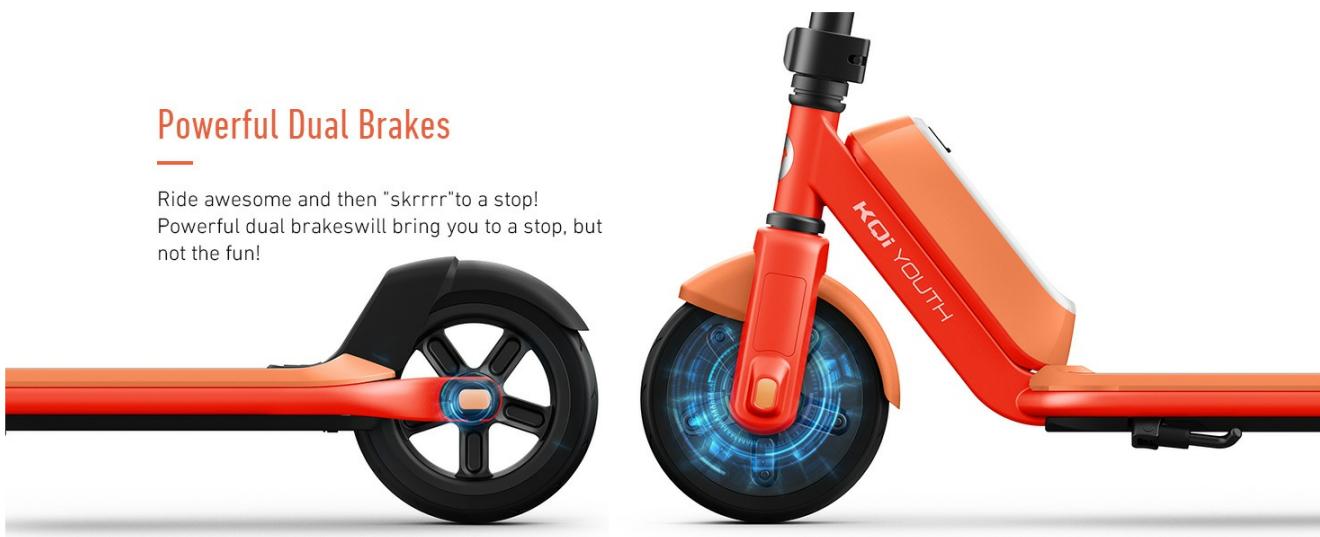

The KQi Youth+ features two distinct riding modes:

- **Safe Mode:** Limits speed up to 6.2 mph (10 km/h). Ideal for young and first-time riders to build confidence.
- **Sport Mode:** Allows speeds up to 10 mph (16 km/h), utilizing the 150W motor for full power.

Switch between modes using the control button on the handlebar. The LED display will indicate the current mode.

## Powerful Dual Brakes

Ride awesome and then "skrrrr" to a stop!  
Powerful dual brakes will bring you to a stop, but not the fun!

*Image: Handlebar view illustrating the Safe Mode (Green 'M') and Sport Mode (Red 'M') indicators on the display.*

### 4.3 Acceleration and Braking

The scooter features a half-twist throttle, designed for easy use by smaller hands. To accelerate, gently twist the throttle. To slow down or stop, utilize the dual braking system:

- **Electronic Brake (front):** Activated via the brake lever on the handlebar.
- **Mechanical Brake (rear):** Activated by pressing down on the rear fender.

Always apply brakes smoothly to maintain control.

*Image: Detailed view of the front and rear wheels, highlighting the electronic and mechanical braking components.*

### 4.4 Tire Technology

The KQi Youth+ is equipped with NIU's patented AirStryke Technology tires. These tires combine solid rubber and soft, shock-absorbing PU rubber for a flat-proof and comfortable ride. The 7.5-inch front wheel is designed to roll easily over small cracks, bumps, and minor obstacles.

## Fun Swappable Griptape

Two patterns ship in box, or create your own to express your style.

*Image: Close-up of the scooter's tire, illustrating the AirStryke Technology for enhanced durability and comfort.*

## 5. MAINTENANCE

Regular maintenance ensures the longevity and safe operation of your scooter.

- **Cleaning:** Wipe down the scooter with a damp cloth. Do not use high-pressure water jets or immerse the scooter in water.
- **Battery Care:** The scooter features the NIU Exclusive Battery Management System (BMS) with 14 types of protection, including overcharge, over-discharge, and temperature protection. For optimal battery life, avoid completely draining the battery and store the scooter in a cool, dry place when not in use. Charge regularly, even if not used frequently.
- **Brake Inspection:** Periodically check the functionality of both electronic and mechanical brakes. Ensure they respond promptly and effectively.
- **Fastener Check:** Regularly inspect all screws and fasteners to ensure they are tight and secure.
- **Tire Inspection:** Although flat-proof, inspect tires for any signs of wear or damage.

With 14 types of protections, the NIU Battery Management System (BMS) has safely carried millions of riders more than 7 billion miles. Your feet are in good hands.

*Image: Infographic detailing the 14 types of protection offered by the NIU Battery Management System (BMS).*

## 6. TROUBLESHOOTING

---

If you encounter issues with your NIU KQi Youth+ scooter, consider the following common solutions:

- **Scooter Not Turning On:**

- Ensure the battery is charged.
- Check if the power button is being pressed correctly.

- **Reduced Performance/Speed:**

- Verify the scooter is in Sport Mode for maximum speed.
- Check battery level; performance may decrease with low charge.
- Ensure the rider's weight does not exceed the 132-pound limit.

- **Brakes Not Responding:**

- Inspect brake levers and cables for any obstructions or damage.
- For mechanical brake, ensure the fender is not obstructed.

For persistent issues not covered here, please contact NIU customer support.

## 7. SPECIFICATIONS

---

Feature	Detail
Brand	NIU
Model Name	KQi Youth
Color	Blue
Age Range (Description)	Age 6-14
Special Feature	LED Display, Colorful LED Lights, UL 2272 Certified
Weight Limit	132 Pounds
