## Mould King 20008

# Mould King 20008 Technik CJ-10 Missile Vehicle Building Block Set Instruction Manual

## INTRODUCTION

Thank you for choosing the Mould King 20008 Technik CJ-10 Missile Vehicle Building Block Set. This comprehensive kit allows you to construct a detailed military-style missile vehicle with advanced remote and app-controlled functions. This manual provides essential information for assembly, operation, maintenance, and troubleshooting to ensure an optimal experience with your 4848-piece model.

## SETUP AND ASSEMBLY

---

The Mould King 20008 set includes 4848 building blocks and an assembly manual. Follow the step-by-step instructions provided in the dedicated assembly manual for construction.

### Component Preparation

- **Sorting:** Before beginning assembly, sort all components to ensure no parts are missing and to facilitate easier construction.
- **Missing Parts:** If any parts are missing from your kit, please refer to the 'Support' section for contact information.

### Battery Installation

This model requires **two 2.4G lithium batteries** for operation. Locate the battery compartments on the model and the remote control. Insert the batteries according to the polarity indicators. Ensure the batteries are fully charged before first use.

### Remote Control Pairing

After installing batteries, turn on both the model and the remote control. Follow the pairing instructions in the assembly manual to establish a connection between the remote control and the vehicle. The model also supports app control; download the Mould King app and follow in-app instructions for pairing.

## OPERATING INSTRUCTIONS

---

The Mould King 20008 offers a range of dynamic functions controlled via the included remote or a dedicated app.

### Vehicle Movement

- Use the joystick or directional controls on the remote/app to move the vehicle forward, backward, and steer left or right.

### Special Functions

- **Front Cab Operation:** The front of the vehicle can be opened and closed remotely, revealing internal mechanisms.
- **Stabilizer Deployment:** The vehicle features four deployable stabilizers (often referred to as 'helpers') that can be lowered to stabilize the chassis for missile operations.

Image: The four stabilizers extending from the vehicle's chassis to provide stability.

- **Missile Bay Control:** The missile compartment can be raised and lowered remotely.
- **Missile Compartment Doors:** The three missile compartments can be opened individually.
- **Missile Launch Simulation:** The model is designed to simulate missile launches.

## MAINTENANCE

---

Proper maintenance ensures the longevity and functionality of your Mould King 20008 model.

### Cleaning

- Use a soft, dry cloth to gently wipe dust and debris from the model.
- Avoid using water or chemical cleaners, as these can damage the plastic components and electronic parts.

### Storage

- Store the model in a cool, dry place away from direct sunlight and extreme temperatures.
- If storing for an extended period, remove batteries from both the model and the remote control to prevent leakage.
- Keep all components organized, ideally in their original packaging or a dedicated storage container, to prevent loss.

## TROUBLESHOOTING

---

If you encounter issues with your Mould King 20008, refer to the following common solutions:

Problem	Possible Cause	Solution
Model does not respond to remote/app.	Low batteries, improper pairing, power switch off.	Check and replace/recharge batteries. Re-pair remote/app with the model. Ensure power switches are ON.
Missing building blocks.	Packaging error or accidental loss during assembly.	Carefully check all packaging materials. Contact customer support as detailed in the 'Support' section.
Motor functions (e.g., missile bay lift) are not working.	Incorrect assembly of motor, wiring issue, or obstruction.	Review the assembly manual for correct motor placement and wiring. Check for any physical obstructions.
Difficulty during assembly.	Complex step, unclear instruction.	Carefully re-read the assembly manual for the specific step. Ensure all pieces are correctly oriented.

## SPECIFICATIONS

---

**Model Name:** CJ-10 Missile Vehicle

**Model Number:** 20008

**Brand:** Mould King

**Number of Pieces:** 4848

**Product Dimensions (L x W x H):** 84 x 26 x 24 cm (33.1 x 10.2 x 9.4 inches)

**Material:** Plastic

**Color:** Green (Camouflage)

**Control Method:** Remote Control & App Control

**Power Source:** Battery (2x 2.4G Lithium Batteries included)

**Motors:** 1 Servo Motor, 7 L Motors

**Special Features:** Rechargeable, Remote-controlled front cab, Deployable stabilizers, Lifting missile bay, Opening missile compartments, Simulated missile launch.

**Recommended Age:** 8 years and older

**Educational Objective:** Creative thinking, Engineering skills

**Theme:** Military, Army

**UPC:** 705736940414

## WARRANTY INFORMATION

---

Mould King offers a **1-month money-back guarantee** on your purchase if you are not satisfied. Please retain your proof of purchase for warranty claims.

## SUPPORT

---

For any inquiries, technical assistance, or if you find that your building kit is missing parts, please contact Mould King customer support. We are committed to ensuring your satisfaction and will provide missing parts free of charge.

Please refer to the contact information provided in your product packaging or visit the official Mould King website for support details.
