OPERATING INSTRUCTIONS

To apply the perfume, hold the bottle approximately 6-8 inches away from your body. Target pulse points such as your wrists, neck, and behind the ears for optimal scent diffusion. Avoid rubbing the perfume into your skin after application, as this can alter the fragrance notes and reduce its longevity.

CARE AND STORAGE

To preserve the integrity and longevity of your perfume's scent, store the bottle in a cool, dark place. Avoid direct sunlight and extreme temperature fluctuations, as these can degrade the fragrance over time.

TROUBLESHOOTING

If you find the scent is not lasting as long as expected, ensure you are applying it to pulse points where body heat can help diffuse the fragrance. Skin hydration can also affect longevity; consider applying an unscented moisturizer before your perfume. For any concerns regarding the product's performance, please refer to the contact information provided in the Warranty and Support section.
