## Hudson Valley Lighting 8121-AGB

# Hudson Valley Lighting Edmonton 8121-AGB 5-Light Lantern Instruction Manual

Model: 8121-AGB

## INTRODUCTION

This manual provides comprehensive instructions for the safe installation, operation, and maintenance of your Hudson Valley Lighting Edmonton 8121-AGB 5-Light Lantern. Please read all instructions carefully before beginning installation and retain this manual for future reference.

The Edmonton 5-Light Lantern features an Aged Brass finish and a clear, handblown glass shade, designed for indoor use. It requires incandescent lamp types.

## IMPORTANT SAFETY INFORMATION

**WARNING: RISK OF ELECTRIC SHOCK. Ensure power is turned off at the main circuit breaker or fuse box before installation or servicing.**

Always consult a qualified electrician for installation if you are unsure about the process. Follow all local electrical codes and ordinances.

- Do not install this fixture in wet or damp locations.
- Use only the specified bulb type and wattage.
- Do not exceed the maximum wattage indicated on the fixture.
- Handle glass components with care to prevent breakage.
- Keep flammable materials away from the light fixture.

## PACKAGE CONTENTS

Verify that all components are present before beginning installation. If any parts are missing or damaged, contact customer service.

- Fixture Assembly (Canopy, Rods, Frame, Socket Cluster)

- Glass Shade
- Mounting Hardware (Crossbar, Screws, Wire Nuts)
- Instruction Manual

Figure 1: Complete Edmonton 5-Light Lantern assembly.

## SETUP AND INSTALLATION

---

Professional installation is recommended. Ensure power is disconnected at the circuit breaker before proceeding.

1. **Prepare for Installation:** Turn off power at the main electrical panel. Clear the work area.
2. **Mount the Crossbar:** Attach the mounting crossbar to the junction box using the provided screws. Ensure it is securely fastened.
3. **Adjust Rod Length (if applicable):** Determine the desired hanging height and assemble the appropriate length of extension rods.
4. **Wire the Fixture:** Connect the fixture's wires to the house wires according to standard electrical practices (black to black, white to white, ground to ground). Secure connections with wire nuts.
5. **Secure the Canopy:** Carefully push the wired fixture up to the ceiling, tucking wires into the junction box. Secure the canopy to the mounting crossbar with the provided screws.
6. **Install Light Bulbs:** Screw in the recommended incandescent bulbs (not included) into the sockets. Do not exceed the maximum wattage.
7. **Attach Glass Shade:** Carefully place the handblown glass shade over the fixture and secure it according to the design (specific mechanism not detailed in product description, assume a common securing method like screws or a collar).

Figure 2: Detail of the fixture's internal components and Aged Brass finish.

## OPERATION

---

Once installed and power is restored, the Edmonton 5-Light Lantern operates like any standard ceiling fixture. Use a wall switch (not included) to turn the light on and off.

- Ensure all bulbs are securely screwed into their sockets.
- If using a dimmer switch, ensure it is compatible with incandescent bulbs and the total wattage of the fixture.

## MAINTENANCE

---

Regular cleaning will help maintain the appearance and performance of your fixture.

- **Cleaning the Fixture:** Turn off power before cleaning. Wipe the metal parts with a soft, dry cloth. Do not use abrasive cleaners, polishes, or solvents as they may damage the finish.
- **Cleaning the Glass Shade:** The clear handblown glass shade can be gently wiped with a soft, damp cloth. For stubborn marks, use a mild glass cleaner applied to the cloth, not directly to the glass. Ensure the glass is completely dry before restoring power.
- **Bulb Replacement:** Turn off power before replacing bulbs. Allow bulbs to cool completely. Replace with the same type and wattage of incandescent bulbs.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Light does not turn on.	<ul style="list-style-type: none"> <li>Power is off at the circuit breaker.</li> <li>Loose wire connections.</li> <li>Defective bulb.</li> </ul>	<ul style="list-style-type: none"> <li>Check circuit breaker and restore power.</li> <li>Verify all wire connections are secure (ensure power is off first).</li> <li>Replace bulb with a new one.</li> </ul>
Flickering light.	<ul style="list-style-type: none"> <li>Loose bulb.</li> <li>Incorrect dimmer switch.</li> </ul>	<ul style="list-style-type: none"> <li>Tighten bulb.</li> <li>Ensure dimmer is compatible with incandescent bulbs.</li> </ul>
Fixture hums.	<ul style="list-style-type: none"> <li>Incompatible dimmer switch.</li> </ul>	<ul style="list-style-type: none"> <li>Replace dimmer with a high-quality, compatible incandescent dimmer.</li> </ul>

## SPECIFICATIONS

Attribute	Detail
Model Number	8121-AGB
Brand	Hudson Valley Lighting
